## **Modern African Wars Vol 1 Rhodesia 1965 8:**

**The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980** Darlington Mutanda, 2016-11-10 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966 1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower

## **Pan-Africanism in Modern Times** Olayiwola

Abegunrin, Sabella Ogbobode Abidde, 2016-06-15 For about one hundred years Pan Africanism as a social cultural economic political and philosophical idea thrived Towards the tail end of the twentieth century however it waned But in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in Africa s landscape and consciousness In an increasingly interdependent and interrelated world this book also suggests that Pan Africanism will undergo a metamorphosis problems and challenges will be seen and tackled from the globalization and global common perspective Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory

[The Rise and Fall of Modern Empires, Volume IV](#) Martin Shipway, 2016-12-05 The collection of essays in this volume offers an overview of scholarly approaches to the ways in which diverse actors representing the colonised or the

colonising nations or indeed the international community reacted to colonialism during the lifetime of the modern colonial empires or in their aftermath The coverage is broad in terms of geographical scope and historical period with articles on the major colonial empires in Asia and Africa and the imperial centres of Paris London and Berlin from the conquests of the late nineteenth century to the period of decolonisation The selection also reflects recent academic trends by focusing on countries whose colonial past and experience of decolonisation have been studied and debated with particular intensity such as Algeria Kenya and India The volume draws on previously published articles and book chapters by leading international scholars writing in or translated into English and includes a critical introduction which situates each essay in relation to recent debates in this dynamic and expanding field of study      *The Journal of Military History* ,1989 Includes scholarly articles and book reviews on topics in military history      **Disarmament, Demobilization and Reintegration in Southern Africa** Gwinyayi Albert Dzinesa,2017-08-24 This book is a critical comparative reflection of the post colonial conflict Disarmament Demobilization and Reintegration DDR of ex combatants in Zimbabwe Namibia and South Africa It offers an up to date comparative analysis of how specific analytical elements that transcend state boundaries shaped DDR in the three southern African countries The author explores structural and organizational frameworks target groups state leadership in DDR linkages between DDR and SSR in nation and state building and types of post conflict violence The volume draws on fieldwork including interviews with policy makers and government officials as well as ex combatants and experts to provide valuable insights into how post colonial conflict DDR can provide knowledge crucial to understanding and addressing the problems of post conflict peace building in Africa The book is aimed at academics researchers and students working on Southern Africa African and Western policymakers concerned with problematic post conflict situations on the continent where improvising DDR processes will be vital to success as well as the general reader interested in political security and other developments in the region It will be of use in postgraduate courses in the inter related fields of international relations comparative government conflict resolution and peacebuilding      *Catalog of the Melville J. Herskovits Library of African Studies, Northwestern University Library (Evanston, Illinois) and Africana in Selected Libraries* Melville J. Herskovits Library of African Studies,1972      *The Royal Navy in the Cold War Years, 1966-1990* Edward Hampshire,2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy s role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990 91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three

services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike

**Decolonisation, Identity and Nation in Rhodesia, 1964-1979** David Kenrick, 2019-11-02 This book explores concepts of decolonisation identity and nation in the white settler society of Rhodesia now Zimbabwe between 1964 and 1979 It considers how white settlers used the past to make claims of authority in the present It investigates the white Rhodesian state's attempts to assert its independence from Britain and develop a Rhodesian national identity by changing Rhodesia's old colonial symbols and examines how the meaning of these national symbols changed over time Finally the book offers insights into the role of race in Rhodesian national identity showing how portrayals of a timeless black population were highly dependent upon circumstance and reflective of white settler anxieties Using a comparative approach the book shows parallels between Rhodesia and other settler societies as well as other post colonial nation states and even metropolises as themes and narratives of decolonisation travelled around the world

*From Selma to Moscow* Sarah B. Snyder, 2018-04-24 The 1960s marked a transformation of human rights activism in the United States At a time of increased concern for the rights of their fellow citizens civil and political rights as well as the social and economic rights that Great Society programs sought to secure many Americans saw inconsistencies between domestic and foreign policy and advocated for a new approach The activism that arose from the upheavals of the 1960s fundamentally altered U S foreign policy yet previous accounts have often overlooked its crucial role In *From Selma to Moscow* Sarah B Snyder traces the influence of human rights activists and advances a new interpretation of U S foreign policy in the long 1960s She shows how transnational connections and social movements spurred American activism that achieved legislation that curbed military and economic assistance to repressive governments created institutions to monitor human rights around the world and enshrined human rights in U S foreign policy making for years to come Snyder analyzes how Americans responded to repression in the Soviet Union racial discrimination in Southern Rhodesia authoritarianism in South Korea and coups in Greece and Chile By highlighting the importance of nonstate and lower level actors Snyder shows how this activism established the networks and tactics critical to the institutionalization of human rights A major work of international and transnational history *From Selma to Moscow* reshapes our understanding of the role of human rights activism in transforming U S foreign policy in the 1960s and 1970s and highlights timely lessons for those seeking to promote a policy agenda resisted by the White House

*Southern Africa in Perspective* Richard Dale, 1972      *The African Charter on Human and Peoples' Rights [2 Volume Set]* Nat Rubner, 2023 A landmark study of the African Charter on human and peoples rights one of the most important documents in modern African history that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document This set describes its underlying African origins and how the principles of the OAU influenced its path and content      *The African Charter on Human and Peoples' Rights Volume 2* Nat Rubner, 2023 Landmark study of the African Charter on Human and Peoples Rights Documents on one side the international community's inability to foist a human rights system upon Africa and on the other the process within the OAU now African Union that eventually brought it into being and determined its content The African Charter on Human and Peoples Rights ACHPR which was proposed in 1979 adopted in 1981 and came into effect in 1986 was the first non Western declaration of human rights and the first official statement of an African human rights perspective With Africa largely absent in 1948 when the Universal Declaration of Human Rights UDHR was adopted it stands in stark historical reproach to the Western conception of universal human rights as a pivotal document in the decolonisation of the continent This book for the first time presents a comprehensive account of the development of the ACHPR which is key to a proper understanding of its fundamental nature Through documenting its process of construction it becomes possible to understand how Africans themselves understood the process and the issues involved and how the ACHPR became a political text asserted by African leaders and not a continuum of a so called universal human rights tradition The result is a radical repositioning of the underlying context of the ACHPR one of the most important documents in modern African history of how it came to be and how it should therefore be understood Volume 2 describes the process through which the ACHPR came into being Analysing the role of Western governments the UN and NGOs it shows that contrary to the prevailing view of African human rights commentators their influence was limited and at times counter productive That in fact the formulation of the ACHPR was a profoundly political process that was primarily a product of an African desire to instigate its own human rights perspective as a counter to the human rights universalism advanced by the Western post war human rights tradition      *Communications in Africa, 1880-1939 (set)* David Sunderland, 2018-10-24 This collection presents rare documents relating to the development of various forms of communication across Africa by the British as part of their economic investment in Africa Railways and waterways are examined      **Modern African Wars (I): Rhodesia 1965-80** Peter Abbott, 1986      *Sights, Sounds, Memories* Ian van der Waag, 2020-12-15 The Second World War involved most of the countries of the world and left so many millions dead and maimed disorganised and devastated through personal and communal loss This book recovers some of South Africa's soldiers experiences from the physical and mental debris of the war Individuals are important their lives used as lenses give us colour and texture and their voices tell the stories of ordinary soldiers Using their memoirs and diaries the vitality of their endeavours is reasserted their successes and failures victories and indecencies are re examined and their

magnanimity and the general triumph of the human spirit are celebrated      **Arts & Humanities Citation Index** ,1989

**Liquidation of Empire** R. Douglas,2002-07-16 In 1945 Britain emerged as one of the Big Three victors of the Second World War Most people in Britain and elsewhere seem to have assumed that the British Empire would endure for a very long time to come Yet within twenty years British power and influence had been enormously reduced This book studies the causes and course of the process      "Beggars on our own land ..." Tsumib v Government of the Republic of Namibia and its Implications for Ancestral Land Claims in Namibia Willem Odendaal,2024-04-15 In 1954 the Hai om people were evicted from Etosha by the South African controlled South West African Administration In 2015 the Hai om filed the case of Tsumib v Government of the Republic of Namibia in the High Court of Namibia *Beggars on our own land* unravels the historical and contemporary socio legal complexities that led to the Tsumib case At the core of the case lies the legal question how can the Hai om people approach the Namibian Courts in order to claim compensation for the loss of their ancestral lands Odendaal goes into detail how the Tsumib case materialised under the post independence Namibian constitutional discourse He assesses the Namibian land reform programme and its oversight in dealing with historical land disposessions He inspects Hai om identity and how it was used to strengthen their case He concludes with an examination of Namibia s outdated and restrictive legal framework which ultimately denied the Hai om people their constitutional right to be heard in the Namibian Court While the future of ancestral land claims in Namibia depends on the political will of the Namibian government Odendaal argues that the Namibian courts have a duty to comply with the rights giving nature of the Namibian Constitution that lays the foundation for the Hai om people s ancestral claims      *The Journal of Military History Cumulative Index* Henry Stover Bausum,David Bausum,1995
