identify texts that are pared down to their most essential features and fundamental components One of the departure points of the minimalist story in modern Arabic fiction is blurring transparency which challenges the reader and his ability to go beyond the surface namely to cross the verbal text to unseen texts Since the minimalist story goes immediately to the point of the text implicitly or explicitly it generates a deep sense of powerful product This is apparently the very reason why the minimalist story is particularly apt for devices that forcefully move the reader such as satire sarcasm the absurd irony the grotesque caricature paradox and the like Unlike long genres of narrative fiction which narrate a piece of reality or history the minimalist story touches directly the core of the experience that the writer wishes to portray Unlike long narrative genres of well explained events and detailed descriptions the unique powerful effect of the minimalist story stems from its concentrated focal and sudden presentation Fighting and resistance are well suited to the minimalist story which does not scatter the reader's attention to side issues The immediacy and shortness of minimalist fiction are apparently the very features needed to reach the extreme of challenge and resistance The Arabian Nights Encyclopedia Ulrich Marzolph, Richard van Leeuwen, 2004-08-24 The most comprehensive treatment of the Arabian Nights ever published with more than 800 detailed encyclopedic entries and a wealth of authoritative essays and resources The tales of the Arabian Nights have long been the focus of scholarly research and critique but no English language work has ever attempted an all embracing treatment of them The fruit of years of research The Arabian Nights Encyclopedia is the first comprehensive reference work introducing both the Arabian Nights and the context of their genesis and aftermath in Near Eastern European and world culture Editors Ulrich Marzolph one of the world's foremost scholars of Near Eastern narrative culture and Richard van Leeuwen a prominent scholar of the Arabian Nights present detailed authoritative and up to date research on virtually all aspects of the tales including major protagonists themes important translations textual history adaptations reworkings works inspired by the Arabian Nights and aspects of literary theory and provide extensive bibliographies for each tale In addition to the 800 encyclopedic entries and numerous essays the work introduces research that has not previously been published making it an invaluable resource to scholars educators students and the general public as well as an essential addition to the core collection of academic and public libraries The Quest for Identities Sabrī Hāfiz, 2007 A fascinating study of a popular and vital genre often overlooked by literary critics The Comparative Tone Muhammad Muhammad 'Inānī,1995 Modern Arabic Literature Ragai N. Makar, 1998-12-03 2 548 numbered entries of books chapters in books periodical articles poems and reference sources covering all genres of literature including ballads comedy drama fiction Israeli literature Islamic literature biographies Mahjar literature and poetry Books are included from every Arabic country and most of the titles are in English though titles in French and Arabic are also represented Modern Arabic Literature in Translation Salih J.
