chief government architect from 1922 to 1937 Steeped in the traditions of Byzantine and Islamic building this most private of public servants finds himself working under the often stifling and violent conditions of British rule And in the riveting final section Hoffman herself sets out through the battered streets of today s Jerusalem searching for traces of a possibly Greek possibly Arab architect named Spyro Houris Once a fixture on the local scene Houris is now utterly forgotten though his grand Armenian tile clad buildings still stand a ghostly testimony to the cultural fluidity that has historically characterized Jerusalem at its best A beautifully written rumination on memory and forgetting place and displacement *Till We Have Built Jerusalem* uncovers the ramifying layers of one great city s buried history as it asks what it means everywhere to be foreign and to belong *Israel as a Modern Architectural Experimental Lab, 1948-1978* Inbal Ben-Asher Gitler, Anat Geva, 2020 This collection discusses the innovative and experimental architecture of Israel during its first three decades following the nation s establishment in 1948 Written by leading researchers the volume highlights new perspectives on the topic discussing the inception modernization and habitation of historic and lesser researched areas alike in its interrogation Inbal Ben Asher Gitler and Anat Geva show how Israeli nation building in its cultural political and historical contexts constituted an exceptional experiment in modern architecture Examples include modern experiments in mass housing design public architecture such as exhibition spaces youth villages and synagogues a necessary consideration of climate in modern architectural experiments and the exportation of Israeli modern architecture to other countries This collection discusses the innovative and experimental architecture of Israel during its first three decades following the nation s establishment in 1948 Written by leading researchers the volume highlights new perspectives on the topic discussing the inception modernization and habitation of historic and lesser researched areas alike in its interrogation Inbal Ben Asher Gitler and Anat Geva show how Israeli nation building in its cultural political and historical contexts constituted an exceptional experiment in modern architecture Examples include modern experiments in mass housing design public architecture such as exhibition spaces youth villages and synagogues a necessary consideration of climate in modern architectural experiments and the exportation of Israeli modern architecture to other countries *Arieh Sharon and Modern Architecture in Israel* Eran Neuman, 2023-11-30 Arieh Sharon and Modern Architecture in Israel Building Social Pragmatism offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel A graduate of the Bauhaus Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine There he established his office which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv After the establishment of the State of Israel in 1948 Arieh Sharon became the director and chief architect of the National Planning Department where he was asked to devise the young country s first national masterplan Known as the Sharon Plan it was instrumental in shaping the development of the new nation During the 1950s and 1960s Sharon designed many of Israel s institutions including hospitals and buildings on university campuses This

book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms. It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964. Thus the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall. This book will be of interest to researchers in architecture, modern architecture, Israel studies, Middle Eastern studies, and migration of knowledge.

**White City, Black City** Sharon Rotbard, 2025-04-20

Gripping Economist A fascinating exposé Raja Shehadeh author of *Palestinian Walks* Path breaking and brilliant Eyal Weizman director of Forensic Architecture and author of *Hollow Land* Tel Aviv the Zionist project's White City is said to have risen from the sands of the desert. Acclaimed worldwide for its architectural heritage and gleaming Bauhaus inspired Modernism it is ostensibly designed to be a safe home for the Jewish people. However the reality of the city's establishment was very different. Hidden below its foundations are the remains of Jaffa the Black City a Palestinian city that was obliterated to make way for European style architecture at the heart of a newly formed Israel. Both a gripping narrative and a unique architectural record White City Black City shows that cities are made not only of stones and concrete but also of stories and histories victors and losers predator and prey. This new edition contains a postscript reflecting on the destruction of the Gaza Strip. Sharon Rotbard is an Israeli architect publisher and author. He co-founded the independent press Babel Publishers and serves as Senior Lecturer in Architecture at the Bezalel Academy in Jerusalem. He lives with his wife in Tel Aviv.

*The Supreme Court Building, Jerusalem* Yosef Sharon, 1993

An architectural history concentrating on the contribution of the Jewish community to Britain's urban landscape. Ten architects and art scholars offer essays on all the major Jewish building types including synagogues, cemeteries, mikvaot, ritual baths, and social architecture.
