Religion and Modern Society Bryan S. Turner, 2011-03-31 Religion is now high on the public agenda with recent events focusing the world's attention on Islam in particular. This book provides a unique historical and comparative analysis of the place of religion in the emergence of modern secular society. Bryan S. Turner considers the problems of multicultural multi-faith societies and legal pluralism in terms of citizenship and the state with special emphasis on the problems of defining religion and the sacred in the secularisation debate. He explores a range of issues central to current debates: the secularisation thesis itself, the communications revolution, the rise of youth spirituality, feminism, piety and religious revival. *Religion and Modern Society* contributes to political and ethical controversies through discussions of cosmopolitanism, religion and globalisation. It concludes with a pessimistic analysis of the erosion of the social in modern society and the inability of new religions to provide social repair.
