Modern Dogma And The Rhetoric Of Assent:

Modern Dogma and the Rhetoric of Assent Wayne C. Booth, 1974-10-15 When should I change my mind What can I believe and what must I doubt In this new philosophy of good reasons Wayne C Booth exposes five dogmas of modernism that have too often inhibited efforts to answer these questions Modern dogmas teach that you cannot reason about values and that the job of thought is to doubt whatever can be doubted and they leave those who accept them crippled in their efforts to think and talk together about whatever concerns them most They have willed upon us a befouled rhetorical climate in which people are driven to two self destructive extremes defenders of reason becoming confined to ever narrower notions of logical or experimental proof and defenders of values becoming more and more irresponsible in trying to defend the heart the gut or the gonads Booth traces the consequences of modernist assumptions through a wide range of inquiry and action in politics art music literature and in personal efforts to find identity or a self In casting doubt on systematic doubt the author finds that the dogmas are being questioned in almost every modern discipline Suggesting that they be replaced with a rhetoric of systematic assent Booth discovers a vast neglected reservoir of good reasons many of them known to classical students of rhetoric some still to be explored These good reasons are here restored to intellectual respectability suggesting the possibility of widespread new inquiry in all fields into the question When should I change my mind **The Ending of Mark**

and the Ends of God Donald Juel, Beverly Roberts Gaventa, Patrick D. Miller, 2005-01-01 Among his many contributions to New Testament studies Donald Juel was perhaps best known for his treatment of the ending of Mark's Gospel He saw the open endedness of Mark as powerfully unsettling for the reader who desires to tame and predict God's actions In this series of essays edited by Beverly Roberts Gaventa and Patrick Miller theologians begin with Juel's own work and reflect on the unsettling in the context of their own work **The Rhetoric of RHETORIC** Wayne C. character What in the end should be the purposes of rhetorical inquiry And amid so many competing accounts of discourse power and judgment in the contemporary world how might scholars achieve these purposes through the attitudes and strategies that animate their work *Rethinking Rhetorical Theory Criticism and Pedagogy The Living Art of Michael C Leff* offers answers to these questions by introducing the central insights of one of the most innovative and prolific rhetoricians of the twentieth century Michael C Leff This volume charts Leff s decades long development as a scholar revealing both the variety of topics and the approach that marked his oeuvre as well as his long standing critique of the disciplinary assumptions of classical Hellenistic renaissance modern and postmodern rhetoric *Rethinking Rhetorical Theory Criticism and Pedagogy* includes a synoptic introduction to the evolution of Leff s thought from his time as a graduate student in the late 1960s to his death in 2010 as well as specific commentary on twenty four of his most illuminating essays and lectures

Political Conversion Don Waisanen,2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in

public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

Burdens of Proof in Modern Discourse Richard H. Gaskins, 1995-02-22 Public and professional debates have come to rely heavily on a special type of reasoning the argument from ignorance in which conclusions depend on the lack of compelling information I win my argument says the skillful advocate unless you can prove that I am wrong This extraordinary gambit has been largely ignored in modern rhetorical and philosophical studies Yet its broad force can be demonstrated by analogy with the modern legal system where courts have long manipulated burdens of proof with skill and subtlety This legal philosophical and rhetorical study by Richard H Gaskins provides the first systematic treatment of arguments from ignorance across a wide range of modern discourse from constitutional law scientific inquiry and moral philosophy to organizational behavior computer operation and personal interaction Gaskins reviews the historic shifts in constitutional proof burdens that have shaped public debate on fundamental rights and by analogy on the fundamental status of intellectual and cultural authority He shows how similar shifts have dominated polemical battles between scientific and ethical modes of authority affecting both academic and popular discussion Finally he discovers the philosophical roots of default reasoning strategies in the arguments of Kant and nineteenth century Kantian schools Concluding that shifting proof burdens are inescapable in a world of scientific and moral uncertainty Gaskins emphasizes the common strategic ground shared by dogmatic and skeptical reasoning Using Hegelian strategies he describes a more pluralistic temper that can move critical thinking beyond polemics and strengthen our capacities for common discourse
