The Grid and the Park Adrián Gorelik, 2022-02-07 Since its publication in Spanish in 1998 *The Grid and the Park* not only revitalized studies on the history of Buenos Aires but also laid the foundation for a specific type of cultural work on the city an urban perspective for cultural history as its author would describe it that has had a sustained impact in Latin America Public space embodied in the grid of city blocks and the park system here appears as a particularly productive category because it encompasses dimensions of the material city politics and culture which are usually studied separately From Domingo Faustino Sarmiento's figurations of Palermo Park in the mid nineteenth century to Jorge Luis Borges's discovery of the suburb in the 1920s from the modernization of the traditional center carried out by Mayor Torcuato de Alvear in the 1880s to the questioning of that centrality by the emergence of the suburban barrio the book weaves the changing ideas on public space with urban culture to produce a new history of the metropolitan expansion of Buenos Aires one of the most extensive and dynamic urban centers of the early twentieth century *The Lancet*, 1884 *The Illustrated London News*, 1926 Catalog of Copyright Entries, Third Series Library of Congress, Copyright Office, 1971 **Perspectives on Garden Histories** Michel Conan, 1999 Garden history is a discipline of contested purposes *Perspectives on Garden Histories* contributes to a self critical examination of this emergent field of study at the same time offering an overview of its main achievements in several domains such as Italian and Mughal gardens and of the new kinds of investigation to which they have led In its early years garden history centered on architectural studies of garden design but in the 1960s the emphasis shifted from garden design to garden meaning The new paradigm considered gardens as complex works of art and demanded an extensive documentation of the historical context as well as of the figurative and discursive sources This approach in its turn was challenged by neo Marxist scholars who proceeded to view landscape appreciation as an ideological superstructure an outgrowth of agricultural production processes Garden designs and their histories can also be viewed as expressions of ideological conflicts in society Neither gardens nor their history can thus be studied independently of the social cultural and political movements that give prominence to the contested ideologies Gardens can be used to foster some ideologies or reflect a reaction against a social change Comparative research offers another fascinating approach exploring the relations between European landscape concepts and other cultural contexts and discussing issues of cultural dominance and interpretation The emergence of various perspectives has led to the incorporation of further questions into the domain of garden studies which has been moving in new directions and using new methods in search of an adapted theoretical framework This volume offers a striking view of changes taking place in the discipline Journal of Contemporary Urban Affairs, Vol.1 No.2, 2017 Senem Zeybekoglu Sadri, Hourakhsh Ahmad Nia, Yousif Hussien Suleiman, Mustafa Aziz Amen, Ifeanyi Obi, Donia Zhang, Anindita Mandal, Hugh Byrd, Ehsan Valipour, Samira Tayyebisoudkolaei, bdolah
