*Modern Historians and the Study of History* Frederick Maurice Powicke, 1956      *Modern Historians and the Study of History* Frederick Maurice Powicke, 1955      *The Oxford Handbook of Modern British Political History, 1800-2000* David Brown, Robert Crawcroft, Gordon Pentland, 2018

The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

*Allegorizing History* Timothy J Furry, 2014-05-29

What is history and how does it impact upon biblical interpretation and theology *Allegorizing History* seeks to answer this question by arguing that conceptions of the past and the purposes of history impact upon biblical interpretation and vice versa Invoking Constantin Fasolt's notion of history as a knowledge of the past as well as the technique by which such knowledge is produced and re fashioning Erich Auerbach's historical enterprise in *Figura* 1938 Furry contends that the understanding and practice of historical writing is inevitably affected by philosophy and theology thereby rendering all history as figural or allegorical Famous for his *Ecclesiastical History of the Anglo Saxon People* and biblical commentaries the Venerable Bede is studied in dialogue with Augustine contemporary theology and historical theory to make this interdisciplinary argument

**Authenticating Criteria in Jesus Research and Beyond** Kevin B. Burr, 2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography

*The World of the Crusades* Andrew Holt, 2019-06-05 Unlike traditional references that recount political and military history this encyclopedia includes entries on a wide range of aspects related to daily life during the medieval crusades The medieval crusades were fundamental in shaping world history and provide background for the conflict that exists between the West and the Muslim world today This two volume set presents fundamental information about the medieval crusades as a movement and its ideological impact on both the crusaders and the peoples of the East It takes a broad look at numerous topics related to crusading with the goal of helping readers to better understand what inspired the crusaders the hardships associated with crusading and how crusading has influenced the development of cultures both in the East and the West The first of the two thematically arranged volumes considers topics such as the arts economics and work food and drink family and gender and fashion and appearance The second volume considers topics such as housing and community politics and warfare recreation and social customs religion and beliefs and science and technology Within each

topical section are alphabetically arranged reference entries complete with cross references and suggestions for further reading Selections from primary source documents each accompanied by an introductory headnote give readers first hand accounts of the crusades Norman Campaigns in the Balkans, 1081-1108 Georgios Theotokis, 2014 First full length analysis of Norman military organisation in the Balkans events strategy and tactics **The New Cambridge Medieval History: Volume 1, C.500-c.700** Paul Fouracre, Rosamond McKitterick, David Abulafia, 1995 Sample Text Did Moses Speak Attic? Lester L. Grabbe, 2001-03-01 Is the Bible a Hellenistic book The essays in this volume respond to that challenging question formulated by Niels Peter Lemche and offer everything from qualified agreement to vociferous opposition In so doing they debate and illuminate the many features of Jewish writing in the Second Temple period including not only the scriptures themselves and their own history but the non canonized literature of the late Second Temple period As with all the volumes in this pioneering series the editor Lester Grabbe introduces and reflects upon the discussion and its implications for one of the most controversial topics in current biblical studies *Historical Judgement* Jonathan Gorman, 2014-11-27 The historical profession is not noted for examining its own methodologies Indeed most historians are averse to historical theory In *Historical Judgement* Jonathan Gorman's response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline So to model historiography we must do so from the views of historians Gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science There are different models at work whose rivalry and resolution are to be historically understood With this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians He reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography Demonstrating how the practice of historiography requires choices and therefore the exercise of judgement Gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight He shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change In addition Gorman's approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of Quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism Gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world *Historical Judgement* is an original and important contribution to the philosophy of history By bringing together the ideas of historians and philosophers Gorman

presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage historians to think more about the nature of what they do

**Roman Empire at War** Don Taylor, 2020-01-31 This valuable summary of every significant battle from Augustus to Justinian I is an indispensable reference guide for any student of the Roman military The NYMAS Review In a single volume Roman Empire at War catalogues and offers a brief description of every significant battle fought by the Roman Empire from Augustus to Justinian I and most of the minor ones too In lists arranged both alphabetically and chronologically the information in each entry is drawn exclusively from Ancient Late Antique and Early Medieval texts in order to offer a brief description of each battle based solely on the information provided by the earliest surviving sources that chronicle the event This approach provides a concise foundation of information to which you can then confidently apply later scholarly interpretation presented in secondary sources in order to achieve a more accurate understanding of the most likely battlefield scenario In writing the battle descriptions the author has not sought to extensively analyze the evidence contained in the surviving accounts nor embellish them beyond what was necessary to provide clarity to the modern reader He allows the original writers to speak for themselves presenting a succinct version of what the ancient chroniclers tell us of these dramatic events It is an excellent first stop reference to the many battles of the Roman Empire

**The Canaanites and Their Land** Niels Peter Lemche, 1991-03-01 It is an interesting consequence of the new reconstructions of the early history of Israel that the Israelites must originally have been Canaanites Nevertheless an outspoken hatred against Canaanites permeates the Old Testament Lemche presents a new way of explaining the anti Canaanite sentiments of the Old Testament historians while at the same time disclosing some of the aims and ideas which governed Old Testament history writing

**Remembering, Replaying, and Rereading Henry VIII** Igor Djordjevic, 2024-11-21 This book begins by asking about the memorial issues involved in the replaying of an old history play Shakespeare and Fletcher s Henry VIII at the Globe on 29 July 1628 but it is not primarily concerned with the memory of a single individual George Villiers 1st Duke of Buckingham who paid for the production nor even of a single day when he seemed to try to evoke the memories of a small group of people gathered at the theatre for a singular purpose In order to resolve the mystery of what a group of people thought about the past in a single moment in time this book studies Elizabethan Jacobean and Caroline textual recollections that inform the moment in 1628 Tracing the ways in which Henry VIII was remembered across these years reveals a dominant approach to reading history in the early modern period and the varied purposes of memorial activity itself

*Jesus and the Eyewitnesses* Richard Bauckham, 2008-09-22 Noted New Testament scholar Bauckham challenges the prevailing assumption the accounts of Jesus circulated as anonymous community traditions instead asserting that they were transmitted in the name of the original eyewitness
