The Apocalypse and the End of History Suzanne Schneider, 2021-09-07 In this authoritative accessible study historian Suzanne Schneider examines the politics and ideology of the Islamic State better known as ISIS Schneider argues that today s jihad is not the residue from a less enlightened time nor does it have much in common with its classical or medieval form but it does bear a striking resemblance to the reactionary political formations and acts of spectacular violence that are upending life in Western democracies From authoritarian populism to mass shootings xenophobic nationalism and the allure of conspiratorial thinking Schneider argues that modern jihad is not the antithesis of neoliberalism but rather a dark reflection of its inner logic *The Apocalypse and the End of History* is written with the sensibility of a political theorist and based on extensive research into a wide range of sources from Islamic jurisprudence to popular recruitment videos contemporary apocalyptic literature and the Islamic State s Arabic language publications The book explores modern jihad as an image of a potential dark future already heralded by neoliberal modes of life Surveying ideas of the state violence identity and political community Schneider argues that modern jihad and neoliberalism are two versions of a politics of failure the inability to imagine a better life here on earth

Nilsson,2022-10-18 This book is based on unprecedented interviews with active and former jihadists even IS fighters It focuses on the changing nature of jihad as a social phenomenon and how jihad changes jihadists It argues that there are fascinating generational differences between jihadists ideas and behaviors Moreover it argues that jihad changes jihadists through socialization in jihadists groups Indeed radicalization continues in new forms after entering the conflict zone Recognizing that jihadism is a complex social phenomenon and a discourse on religiously legitimized violence with deep roots in the history of Islam and Muslim societies the book asks two simple questions Why have some Muslims residing in the West taken up arms to enter the global battlefields of jihad Have the motivations and experiences of different jihadists all been the same To create a more coherent analysis than the article format allows and to offer new insights the author summarizes and further develops several years of research into jihadism As gaining access to and conducting interviews especially with active jihadists often differs from standard interviews much of the data were collected in a gray zone between more formal interviewing and ethnographic research The empirical material which is based on interviews with active and former jihadists is unique Moreover the methodological reflections are unprecedented and the project offers new analytical insights into jihadism with a focus on how jihadism and jihadists change **America's War against Global Jihad** William R.

Nester,2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America s crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington s counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic

September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

Ancient Religions, Modern Politics Michael A. Cook, 2016-12-06 Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life If so what is it Ancient Religions Modern Politics seeks to answer these questions by examining the roles of Islam Hinduism and Christianity in modern political life placing special emphasis on the relevance or irrelevance of their heritages to today's social and political concerns Michael Cook takes an in depth comparative look at political identity social values attitudes to warfare views about the role of religion in various cultural domains and conceptions of the polity In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian heritages He uses this finding to explain the fact that despite the existence of Hindu and Christian counterparts to some aspects of Islamism the phenomenon as a whole is unique in the world today The book also

shows that fundamentalism in the sense of a determination to return to the original sources of the religion is politically more adaptive for Muslims than it is for Hindus or Christians A sweeping comparative analysis by one of the world's leading scholars of premodern Islam *Ancient Religions Modern Politics* sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today ***A Military History of the Modern Middle East*** James Brian McNabb, 2017-03-09 This timely study synthesizes past history with the major military events and dynamics of the 20th and 21st century Middle East helping readers understand the region's present and look into its future The Middle East has been and will continue to be a major influence on policy around the globe This work reviews the impact of past epochs on the modern Middle East and analyzes key military events that contributed to forming the region and its people By helping readers recognize historical patterns of conflict the book will stimulate a greater understanding of the Middle East as it exists today The work probes cause and effect in major conflicts that include the fall of the Ottoman Empire the World Wars the Arab Israeli wars and the U S wars with Iraq examining the manner in which military operations have been conducted by both internal and external actors New regional groups for example the Gulf Cooperation Council GCC are addressed and pertinent events in Afghanistan and Pakistan are scrutinized Since military affairs are traditionally an extension of politics and economics the three are considered together in historical context as they relate to war and peace The book closes with a chapter on the Arab Awakening and its impact on the future balance of power ***Al Qaeda's Global Crisis*** V. G. Julie Rajan, 2015-01-30 Examines Al Qaida's crisis of support and tensions with regional affiliates of its global jihad Fills a gap in the literature by focusing on takfir and the random violence it justifies against other Muslims Author is a recognised expert in this field Will be of much interest to students of Al Qaida global jihadism terrorism Islamism Middle Eastern Studies Asian Studies intelligence security studies and IR in general ***Heaven on Earth*** Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a

cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today *Salafi Jihadi Discourse of Sunni Islam in the 21st century (Revised): The discourse of Abu Muhammad al-Maqdisi, Anwar al-Awlaki and Abu Musab al-Suri* Daurius Figueira ,2024-05-04 This text first published in 2014 presented a deconstruction of 21st century Salafi Jihadi discourse of Jihad is war of Sunni Islam by select discursive agents of this discourse The abiding finding of this deconstruction is the reality that Salafi Jihadi discourse of Jihad is war is rooted in North Atlantic white supremacist humanist secular atheist imperialist colonialist discourse not Qur'anic discourse this discourse is then shirk Events in Islam since 2014 demanded a revision of this 2014 work and the war of genocide against Gaza the largest open air prison in the world today by the Zionists and massa from October 2023 demanded that this task be completed The new edition has been extensively reviewed a new section added to the chapter on Al Awlaki and a new chapter added on the discourse of Al Suri The war of genocide against Gaza has proven once again the complicity of the munafiqun of Islam with massa in their futile attempt to silence Qur'anic discourse This text was written by a Muslim of the west for Muslims of the west **The Third Way** Joseph P. An Enchanted Modern Lara Deeb,2006-03-19 Based on two years of ethnographic research in Beirut this book demonstrates that Islam and modernity are not merely compatible but actually go hand in hand This portrayal of an Islamic community articulates how an alternative modernity may be constructed by Shi I Muslims who consider themselves simultaneously deeply modern cosmopolitan and pious In this depiction of a Shi I Muslim community in Beirut Deeb examines

the ways that individual and collective expressions and understandings of piety have been debated contested and reformulated Women take center stage in this process a result of their visibility both within the community and in relation to Western ideas that link the status of women to modernity
