Modern America A Fresh Look Of America Volume 5:

A Fresh Look at Genesis 1-2 Gary W Schneider, 2021-03-15 One of this book's main themes is how God's Book of Nature is concordant with His Book of Scripture. In their writings many of the pioneers of the Scientific Revolution often referred to God's two Books. These brilliant naturalists were also devout Christians. But that was back then. Is modern science actually compatible with Scripture? More to the point are the findings of 21st century science concordant with the Genesis creation story? What else does the text of Genesis 1-2 have to say? While making an honest effort to answer those questions, some vitally important theological concepts which were introduced by Moses in the first two chapters of Genesis are also examined and discussed in this volume. This comprehensive study on how modern science is concordant with the intended meaning of the text of Genesis 1-2 has many useful features including the following: Much of the first two parts of the book consists of background material on 1 logic 2 history and philosophy of science and 3 scientific method as well as 4 basic geological principles 5 descriptions of Plate Tectonic theory and 6 the principles and methods of radiometric dating. This background material is designed to help the reader to understand the implications of the empirical evidence presented in Part Two: God's Book of Nature. Similarly, there is also extensive material on 1 Biblical interpretation and hermeneutics 2 textual criticism 3 the history of ancient Israel 4 development of the Hebrew language and 5 some of the basic elements of Biblical Hebrew. This material is given prior to looking at the literary structure and genre of the Genesis 1-2 text and then conducting thorough and complete exegetical analyses of the various textual units of Genesis 1-2. In Part Four: God's Book of Scripture, prior to the exegetical analyses for each of the textual units of Genesis 1-2, 1 the Biblical Hebrew text 2 a standard English translation and 3 an Interlinear version of the text of that unit are provided. The Interlinear version consists of a the Hebrew text with b SBL transliterations and c English glosses below each one of the Hebrew words. Color coding and other types of annotations highlighting are used throughout Part Four: God's Book of Scripture in order to help the reader identify important Biblical Hebrew elements including recurring phrases, important BH words, and key BHVS verb forms. There are more than 2000 detailed footnotes. Many of these footnotes also cross-reference other topics in the book to make it easier for the reader to refer back to a discussion of some important theme or concept. Excerpts from the entries of reputable Hebrew and Greek lexicons for words written in the original languages of the Biblical text are also footnoted. An Appendix is included with a Key to Transliteration and Pronunciation for Biblical Hebrew graphemes; it also has a short section on Biblical Hebrew Accent Markings. Numerous detailed colored figures are sprinkled throughout the text. In many of these figures, the artwork itself is worth the inexpensive price of the digital edition of this book. Part Six: The Good News is worth reading as a stand-alone exposition of God's Grace, but it also helps put the rest of the book in context. Although the most common and logical way to read *A Fresh Look at Genesis 1-2* is from start to finish, this 1100-page book was also intended to be used as a reference work. Footnotes direct the reader back to pertinent material in preceding chapters that might not have been read.

America's Transatlantic Turn H. Krabbendam, J. Thompson, 2012-12-05 This collection uses Theodore Roosevelt to form a fresh approach to the history of US and European relations arguing that the best place to look for the origins of the modern transatlantic relationship is in Roosevelt's life and career

The Presidencies of James A. Garfield & Chester A. Arthur Justus D. Doenecke, 1981 This is the first single volume to focus on the presidencies of both James A. Garfield and Chester A. Arthur Drawing from a host of studies on the foreign and domestic policies of the nation during the Gilded Age as well as from his own primary research the author presents a somewhat revisionist look at Garfield and Arthur revisionist in that he gives the reader a renewed appreciation of both men Far from being cynical spoilsmen or naive incompetents individuals whose presidencies provide studies in ineptitude Garfield and Arthur emerge as men of considerable ability While making no claims of greatness Doenecke maintains that each was a significant transitional figure playing a crucial role as the institution of the presidency moved from the weak leadership of Andrew Johnson to the forceful direction of Theodore Roosevelt According to Doenecke Garfield saw the office of chief executive primarily in administrative terms and his great battle was over keeping the power of appointment in his own hands His victory over the Stalwarts enhanced both the power and prestige of the office His knowledge of how government worked was unmatched long before Woodrow Wilson made his mark Garfield was the scholar in politics The diplomacy of Secretary of State James G. Blaine comes under critical scrutiny Doenecke evaluates his performance in the Chile-Peru War War of the Pacific the Guatemala-Mexico dispute the isthmian canal issue Irish-American activities in Britain and efforts to secure markets in Korea but Garfield was assassinated less than six months after he entered office he had yet to be tested on major issues of public policy Chester A. Arthur was ill prepared to be chief executive was in poor health much of the time while he was in office and was faced with a hopelessly divided party Nevertheless he was one of the nation's great political surprises His administration pioneered in the development of the navy sought foreign markets for American surpluses fostered civil service reform and pressed for a scientific tariff Doenecke devotes one chapter to the spoils system and the background to the Pendleton Act one to Arthur's strategy regarding the South and then offers an in-depth analysis of diplomacy during Arthur's tenure During the presidencies of Garfield and Arthur the United States attempted to intervene in a war between Chile and Peru sought to turn Nicaragua into a protectorate supplied leading advisers to Madagascar and Korea and took a major part in the Congo conference of 1884 In examining these activities even while pointing to uncoordinated statecraft and inept diplomacy Doenecke challenges the long-held view that from 1881 to 1885 the nation was withdrawn and insular His fresh perspective on the Garfield and Arthur years will be of considerable interest to historians of the Gilded Age
