The General History of Drugs Volume Three Part One Antonio Escobedo, 2022-12-31 Drug history from the Renaissance through the nineteenth century

Battle for Beijing, 1858-1860 Harry Gelber, 2016-09-16 The battle for Beijing is universally and quite wrongly believed to have been about opium This book argues that it was about freedom to trade Britain's demands for diplomatic equality and French demands for religious freedom in China Both countries agreed that their armies which repeatedly prevailed over Chinese ones that were numerically superior would stay out of Beijing itself but were infuriated by China's imprisonment torture and death of British French and Indian negotiators At the same time the British and French also helped the empire to battle rebels and to pocket port and harbour dues They steered carefully between their political and trading demands and navigated the danger that undue stress would make China's fragile government and empire fall apart If it did there would be no one to make any kind of agreement with much of East Asia would be in chaos and Russian power would soon expand Battle for Beijing 1858-1860 offers fresh insights into the reasons behind the actions and strategies of British authorities both at home and in China and the British and French military commanders It goes against the widely accepted views surrounding the Franco-British conflict proposing a bold new argument and perspective

Southwest China in a Regional and Global Perspective (c.1600-1911), 2018-01-03 The book *Southwest China in Regional and Global Perspectives c. 1600-1911* is dedicated to important issues in society trade and local policy in the southwestern provinces of Yunnan Guizhou and Sichuan during the late phase of the Qing period It combines the methods of various disciplines to bring more light into the neglected history of a region that witnessed a faster population growth than any other region in China during that age The contributors to the volume analyse conflicts and arrangements in immigrant societies problems of environmental change the economic significance of copper as the most important export product topographical and legal obstacles in trade and transport specific problems in inter-regional trade and the roots of modern transnational enterprise

Empire at the Margins Pamela Kyle Crossley, Helen F. Siu, Donald S. Sutton, 2006-01-19 Focusing on the Ming 1368-1644 and especially the Qing 1644-1912 eras this book analyzes crucial moments in the formation of cultural regional and religious identities The contributors examine the role of the state in a variety of environments on China's peripheries paying attention to shifts in law trade social stratification and cultural dialogue They find that local communities were critical participants in the shaping of their own identities and consciousness as well as the character and behavior of the state At certain times the state was institutionally definitive but it could also be symbolic and contingent They demonstrate how the imperial discourse is many faceted rather than a monolithic agent of cultural assimilation

Public Women in British India Rimli Bhattacharya, 2018-05-15 This book foregrounds the subjectivity of acting women amidst violent debates on femininity and education livelihood and labour sexuality and marriage It looks at the emergence of the stage actress as an artist and an ideological construct at critical phases of performance practice in British India The focus here is on Calcutta

Ming China and Vietnam Kathlene Baldanza,2016-03-29 Studies of Sino Viet relations have traditionally focused on Chinese aggression and Vietnamese resistance or have assumed out of date ideas about Sinicization and the tributary system They have limited themselves to national historical traditions doing little to reach beyond the border Ming China and Vietnam by contrast relies on sources and viewpoints from both sides of the border for a truly transnational history of Sino Viet relations Kathlene Baldanza offers a detailed examination of geopolitical and cultural relations between Ming China 1368 1644 and Dai Viet the state that would go on to become Vietnam She highlights the internal debates and external alliances that characterized their diplomatic and military relations in the pre modern period showing especially that Vietnamese patronage of East Asian classical culture posed an ideological threat to Chinese states Baldanza presents an analysis of seven linked biographies of Chinese and Vietnamese border crossers whose lives illustrate the entangled histories of those countries

Political Process in Uttar Pradesh Sudha Pai,2007 The essays in this volume present a complex picture of the major upheavals that UP has experienced in its society polity and economy over the last two decades Nandanar's Children Raj Sekhar Basu,2011-02-14 The narrative of this book is built around the historical experiences of the Paraiyars of Tamil Nadu The author traces the transformation of the Paraiyars from an untouchable and socially despised community to one that came to acquire prominence in the political scene of Tamil Nadu especially in early 20th century Through this framework the book studies a number of issues subaltern history colonial ethnography agrarian systems agrarian bondage land legislations and the interventions by missionaries and social and political organizations **Terrorism in Youth**

Popular Culture Martin Claar,Clint W. Jones,2024-11-05 As an integral part of the modern West terrorism features prominently in the news in film and television even in video games and books Packaged for public consumption representations of terrorism and terrorists offer attempts to make sense of the contemporary experience While terrorism is often treated as a topic of concern for mature audiences this book focuses on media that are aimed at children and young adults The contributors investigate the way terrorism is portrayed in movies television shows literature games and other popular culture formats aimed at these younger audiences focusing particularly on the impact these portrayals have on these audiences as future decision makers **Poetic Transformations** Claudine Ang,2020-10-26 In the eighteenth century

multiple migratory groups with competing political ambitions converged on the Mekong plains In the frontier region literati officials of a territorially expanding Vietnamese state crossed paths with a network of diasporic Chinese Ming loyalists closely affiliated with the coastal trading network Drawing on vernacular Vietnamese and classical Chinese sources Claudine Ang identifies the different ways two leading statesmen of the time employed literature to transform the frontier region In their rival cultural projects we see the clash between the aspirations of Vietnamese and Chinese migrants Ang shows how a bawdy play in which a lascivious monk turns his charms on an unsuspecting nun acted as a vehicle for differentiating Vietnamese lowlanders from their neighbors and she uncovers in a suite of landscape poems coded messages aimed at founding a new Ming loyalist stronghold on the Mekong delta Through its close reading of satirical drama and landscape poetry *Poetic Transformations* captures a historical moment of overlapping visions frustrated schemes and contested desires on the Mekong plains

Errand into the Wilderness of Mirrors Michael Graziano, 2023-08-04 Reveals the previous underexplored influence of religious thought in building the foundations of the CIA Michael Graziano's intriguing book fuses two landmark titles in American history Perry Miller's *Errand into the Wilderness* 1956 about the religious worldview of the early Massachusetts colonists and David Martin's *Wilderness of Mirrors* 1980 about the dangers and delusions inherent to the Central Intelligence Agency Fittingly *Errand into the Wilderness of Mirrors* investigates the dangers and delusions that ensued from the religious worldview of the early molders of the Central Intelligence Agency Graziano argues that the religious approach to intelligence by key OSS and CIA figures like Wild Bill Donovan and Edward Lansdale was an essential and overlooked factor in establishing the agency's concerns methods and understandings of the world In a practical sense this was because the Roman Catholic Church already had global networks of people and safe places that American agents could use to their advantage But more tellingly Graziano shows American intelligence officers were overly inclined to view powerful religions and religious figures through the frameworks of Catholicism As Graziano makes clear these misconceptions often led to tragedy and disaster on an international scale By braiding the development of the modern intelligence agency with the story of postwar American religion *Errand into the Wilderness of Mirrors* delivers a provocative new look at a secret driver of one of the major engines of American power

The Battle For China's Past Mobo Gao, 2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens A powerful mixture of political passion and original research a brave polemic against the fashionable view on China Aims a knockout blow at Jung Chang's recent book on Mao which Bush and the conservatives rave reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country's post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the

Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao's policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial e media debates this book sets the record straight making a convincing argument for the positive effects of Mao's policies on the well being of the Chinese people

Sweet Excess Ishita Dey, 2025-09-09 This book is an ethnographic work on excess Based on a decade long field work of a single food substance sweets it follows sweet making in sweetshops domestic spaces fairs festivals and its representation in recipe books to understand how caste religion science and law inform the life of a food item with an extremely short shelf life It shows how food items of conspicuous consumption find a meaning in everyday lives of people through its socio cultural meanings ritual pride of craftsmanship heritage and cultural identity It also shows how sweets continue to be a ubiquitous part of Bengali diet in a geography that has been witness to acute hunger starvation food movements and social welfare programmes to ensure food security As a multi sided ethnography on sweetness in diverse settings and its associated meanings in West Bengal and Bangladesh this book explores everyday workplace hierarchies between artisans that reveal how caste and religion inform the choice of who is hired into this line of work It also highlights how discourses on food safety and the overpowering presence of World Trade Organization have affected the life of the Bengali mishti The volume will be of great interest to scholars and researchers of ethnography sociology history and South Asian studies And if you dear reader love mishti you will love this too

Recovering the Frontier State Rasul Bakhsh Rais, 2008-03-20 This book examines the prospects for rebuilding state and nation in Afghanistan with regard to Operation Enduring Freedom carried out by the international coalition It starts off by delineating the conceptual basis of Afghanistan's status as a frontier state Looking at geo_strategic aspects Afghanistan's position as an historical buffer between empires and its internal characteristics _weak authority structure internal conflicts interventions by neighbors legitimacy of internal conquest and trans national ethnicities the book provides insights into the unique geo political context of Afghanistan Whilst the author deems the legacy of the previous intervention for containment as a major contributing factor to the disorder in Afghanistan's state and society he draws on lessons from the past intervention to assuage current obstacles and stalemate that is hindering political social and economic development in Afghanistan Focusing on the impediments to development in Afghanistan the background against which the problem needs to be analyzed and consequently countered is effectively set out Incessant war and insurgency has led to mobilization along ethnic and religious lines in Afghanistan and has had profound effects on the kinds of intuitions that have perpetuated over time Ethnic and religious groups have applied constant pressure on the state and this dissonance has had enduring negative consequences on nation building social cohesion and

state society relationships Pre-emptive and reactive intervention by neighboring states and their links to ethnic groups inside Afghanistan is another dimension which is analyzed An extensive exploration into the geo-political history of social groups of Afghanistan with an intensive account of the rise of various power contenders as a function of their history their links with external actors and their traditional position in the indigenous vertical hierarchy are made Unconventional war and counter-insurgency operations funded by foreign and local elements are examined and policy guidelines for negotiations and conflict resolution are discussed The work provides fresh insights into the rise of the Taliban and adds further to the scholarly debate about the causes for the consolidation of Taliban power It traces the history of the Afghan crisis and critically evaluates the roles played by different national and international actors A major contribution of the work is the articulation of the need for an integrated nation and state building strategy which takes into account the sensitivities of the Afghanistan experience instead of treating it like other post-conflict zones

American Exodus Charlotte Brooks, 2019-08-27 In the first decades of the 20th century almost half of the Chinese Americans born in the United States moved to China a relocation they assumed would be permanent At a time when people from around the world flocked to the United States this little noticed emigration belied America's image as a magnet for immigrants and a land of upward mobility for all Fleeing racism Chinese Americans who sought greater opportunities saw China a tottering empire and then a struggling republic as their promised land *American Exodus* is the first book to explore this extraordinary migration of Chinese Americans Their exodus shaped Sino-American relations the development of key economic sectors in China the character of social life in its coastal cities debates about the meaning of culture and modernity there and the U.S. government's approach to citizenship and expatriation in the interwar years Spanning multiple fields exploring numerous cities and crisscrossing the Pacific Ocean this book will appeal to anyone interested in Chinese history international relations immigration history and Asian American studies

Artbibliographies Modern, 2005 **Networks of Domination** Paul K. Macdonald, 2014 In the nineteenth century European states conquered vast stretches of territory across the periphery of the international system This book challenges the conventional wisdom that these conquests were the product of European military dominance or technological superiority In contrast it claims that favorable social conditions helped fuel peripheral conquest European states enjoyed greatest success when they were able to recruit local collaborators and exploit divisions among elites in targeted societies Different configurations of social ties connecting potential conquerors with elites in the periphery played a critical role in shaping patterns of peripheral conquest as well as the strategies conquerors employed To demonstrate this argument the book compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century It also examines the contemporary applicability of the theory through an examination of the United States occupation of Iraq

On Their Own Terms Benjamin A. Elman, 2009-07-01 Since the mid 19th century imperial reformers Republicans Guomindang party cadres and Communists have all prioritized science and technology Elman offers an account of the evolution of native

Chinese science over four centuries under the influence of missionaries In the end he argues the Chinese produced modern science on their own terms **Berita** ,2006 **Surviving the Unipolar Era** A.B. Abrams,2025-01-01 On June 29 1950 the U S launched its first ever air strikes on the North Korean capital Pyongyang marking the start of what would become the longest conflict in history between two industrial powers Four decades later the end of the Cold War in 1989 and the disintegration of the Soviet Union in 1991 marked the beginning of a new phase of the conflict with a new unipolar world order centered on the power of the U S and Western world leaving North Korea in unprecedented isolation Now unsupported in its fight against a Western superpower intent on its destruction the small but technologically adept and heavily militarized East Asian state would need to adopt more radical measures to ensure its security Over the next 35 years the conflict would transform from a period of North Korean decline in the face of tremendous economic and military pressure to one of an ascent in its power and decline in the West as international order evolved past the unipolar era *Surviving the Unipolar Era* elucidates the conflict s transformation beginning with unprecedented U S led efforts to achieve North Korea s total collapse and elimination through maximum pressure and ending three decades later with a subsiding of Pyongyang s international isolation and the modernization of its economy armed forces and nuclear deterrent A B Abrams highlights how the small state has been able to hold its own in multiple standoffs with the world s superpower successfully weather economic sanctions and prevent penetration of its information space and the implications that this has had for the country the region and the wider world He details the strong consistency in American objectives and the evolution of consensus across five separate administrations on how these should be pursued as the circumstances of the conflict transformed In the context of prevailing geopolitical economic and security trends Abrams projects the future course of the conflict including aspects such as Western difficulties coming to terms with North Korea s ascent U S policy priorities going forward and the growing opportunities that an emerging new global cold war is likely to provide Pyongyang
