My Soul Is in Haiti Bertin M. Louis, Jr., 2016-12 Offers a greater understanding of the spread of Protestant Christianity both regionally and globally by studying local transformations in the Haitian diaspora of the Bahamas In the Haitian diaspora as in Haiti itself the majority of Haitians have long practiced Catholicism or Vodou However Protestant forms of Christianity now flourish both in Haiti and beyond In the Bahamas where approximately one in five

people are now Haitian born or Haitian descended Protestantism has become the majority religion for immigrant Haitians In My Soul Is in Haiti Bertin M Louis Jr has combined multi sited ethnographic research in the United States Haiti and the Bahamas with a transnational framework to analyze why Protestantism has appealed to the Haitian diaspora community in the Bahamas The volume illustrates how devout Haitian Protestant migrants use their religious identities to ground themselves in a place that is hostile to them as migrants and it also uncovers how their religious faith ties in to their belief in the need to save their homeland as they re imagine Haiti politically and morally as a Protestant Christian nation This important look at transnational migration between second and third world countries shows how notions of nationalism among Haitian migrants in the Bahamas are filtered through their religious beliefs By studying local transformations in the Haitian diaspora of the Bahamas Louis offers a greater understanding of the spread of Protestant Christianity both regionally and globally

features often experience material and emotional hardships From parental ties to sibling interactions to extended family and romantic relationships the chapters chart new territory by revealing the connection between proximity to whiteness and the distribution of affection within families Hordge Freeman also explores how black Brazilian families particularly mothers rely on diverse strategies that reproduce negotiate and resist racism She frames efforts to modify racial features as sometimes reflecting internalized racism and at other times as responding to material and emotional considerations Contextualizing their strategies within broader narratives of the African diaspora she examines how Salvador s inhabitants perceive the history of the slave trade itself in a city that is referred to as the blackest in Brazil She argues that racial hierarchies may orchestrate family relationships in ways that reflect and reproduce racial inequality but black Brazilian families actively negotiate these hierarchies to assert their citizenship and humanity *Carbonate Microfabrics* Richard Rezak,Dawn L.
