Modern Blackfeet Montanans On A Reservation:

Modern Blackfeet Malcolm McFee, 2022-12-05 Modern Blackfeet sheds light on the politics economics society and especially the acculturation of the Blackfeet Indians of Montana The Blackfeet Reservation has an established government and an active and diverse population that has long supported itself through ranching industry and oil and natural gas exploration Malcolm McFee shows why as a result policies and programs based on simplistic assumptions of assimilation are doomed to failure The results of McFee s long term research among the Blackfeet in the 1950s and 1960s make it clear that acculturation is not simply a linear process of assimilation or a one way cultural adaptation to the impact of Euro American culture He reviews the changing policies of the U S government which were directed initially at the destruction of all native customs and values then at the promotion of Blackfeet self government and eventually at the threatened termination of their status Finally and most important McFee notes that racial identity on the reservation today is explained more by values and behavior than by biology and thus divides the community into a white oriented majority and a smaller Indian oriented group dedicated to preserving the tribe s traditional lifeways *Montana* Michael P. Malone, Richard B. Roeder, William L. Lang, 1991 Montana A History of Two Centuries first appeared in 1976 and immediately became the standard work in its field In this thoroughgoing revision William L Lang has joined Michael P Malone and Richard B Roeder in carrying forward the narrative to the 1990s Fully twenty percent of the text is new or revised incorporating the results of new research and new interpretations dealing with pre history Native American studies ethnic history women s studies oral history and recent political history In addition the bibliography has been updated and greatly expanded new maps have been drawn and new photographs have been selected *The Columbia Guide to American Indians of the Great Plains* Loretta Fowler, 2003 From where and what does water come How did it become the key to life in the universe Water from Heaven presents a state of the art portrait of the science of water recounting how the oxygen needed to form H₂O originated in the nuclear reactions in the interiors of stars asking whether microcomets may be replenishing our world s oceans and explaining how the Moon and planets set ice age rhythms by way of slight variations in Earth s orbit and rotation The book then takes the measure of water today in all its states solid and gaseous as well as liquid How do the famous El Ni o and La Ni a events in the Pacific affect our weather What clues can water provide scientists in search of evidence of climate changes of the past and how does it complicate their predictions of future global warming Finally Water from Heaven deals with the role of water in the rise and fall of civilizations As nations grapple over watershed rights and pollution controls water is poised to supplant oil as the most contested natural resource of the new century The vast majority of water used today is devoted to large scale agriculture and though water is a renewable resource it is not an infinite one Already many parts of the world are running up against the limits of what is readily available Water from Heaven is in short the full story of water and all its remarkable properties It spans from water s beginnings during the formation of stars all the way through the origin of the solar system the evolution

of life on Earth the rise of civilization and what will happen in the future Dealing with the physical chemical biological and political importance of water this book transforms our understanding of our most precious and abused resource Robert Kandel shows that water presents us with a series of crucial questions and pivotal choices that will change the way you look at your next glass of water **The Sound of Silence** Tiina Äikäs, Anna-Kaisa Salmi, 2019-09-01 Colonial encounters between indigenous peoples and European state powers are overarching themes in the historical archaeology of the modern era and postcolonial historical archaeology has repeatedly emphasized the complex two way nature of colonial encounters This volume examines common trajectories in indigenous colonial histories and explores new ways to understand cultural contact hybridization and power relations between indigenous peoples and colonial powers from the indigenous point of view By bringing together a wide geographical range and combining multiple sources such as oral histories historical records and contemporary discourses with archaeological data the volume finds new multivocal interpretations of colonial histories

Blackfoot Religion and the Consequences of Cultural Commoditization Kenneth Hayes Lokensgard, 2016-04-15 This book explores the exchange of Blackfoot medicine bundles within contemporary Blackfoot culture and between the Blackfoot Peoples and Euro Americans These ceremonial bundles which are circulated as gifts in their native context are robbed of their statuses as living beings or persons when they are treated as symbolic objects or commodities by cultural outsiders Much of the original ethnographic data presented in this book deals with the attempts of some Blackfeet to repatriate ceremonial materials from Euro American hands This book represents a valuable study of contemporary Blackfoot religion as well as the repatriation movement Kenneth Lokensgard also contributes to the studies of material culture and exchange central to his investigation is the critical examination and reapplication of the interpretative terms gift and commodity Careful use of these terms Lokensgard argues can better help scholars appreciate how different peoples perceive the worlds they inhabit Indians of the Great Plains Daniel J. Gelo, 2018-07-20 This book provides a thorough and engaging study of Plains Indian life It covers both historical and contemporary aspects and contains wide and balanced treatment of the many different tribal groups including Canadian and southern populations Daniel J Gelo draws on years of ethnographic research and emphasizes that Plains societies and cultures are continuing living entities The second edition has been updated to take account of recent developments and current terminology The chapters feature a range of illustrations maps and text boxes as well as summaries key terms and questions to support teaching and learning It is an essential text for courses on Indians of the Great Plains and relevant for students of anthropology archaeology history and Indigenous studies

The Red and the White: A Family Saga of the American West Andrew R. Graybill, 2013-10-07 Winner of the Labriola Center American Indian National Book Award One of the American West's bloodiest and least known massacres is searingly re created in this generation spanning history of native white intermarriage National Book Award winning histories such as The Hemingses of Monticello and Slaves in the Family have raised our awareness about America's intimately mixed black and

white past Award winning western historian Andrew R Graybill now sheds light on the overlooked interracial Native white relationships critical in the development of the trans Mississippi West in this multigenerational saga Beginning in 1844 with the marriage of Montana fur trader Malcolm Clarke and his Piegan Blackfeet bride Coth co co na Graybill traces the family from the mid nineteenth century when such mixed marriages proliferated to the first half of the twentieth when Clarke s children and grandchildren often encountered virulent prejudice At the center of Graybill s history is the virtually unexamined 1870 Marias Massacre on a par with the more infamous slaughters at Sand Creek and Wounded Knee an episode set in motion by the murder of Malcolm Clarke and in which Clarke s two sons rode with the Second U S Cavalry to kill their own blood relatives
