The Gallery of Modern British Artists, 1834 Maps and the Writing of Space in Early Modern England and Ireland
B. Klein, 2001-01-11 Maps make the world visible but they also obscure distort idealize This wide ranging study traces the impact of cartography on the changing cultural meanings of space offering a fresh analysis of the mental and material mapping of early modern England and Ireland Combining cartographic history with critical cultural studies and literary analysis it examines the construction of social and political space in maps in cosmography and geography in historical and political writing and in the literary works of Marlowe Shakespeare Spenser and Drayton *Printed Images in Early Modern Britain* Michael Hunter, 2016-12-05 Printed images were ubiquitous in early modern Britain and they often convey powerful messages which are all the more important for having circulated widely at the time Yet by comparison with printed texts these images have been neglected particularly by historians to whom they ought to be of the greatest interest This volume helps remedy this state of affairs Complementing the online digital library of British Printed Images to 1700 www.bpi1700.org.uk it offers a series of essays which exemplify the many ways in which such visual material can throw light on the history of the period Ranging from religion to politics polemic to satire natural science to consumer culture the collection explores how printed images need to be read in terms of the visual syntax understood by contemporaries their full meaning often only becoming clear when they are located in the context in which they were produced and deployed The result is not only to illustrate the sheer richness of material of this kind but also to underline the importance of the messages which it conveys which often come across more strongly in visual form than through textual commentaries With contributions from many leading exponents of the cultural history of early modern Britain including experts on religion politics science and art the book's appeal will be equally wide demonstrating how every facet of British culture in the period can be illuminated through the study of printed images English Book-plates Egerton Castle, 1892 Illustrated with reproductions of bookplates by Gleeson White Walter Crane Kate Greenaway William Bell Scott among others **Michelin Green Guide Great Britain** Michelin, 2016-03-15 Newly updated Green Guide Great Britain in eBook format features dozens of different cultures and landscapes that make up Great Britain Discover its 3 unique countries through Michelin's driving and walking tours celebrated star rating system for attractions and activities respected maps full color photos and recommendations for places to stay and eat Explore the British Museum beach hop on the Pembrokeshire coast or sample Scotch whisky along The Whisky Coast Trail With this guide you'll see the best of Great Britain In this eBook you'll find Full color photos and plenty of detail travelers look for New Inspiration section for inspired travel ideas Practical Information section now split between Before You Go and On Arrival for quicker reference Attractions reviewed and rated using Michelin's celebrated star rating system Walk throughs of major museums galleries churches and attractions Illustrations and floor plans are often included Michelin walking and driving tours with directions mileage and travel time Journey into the past with a stroll along the 1 2
