New State Mary Parker Follett,1998-08-01 Having organized neighborhood discussion groups before World War I Follett traces the dynamics she noticed in these forums and

develops some core concepts useful for those working on questions of public deliberation today She also shows how deliberation informs debates that raged in political theory during her own era She discusses the works of pluralists Harold Laski idealists T H Green and Bernard Bosanquet and pragmatists William James and makes important arguments about the relationship between socialism and democracy Her work is marked by rigorous thinking about the implications of democratic principles as they relate to political and socioeconomic organization This book articulates the formation of a new state growing out of the local activities of citizens and renews the American idea of federalism in order to balance local activities and national purposes By doing this Follett leaves us with a pathbreaking work that demands more attention today With preliminary essays by Benjamin Barber and Jane Mansbridge plus a historical introduction provided by Kevin Mattson this reissued edition will be of use to scholars and activists who are currently working on issues of democratic participation civic education and public deliberation *Industrial Canada* ,1926
