perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable      **Unravelling Modern China** Haico

Ebbers,2019-04-05 This book provides a comprehensive and balanced view of the main transformations that are happening in the Chinese economy today This view has developed from more than 200 interviews and numerous surveys based on primary data in addition to mainstream literature by academia and consultancy companies The general view of China is often either black or white Global markets are generally guided by euphoria or fear Academia are optimistic or pessimistic about China s longer term growth potential People believe or distrust Chinese data These black and white pictures are in many cases easy to communicate and even proved by anecdotic evidence but are not correct Modern China is not the result of tradeoffs but ambiguities market driven AND government driven central government AND local government control increasing brand loyalty AND extreme price sensitivity fall of consumption as percentage of GDP AND strong increase in consumption export as an important driver behind longer term development AND yet hardly visible as a determinant of today s economic growth The aim of this book is to help readers understand the often conflicting nature of China not only from an economic point of view but also from political and social point of view In this sense it tries to give the reader an eclectic picture of China the country of contradictions That is a difficult task because of the linkages between reforms and the fact that there are many preconceived ideas of China its development and choices It is interesting to note that the further from China people are the more negative their views towards China This book will make clear that this pessimism is overdone In the longer term the author is quite positive about China s transformations believing that the rise of China is here to stay and that this is the major factor of change of this century      **The Art of Modern China** Julia F. Andrews,Kuiyi Shen,2012-09-24 In the early twenty

first century China occupies a place on center stage in the international art world But what does it mean to be a Chinese artist in the modern age This first comprehensive study of modern Chinese art history traces its evolution chronologically and thematically from the Age of Imperialism to the present day Julia Andrews and Kuiyi Shen pay particular attention to the dynamic tension between modernity and tradition as well as the interplay of global cosmopolitanism and cultural nationalism This lively accessible and beautifully illustrated text will serve and enlighten scholars students collectors and anyone with an interest in Asian art and artists      *The Second Generation* Andreas W. Sheehan,2015-12-01 Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War a remarkable number went on to become trained historians in their adopted homelands By placing autobiographical testimonies alongside historical analysis and professional reflections this richly varied collection comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation      *China's Wars*

Philip Jowett,2013-11-20 This new history of China's pivotal wars from 1894 to 1949 explains how China was transformed from a isolated and ramshackle medieval empire into a fledgling new world power China is one of the great powers of the modern world Yet in the late 19th century China was a ramshackle and isolated medieval empire upon whom the European colonial powers could impose their wishes at will China's Wars describes the series of conflicts from 1894 to 1949 that forged modern China from colonial clashes such as the Boxer Rebellion through the chaotic years of warlord domination to the Japanese invasion the Second World War and the bitter Civil War that followed Previously unpublished photographs contemporary pictures and specially commissioned maps illustrate these tumultuous events and the men who fought them events that would end with the eventual triumph of the Communist Party and the rise of modern China **The Making of**

**Modern Chinese Medicine, 1850-1960** Bridie Andrews,2014-12-20 Medical care in nineteenth century China was spectacularly pluralistic herbalists shamans bone setters midwives priests and a few medical missionaries from the West all competed for patients In the century that followed pressure to reform traditional medicine in China came not only from this small clutch of Westerners but from within the country itself as governments set on modernization aligned themselves against the traditions of the past and individuals saw in the Western system the potential for new wealth and power This book examines the dichotomy between Western and Chinese medicine showing how it has been greatly exaggerated As missionaries went to lengths to make their medicine more acceptable to Chinese patients modernizers of Chinese medicine worked to become more scientific by eradicating superstition and creating modern institutions Andrews challenges the supposed superiority of Western medicine in China while showing how traditional Chinese medicine was deliberately created in the image of a modern scientific practice **Japan faces the World, 1925-1952** Mary L. Hanneman,2013-11-14 By

1925 the process of Japan's transition to a modern industrialised westernised state was pretty much complete Not only had the imperial tradition been restored with the Meiji Restoration in 1868 but some forms of democratic parliamentary institutions had been set up However during the years that followed the so called imperial democracy came under pressure as the Japanese sought to impose tight control over not only their own people but their neighbours as well This impressive survey looks at developments at home Japan's aggressive foreign policy particularly in China during the 1930s and 1940s and her role in the Second World War Finally the post war reconstruction orchestrated by the Americans is examined The cut off point is 1952 the date when Allied Occupation formally came to an end and Japan once again became independent
