(Re)membering Kenya Vol 1 Mbũgwa wa Mũngai, G. M. Gona, 2010 One of the critical questions that Kenyans have
continuously asked is what went wrong in January and February 2008 with the peace they had hitherto enjoyed There have
not been readily available answers to this fundamental question The collection of papers presented in this book attempt to
provide as a starting point possible explanations for the events of early 2008 including key background issues in Kenyan
history since pre independence times Based on a series of public lectures titled Re membering Kenya organized by the
volume editors together with Twaweza Communications and sponsored by the Goethe Institut Kenya the Institute for
International Education and The Ford Foundation the lecture series became a way of trying to get scholars to engage
meaningfully with the Kenyan public on critical matters pertaining to their nationhood even if this entailed first calling to
question the lie about the very ideas and practices upon which that nationhood is assumed to stand A key lesson drawn from
the unfolding discussions at the Goethe Institut Kenya was that the 2007 elections debacle was merely the cusp of
momentous crises to do with among other issues governance law and order Parliament s abdication of its role in ensuring
accountability from the Executive dilemmas of identity and socio economic marginality The book is the first of three volumes
under the Re membering Kenya series whose overall objective is to cast some new light on the various trajectories that

informed the happenings of January 2008 The present volume brings together some of the best interpretative writing and suggestions on pertinent questions past and present ranging from the architecture of Kenya's ethnicity Kenyanness generational competition socialization and violence iconic representations of identity to the ongoing debate on the efficacy of the Truth Justice and Reconciliation Commission TJRC It is hoped that the issues debated during the public lectures and documented herein will spur further discussions in other spaces within civil society organizations among activists and in newspapers where the public might continue to expand their thinking on the complex task of Re-membering Kenya **UGC**

The Public's Law Blake Emerson, 2019-02-15 The Public's Law is a theory and history of democracy in the American administrative state The book describes how American Progressive thinkers such as John Dewey W E B Du Bois and Woodrow Wilson developed a democratic understanding of the state from their study of Hegelian political thought G W F Hegel understood the state as an institution that regulated society in the interest of freedom This normative account of the state distinguished his view from later German theorists such as Max Weber who adopted a technocratic conception of bureaucracy and others such as Carl Schmitt who prioritized the will of the chief executive The Progressives embraced Hegel's view of the connection between bureaucracy and freedom but sought to democratize his concept of the state They agreed that welfare services economic regulation and official discretion were needed to guarantee conditions for self determination But they stressed that the people should participate deeply in administrative policymaking This Progressive ideal influenced administrative programs during the New Deal It also sheds light on interventions in the War on Poverty and the Second Reconstruction as well as on the Administrative Procedure Act of 1946 The book develops a normative theory of the state on the basis of this intellectual and institutional history with implications for deliberative democratic theory constitutional theory and administrative law On this view the administrative state should provide regulation and social services through deliberative procedures rather than hinge its legitimacy on presidential authority or economic reasoning
