Barston,2014-06-03 Modern Diplomacy provides a comprehensive exploration of the evolution and concepts of the institution of diplomacy This book equips students with a detailed analysis of important international issues that impact upon diplomacy and its relationship with international politics The subject is brought to life through the use of case studies and examples which highlight the working of contemporary diplomacy within the international political arena Organised around five broad topic areas including the nature of diplomacy diplomatic methods and negotiation the operation of diplomacy in specific areas and natural disasters and international conflict the book covers all major topic areas of contemporary diplomacy

Modern Diplomacy Ronald Peter Barston,1997 As an adjunct to courses on law environmental negotiations journalism international finance and basic international diplomacy this book will provide an essential introduction for students and professionals already working in the field *Diplomatic Theory of International Relations* Paul Sharp,2009-09-03 Diplomacy does not take place simply between states but wherever people live in different groups Paul Sharp argues that the demand for diplomacy and the need for the insights of diplomatic theory are on the rise In contrast to conventional texts which use international relations theories to make sense of what diplomacy and diplomats do this book explores what diplomacy and diplomats can contribute to the big theoretical and practical debates in international relations today Sharp identifies a diplomatic tradition of international thought premised on the way people live in groups the differences between intra and inter group relations and the perspectives which those who handle inter group relations develop about the sorts of international disputes which occur He argues that the lessons of diplomacy are that we should be reluctant to judge ready to appease and alert to the partial grounds on which most universal claims about human beings are made **International**

Metzsig,2016-12-05 The present volume aims at outlining a new field of research with regard to the history of diplomacy the material culture of diplomatic interaction in early modern and modern times The material culture of diplomacy includes all practices in foreign policy communication in which single artifacts samples of artifacts or else the whole material setting of diplomatic interaction is supposed to be constitutive for creating an intended effect in terms of diplomatic objectives The chapters of this volume focus on intercultural diplomacy in different regions of the world wherein diplomatic actors of various kinds might have been confronted by a whole universe of unfamiliar artifacts and artifact related practices Most of them concentrate on gift giving as a diplomatic practice that offers multiple insights in the complex dynamics of diplomatic relations between representatives of culturally highly diverse political entities In doing so they gainfully apply different theoretical approaches of material culture as an interdisciplinary field of study to the

investigation of diplomatic cultures across the globe As a result it becomes obvious that future research into the history of diplomacy should take into account material practices much more thoroughly than has been done before
