**Making Friends in Early Modern France** Lewis C. Seifert, Rebecca M. Wilkin, 2016-03-03 Today the friendships that grab people's imaginations are those that reach across inequalities of class and race. The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption inherited from Aristotle and patristic sources that friendships between men and women were impossible. Together the essays in *Men and Women Making Friends in Early Modern France* tell the story of the declining intelligibility of classical models of male friendship and of the rising prominence of women as potential friends. The revival of Plato's friendship texts in the sixteenth century challenged Aristotle's rigid ideal of perfect friendship between men. In the seventeenth century a new imperative of heterosociality opened a space for the cultivation of cross-gender friendships while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie. *Men and Women Making Friends in Early Modern France* argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture. The ten essays in this volume address friend-making as a process that is creative of self and responsive to changing social and political circumstances. Contributors reveal how men and women fashioned gendered selves and also circumvented gender norms through concrete friendship practices. By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled, the essays in this volume highlight the relevance of early modern friend-making to friendship in the contemporary world.

**Economic Development in Early Modern France** Jeff Horn, 2015-02-26 Privilege has long been understood as the constitutional basis of Ancien Régime France, legalizing the provision of a variety of rights, powers, and exemptions to some whilst denying them to others. In this fascinating new study, however, Jeff Horn reveals that Bourbon officials utilized privilege as an instrument of economic development, freeing some sectors of the economy from pre-existing privileges and regulations while protecting others. He explores both government policies and the innovations of entrepreneurs, workers, inventors, and customers to uncover the lived experience of economic development from the Fronde to the Restoration. He shows how influenced by Enlightenment thought, the regime increasingly resorted to concepts of liberty to defend privilege as a policy tool. The book offers important new insights into debates about the impact of privilege on early industrialization, comparative economic development, and the outbreak of the French Revolution.

**Religion and Royal Justice in Early Modern France** Diane C. Margolf, 2004-01-01 Diane Margolf looks at the Paris *Chambre de l'Edit* in this well-researched study about the special royal law court that adjudicated disputes between French Huguenots and the Catholics. Using archival records of the court's criminal cases, Margolf analyzes the connections to three major issues in early modern French and European history: religious conflict and coexistence, the growing claims of the French crown to define and maintain order, and competing concepts of community and identity in the French state and society. Based on previously unexplored archival materials, Margolf examines the court through a cultural lens and offers portraits of ordinary men and women who were litigants before the court and the magistrates who heard their

cases      **Modern France and the World** Darcie Fontaine, 2023-02-27 Modern France and the World provides an engaging global history of the key events of modern France and its empire. It moves beyond the traditional political narrative of the development of the French Republican nation state to offer both national and international perspectives of its evolution. The volume illustrates the integral exchanges that have taken place between France and the modern world from global trade in the eighteenth century to the impact of postcolonial immigration and globalization on French identity and on France's diverse population. It includes the voices of women, colonized populations, and those who both embraced and challenged the spread of French ideas and values around the globe. Drawing on methodologies of social, cultural, and gender history, this textbook integrates a wide range of analytical tools to entice readers to engage more deeply in France's dynamic global history. By presenting the history of France and its global engagements from the mid-seventeenth century to the present, this volume is an essential resource for all students who study the history, politics, and culture of modern France.

*The Politics of Religion in Early Modern France* Joseph Bergin, 2014-01-01 Rich in detail and broad in scope, this majestic book is the first to reveal the interaction of politics and religion in France during the crucial years of the long seventeenth century. Joseph Bergin begins with the Wars of Religion, which proved to be longer and more violent in France than elsewhere in Europe, and left a legacy of unresolved tensions between church and state with serious repercussions for each. He then draws together a series of unresolved problems, both practical and ideological, that challenged French leaders thereafter, arriving at an original and comprehensive view of the close interrelations between the political and spiritual spheres of the time. The author considers the powerful religious dimension of French royal power even in the seventeenth century, the shift from reluctant toleration of a Protestant minority to increasing aversion, conflicts over the independence of the Catholic church, and the power of the pope over secular rulers, and a wealth of other interconnected topics.
