Modern German Sociology:

Modern German Sociology Volker Meja, Dieter Misgeld, Nico Stehr, 2021-09-30 Originally published in 1987 Modern German Sociology is a collection of essays containing sociological work published in German since World War II Included are sections from such outstanding figures as Theodor Adorno Alexander Mitscherlich Jürgen Habermas Niklas Luhmann and Ralf Dahrendorf The editors have arranged the essays into five sections that express their view of the chief aspects of modern German sociology and have written a helpful introduction to each section Chances for Alternatives Peter Heinrich Ludes, 1987 **Chances for Alternatives** Peter Ludes, 1982 Fate and Utopia in German Sociology, 1870-1923 Harry Liebersohn, 1990-08-15 Fate and Utopia in German Sociology provides a lucid introduction to a major sociological tradition in Western thought It is an intellectual history of five scholars Ferdinand Tönnies Ernst Troeltsch Max Weber Georg Simmel and Georg Lukács who created modern German sociology over the course of fifty years from 1870 to 1923 Liebersohn portrays his subjects as thinkers who were deeply immersed in the politics and poetry of their time and whose sociology benefited in unexpected ways from sources as diverse as medieval mysticism and Nietzsche's Birth of Tragedy He maps out their shared sociological discourse shaped in response to the fragmentation they perceived in public life in education and the arts and in Protestant religious life German sociology has generally been interpreted as having a tragic perspective on modern society as implied by the pervasive idiom of fate Liebersohn argues that this sense of fate was matched by an underlying utopian hope for an end to fragmentation rooted for all of his subjects in the Lutheran idea of community The book's five biographical chapters are structured to discuss ideas of community society and personality in the work of the individual discussed while there is a general movement among the chapters from community to society to socialism Many specific texts are discussed and the overall orientation is one of intellectual history rather than sociological analysis *German Ideologies Since 1945* J. Müller, 2003-02-21 The contributors of this volume seek to answer such questions as How did the Germans overcome Germanic Ideology or did they Why is there no libertarianism in Germany What do German conservatives wish to conserve Emphasizing shared patterns of thought the contributors trace the contours of political thought in a divided nation with a difficult past and in the shadow of the culture and political values of the United States **Modern Sociological Theory** George Ritzer, Jeffrey Stepnisky, 2017-01-23 Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Eighth Edition of Modern Sociological Theory by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools from the Structural Functionalism of early 20th century through the cutting edge theories of the late 20th and early 21st centuries The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers New to this Edition A new chapter focuses theories of race racism and colonialism as well as theories about indigenous peoples and theories from the Global South that challenge the work of scholars from

Europe and North America New material on colonialization classical women theorists and race as well as new timelines in history chapters The chapter on Symbolic Interactionism now discusses work on the sociology of emotions The concluding chapter now discusses affect theory and theories of presumption one of the newest developments in consumer theory The chapter on Contemporary Theories of Modernity includes new section on the work of Charles Taylor New perspectives on the work of Immanuel Wallerstein have been added to the chapter on Neo Marxian theories The opening historical sketch chapters now include a discussion of colonialism as one of the forces that shaped modern society new material on the historical significance of early women founders and a section on theories of race

Shock and Naturalization in Contemporary Japanese Literature Carl Cassegård, 2007-03-29 This study introduces the concepts of naturalization and naturalized modernity and uses them as tools for understanding the way modernity has been experienced and portrayed in Japanese literature since the end of the Second World War Special emphasis is given to four leading post war writers Kawabata Yasunari Abe Kobo Murakami Haruki and Murakami Ryu The author argues that notions of shock in modern city life in Japan as exemplified in the writings of Walter Benjamin and George Simmel while present in the work of older Japanese writers do not appear to hold true in much contemporary Japanese literature it is as if the shock impact of change has evolved as a naturalized or Japanized process The author focuses on the implications of this phenomenon both in the context of the theory of modernity and as an opportunity to reevaluate the works of his chosen writers
