of interactive forms of public governance that bring together a plethora of public and private actors in collaborative policy arenas This book explores how these new forms of interactive governance are working in practice and analyses their role and impact on public policy making in different policy areas and in different countries The need for facilitating managing and giving direction to interactive policy arenas is also addressed through empirical analyses of different forms of metagovernance that aim to govern interactive forms of governance without reverting to traditional forms of hierarchical command and control Finally the normative implications of interactive policy making are assessed through studies of the democratic problems and merits associated with interactive policy making

Encyclopedia of Political Theory Mark Bevir, 2010-03-18 Looking at the roots of contemporary political theory this three volume set examines the global landscape of all the key theories and the theorists behind them and provides concise to the point definitions of key concepts ideas schools and figures

The Political Economy of Corporation Tax John Snape, 2011-12-09 Excellent technical writing on corporation tax abounds but it tends to be inaccessible to public lawyers political theorists and political economists Although recent years have seen not only an explosion in public law scholarship but also a reawakening of interest in interpretative political theory and political economy the potential of these perspectives to illuminate the corporation tax debate has remained unexplored In this important work John Snape seeks to reconcile these disparate strands of scholarship and to contribute to a new way of understanding and conceptualising the reform of the law relating to corporate taxation Drawing on important developments in public law scholarship the study combines elements of political theory and political economy It advances a new interpretation of corporation tax law as an instrument of rule through the maximisation of a nation s economic potential Snape shows how corporate taxation belongs at the centre of any discussion of economic globalisation not only because of the potential of national tax systems to influence inward investment decisions but also because of the potential of those decisions to shape the public interest that those tax systems might embody Following public law and politics models the book looks afresh at the impact of Britain s political institutions of the processes of its representative government and of the theory that moulds and orders the values that the corporation tax code contains This is a timely exploration of cutting edge issues of public policy

Routledge Handbook of Environment and Society in Asia Paul G. Harris, Graeme Lang, 2014-09-19 Nowhere is the connection between society and the environment more evident and potentially more harmful for the future of the world than in Asia In recent decades rapid development of Asian countries with very large populations has led to an unprecedented increase in environmental problems such as air and water pollution solid and hazardous wastes deforestation depletion of natural resources and extinction of native species This handbook provides a comprehensive survey of the cultural social and policy contexts of environmental change across East Asia The team of international experts critically examine a wide range of environmental problems related to energy climate change air land water fisheries forests and wildlife The editors conclude that with nearly half of the human population of the planet and several rapidly growing economies most notably China Asian societies will determine much of the future of human impacts on the regional and global environments As climate change related threats to society increase the book strongly argues for increased environmental consciousness and action in Asian societies This handbook is a very valuable companion for students scholars policy makers and researchers working on environmental issues in Asia

Governing by Inspection Sotiria Grek, Joakim Lindgren, 2014-09-19 In recent decades governing practices in education have become highly contradictory deregulation and decentralisation are accompanied by re regulation and increased centralisation contributing to considerable governing tensions in and across different national systems and within the emergent European education policy space On the one hand there is the persistence of performance monitoring through target setting indicators and benchmarks and on the other the promotion of self evaluation and light touch regulation that express a softer governance turn and promote self regulation as the best basis for constant improvement Drawing on research undertaken into three national systems this edited volume explores the attempts to manage these tensions in Europe through the development of inspection as a governing practice Inspectorates and inspectors offer key locations for the exploration of governing tensions positioned as they are between the international the national and the local and institutional and with responsibility for both regulation and development All three national systems offer contrasting approaches to inspection all of which have changed considerably in recent years Governing by Inspection positions inspection in the framework of changing education policy and politics and in a period of intensive policy development and exchange in Europe It will be key reading for academics researchers and postgraduate students in the fields of education political science and social policy
