Modern Herbal How To Grow Cook And Use Her:

A Modern Herbal Maud Grieve, 1971-06-01 There is not one page of this enchanting book which does not contain something to interest the common reader as well as the serious student. Regarded simply as a history of flowers it adds to the joys of the country. B. E. Todd Spectator. If you want to know how pleurisy root, lungwort and abscess root got their names, how poison ivy used to treat rheumatism or how garlic guarded against the Bubonic Plague, consult *A Modern Herbal*. This 20th century version of the medieval Herbal is as rich in scientific fact and folklore as its predecessors and is equally encyclopedic in coverage. From aconite to zedoary, not an herb, grass, fungus, shrub or tree is overlooked and strange and wonderful discoveries about even the most common of plants await the reader. Traditionally an herbal combined the folk beliefs and tales about plants, the medicinal properties and parts used of the herbs and their botanical classification. But Mrs. Grieve has extended and enlarged the tradition; her coverage of asafetida, bearberry, broom, chamomile, chickweed, dandelion, dock, elecampane, almond, eyebright, fenugreek, moss, fern, figwort, gentian, Hart's tongue, indigo, acacia, jaborandi, kava, kava, lavender, pimpernel, rhubarb, squill, sage, thyme, sarsaparilla, unicorn root, valerian, woundwort, yew, etc., more than 800 varieties in all, includes in addition methods of cultivation, the chemical constituents, dosages and preparations of extracts and tinctures unknown to earlier herbalists, possible economic and cosmetic properties and detailed illustrations from root to bud of 161 plants. Of the many exceptional plants covered in *Herbal*, perhaps the most fascinating are the poisonous varieties: hemlock, poison oak, aconite, etc., whose poisons in certain cases serve medical purposes and whose antidotes, if known, are given in detail. And of the many unique features, perhaps the most interesting are the hundreds of recipes and instructions for making ointments, lotions, sauces, wines and fruit brandies like bilberry and carrot jam, elderberry and mint vinegar, sagina sauce and cucumber lotion for sunburn and the hundreds of prescriptions for tonics and liniments for bronchitis, arthritis, dropsy, jaundice, nervous tension, skin disease and other ailments. 96 plates, 161 illustrations. **A Modern Herbal** Violet W. Stevenson, 1974.

In this accessible and easy to use manual, horticultural expert, former *Gardener's World* presenter and *Guardian* columnist Alys Fowler shows how to take control of your health by adopting a more natural lifestyle. For thousands of years, people who had no access to clinical medicine knew how to boost their well-being by using the ingredients they found in plants. Herbs are the people's medicine, often freely available and abundant; they are ready and waiting to be plucked from around you to soothe and heal your body and mind. With guides for how to use and grow over 100 herbs, for example, how to use fennel for indigestion, chamomile for anxiety and nettle for hayfever, you'll soon be heading into the garden rather than opening the medicine cabinet. Offering a fusion of botanical, practical, cultural and historical information, *A Modern Herbal* reveals how
