Cinderella Church: the Story of Early Christianity R. John Kinkel, 2008-09-29 Christianity is the largest religion in the world with approximately 2.1 billion adherents Nonetheless when measured by the gold standard early Christian teachings and practice we find considerable slippage Two words describe current church problems and failures dull and devious At the highest levels of Catholic leadership for example we find scandals galore Top officials pilfer 40 million in Detroit to build national shrines Cardinals and bishops cover up priest sexual abuse and the pope most recently ignores high ranking bishops and cardinals pleas to allow Catholics to use condoms to prevent the spread of HIV AIDS That is the devious part At the lower end of the totem pole are priests and laity that just don't get it They say their prayers go to mass and have their baptisms they wonder why their kids don't go to church any more Not enough priests We will close the small churches and build a mega church One small city in Wisconsin pop 40 000 did this at the cost of 12 million Care to measure the cost of celibacy Pay pray and obey is the mantra and the young people don't like it Little wonder that only 1 in 3 Christians practice their faith to any appreciable degree and fail to pass religious traditions on to the next generation Instead of going after the lost sheep the pope says maybe we need a small dedicated remnant of believers Interesting strategy when you have driven the sheep away with questionable policies no women priests no married priests no condoms to fight AIDS

Bownas,2017-11-21 The idea of the hero originates in myths from the distant past and has been applied to many different concepts in different societies cultures and historical time periods As a mythical signifier the meaning of the word hero changes according to the intentions of the user and this study examines some of the ways in which heroic myths have been created either to justify the actions of those in power or to produce an imaginary ideal to which the majority can aspire The warrior heroes of Greek legend fighting for individual glory and honour have little in common with the soldiers fighting in the wars of the twentieth century resulting in the creation of a new hero myth that of the patriotic dutiful and obedient soldier As a result of wars and the emergence of new states there is a need for new myths depicting heroes who fight and if necessary die in order to defend their nation Heroic myths are important for those seeking power and this study considers the extent to which Germanic myths played a part in the emergence of Hitler as a heroic leader In recent times the idea of the hero with which people most readily identify is the extreme altruist someone who is ready to risk their own life to save the life of another person The possible origins of and reasons for such behaviour are examined All humans possess the potential to act in ways which might be considered to be heroic even when this involves living an ordinary life with courage and endurance **Heroes of Faith in a Contemporary World** Dr. G.
