Royle, 2014-07-10 Fresh original and compelling An Introduction to Literature Criticism and Theory is the essential guide to literary studies Starting at the beginning and concluding with the end the book covers topics that range from the familiar character narrative the author to the more unusual secrets pleasure ghosts Eschewing abstract isms Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of both reading and studying literature *A Reader's Guide to Contemporary Literary Theory*

Selden, Peter Widdowson, Peter Brooker, 2016-12-19 *A Reader's Guide to Contemporary Literary Theory* is a classic introduction to the complex yet crucial area of literary theory. This book is known for its clear accessible style and its thorough logical approach guiding the reader through the essentials of literary theory. It includes two new chapters: *New Materialisms* which incorporates ecocriticism, animal studies, posthumanism and thing theory; and *21st Century and Future Developments* which includes technology, digital humanities, ethics and affect.

On the Turn Bárbara Arizti, Silvia Martínez-Falquina, 2009-05-05 *On the Turn: The Ethics of Fiction in Contemporary Narrative in English* is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics. The editors' introduction investigates the current state of affairs on the return to ethics in critical and literary consideration and it opens up the way for the variety of approaches that follows. Participants include internationally recognized scholars like Andrew Gibson, Patricia Waugh or Native American fiction writer and poet Gordon Henry, winner of the American Book Award in 1995. All in all, contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post deconstruction ethics. Authors analyze texts both mainstream and marginal, colonial and postcolonial; they examine the ethics of race, gender and sexuality, the ethics of self-positioning and orientation, the ethics of style, the ethics of reception, the ethics of mode and genre, the ethics of extreme situations of evil, disease and fascism. In its search for a better understanding of the global nationalistic world of today, *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider, more urgent relevance: What should I do? What ought I to do? What may I do? What must I do if anything on the basis of reading when I have read a literary work? What does reading a literary work authorize or even command me to do? Writing an essay about the work would be one response. *On the Turn* is a wonderfully diverse, learned, challenging, provocative, even sometimes controversial collection of essays on the ethical dimensions of literature. This book is testimony to the continued lively interest in the ethical turn in literary studies. The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers' values and judgments. Poetry and non-print media are however also discussed.

J. Hillis Miller, UCI Distinguished Research Professor of Comparative Literature and English, University of California at Irvine. *The Ethics of Fiction* is an important and exciting volume that explores with energy and rigour the connections between ethics and literature. Relating literature to philosophy, neurobiology, politics, religion, deconstruction and psychoanalysis, the twenty-two contributors richly advance the ethical turn recently embraced by many critics. Works by authors such as Ian McEwan, A.S. Byatt, Charles Palliser, Hanif Kureishi, J.M. Coetzee, David Malouf, George Orwell, E.L. Doctorow, Flannery O'Connor, Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality, the nature of love, Islamophobia and the politics of representation are tackled with imagination and intellectual integrity. This book is essential reading for anyone interested in the dialogue between ethics and literature.

Transmedial Narratology and Contemporary Media Culture Jan-Noël Thon,2016-08 Narratives are everywhere and since a significant part of contemporary media culture is defined by narrative forms media studies need a genuinely transmedial narratology Against this background Transmedial Narratology and Contemporary Media Culture focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation This book provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films comics and video games but also a theoretical frame within which medium specific approaches from literary and film narratology from comics studies and game studies and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media **Revisiting Modernism**

figural psyche of modernist fiction and the gendered landscape of female isolation is Lava Asaad's focus on the early modernist career of Jean Rhys better known for her postcolonial rewriting of Jane Eyre. Is there an aesthetic continuity between the historical avant garde and the Beat Generation or the abstract expressionism in the 50s and 60s? Allen Ginsberg, John Ashbery or Lawrence Ferlinghetti engage often in dialogue with precedent canonical texts, their intertexts sinning on the side of courteous attitudes to tradition which does not fit into the context of Marinetti's dismissal of libraries, academies and museums. The Futurist Manifesto: Abstract art is obviously something different from found objects while in critical theory the fifties and the sixties saw the rise of semiotics, psychoanalysis, deconstruction, feminism that is of the very practice of interdisciplinarity in literary criticism, something at the other pole from New Criticism and other formalisms in which ended up structuralism. Although not irrelevant in point of aesthetic achievement, Ayendy Bonifacio writing persuasively on Hart Crane's constructivist rhetoric, the avant garde is still perceived as a self-standing chapter in the cultural history of modernism. The exchange of cultural narratives and traditions fostered by historical circumstances but also by Woringer's aesthetics that praised primitive art for its tendencies towards abstraction in flight from a threatening and alien nature that could provide a spiritual cure to a materialistic civilization was defining for the poetics of art at the turn of the last century. Modernism was humanity's first coming together.

Authors and Authority Patrick Parrinder, 1991. One of the great paradoxes of modern times is that the more scientists understand the natural world the more we discover that our everyday beliefs about it are wrong. Neil F. Comins has identified and classified by origin and topic over 1,700 commonly held misconceptions about the universe. He presents the reader with the tools needed to probe erroneous notions so that we can begin to question for ourselves and to think more like scientists.

The Post-war Novel and the Death of the Author Arya Aryan, 2020-08-07. This book not only discloses and examines different functions and concepts of authorship in fiction and theory from the 1950s and 1960s to the present but it also reveals at least implicitly a trajectory of some of the modes and functions of the novel as a genre in the last few decades. It argues that the explicit terms of much of the theoretical and philosophical debate surrounding the concept of authorship in the moment of High Theory in the 1980s had already been engaged albeit often more implicitly in literary fictions by writers themselves. This book examines the fortunes of the authorship debate and the conceptualisations and functions of authorship before, during and after the Death of the Author came to prominence as one of the key foci for the moment of High Theory in the 1980s.
