Black Conservatives in the United States Godfrey Mwakikagile,2006 This work is an examination of the black conservative phenomenon in the United States in contemporary times The author looks at the role black conservatives play in American politics and at their attempts to have an impact on the lives of black Americans also known as African Americans Subjects covered include perspectives black conservatives share on issues such as affirmative action racism poverty self reliance welfare drugs crime and illegitimacy among blacks the criminal justice system and how it affects blacks and why black conservatives differ with other blacks on those issues It is also a critique of *The Bell Curve* a book that has inflamed passions especially among blacks and of the views some black conservatives have expressed on racial IQ differences which have fueled debate on this highly explosive subject The author also looks at the policy and philosophical differences and at differences in perceptions between black conservatives and their brethren in the black community Why do black conservatives oppose affirmative action Why do they support the Republican party Why don t they have much support in the black community Those are just some of the issues addressed in this book The author writes from personal experience after living and interacting with African Americans of all ideological stripes for more than 30 years His interest in Black America spans the ideological spectrum and covers other aspects of life including relations between Africans and African Americans He has written a book about those relations in which he also addresses the black conservative phenomenon in the United States Like all his others books *Black Conservatives in the United States* is intended for members of the general public and the academic community

Black Men on Race, Gender, and Sexuality Devon Carbado,1999-07-01 In late 1995 the Million Man March drew hundreds of thousands of black men to Washington DC and seemed even to skeptics a powerful sign not only of black male solidarity but also of black racial solidarity Yet while generating a sense of community and common purpose the Million Man March with its deliberate exclusion of women and implicit rejection of black gay men also highlighted one of the central faultlines in African American politics the role of gender and sexuality in antiracist agenda In this groundbreaking anthology a companion to the highly successful *Critical Race Feminism* Devon Carbado changes the terms of the debate over racism gender and sexuality in black America The essays cover such topics as the legal construction of black male identity domestic abuse in the black community the enduring power of black machismo the politics of black male white female relationships racial essentialism the role of black men in black women s quest for racial equality and the heterosexist nature of black political engagement Featuring work by Cornel West Huey Newton Henry Louis Gates Jr A Leon Higginbotham Jr Houston Baker Marlon T Riggs Dwight

Looking for My Identity W. A. HARPER, PHD,2010-02-10 The juvenile justice system is only part of the problem of a growing cohort of alienated violent juvenile offenders The devaluation of traditional morality moral deprivation and the breakdown of respect for all authority has had its influence on other institutions as well as the entire juvenile justice system administration As a result of being outdated the juvenile justice system needs to be redesigned so that it works more effectively with less time allocated between arrest and the disposition More emphasis should be placed on placement that provides structure and supervision that is intended to modify behavior of the most violent and at the least to remove habitual repeat offenders from the community Today we bite and devour each other and call it zero tolerance This indicates that we have moved further from the beginning of time until this present time The scripture indicates that we have entered the works of the flesh such as idolatry envying wrath strife heresies The government itself has elected to follow the difference of politically correct tolerance rather than the truth of tolerance

African Americans, Labor, and Society Patrick L. Mason, 2001 Over the past twenty five years union participation has declined among the nation as whole Coupled with increasing racial tensions cutbacks in public programs at the federal state and local levels and a shift in the distribution of wealth these changes have undermined the standard of living for American workers families especially African American families as they created greater wealth for the American elite African Americans Labor and Society examines these changes in particular their effects on the entire African American community and suggests a move toward a more egalitarian future This collection of essays written by legal scholars professional organizers and economists suggests integrating civil rights and labor laws to strengthen both anti discrimination and union organizing efforts The volume demonstrates the negative effects for union workers of arbitration agreements that undermine civil rights legislation in the workplace It also provides a detailed case study of the nature and extent of racial conflict within a major industrial union and analyzes and suggests policy changes that would increase the political and economic power of American workers as a whole while aggressively attacking racism in social economic and political institutions African Americans Labor and Society presents strategies for creating better opportunities for African Americans through private sector employment that will appeal to legal union and labor students and scholars as well as economists
