The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern

imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Empires between Islam and Christianity, 1500-1800 Sanjay Subrahmanyam, 2018-12-27 Empires Between Islam and Christianity 1500 1800 uses the innovative approach of connected histories to address a series of questions regarding the early modern world in the Indian Ocean the Mediterranean and the Atlantic The period between 1500 and 1800 was one of intense inter imperial competition involving the Iberians the

Ottomans the Mughals the British and other actors Rather than understand these imperial entities separately Sanjay Subrahmanyam reads their archives and texts together to show unexpected connections and refractions He further proposes in this set of closely argued studies that these empires often borrowed from each other or built their projects with knowledge of other competing visions of empire The emphasis on connections is also crucial for an understanding of how a variety of genres of imperial and global history writing developed in the early modern world The book moves creatively between political economic intellectual and cultural themes to suggest a fresh geographical conception for the epoch *Essays in Indian History* Irfan Habib,2002 This volume offers a collection of several of Professor Habib s essays providing an insightful interpretation of the main currents in Indian history **Royal Courts in Dynastic States and Empires** ,2011-08-11 In recent decades the history of premodern states and empires has undergone major revision At the heart of this process stood the court encompassing the household as well as government institutions This volume for the first time brings together the fruits of research on royal courts from antiquity to the modern world from Asia to Europe The authors are acknowledged specialists in their own fields but they address themes relevant for all courts the inner and outer dimensions of court architecture as well as staff organizations the connections between court capital and realm the relationship of the ruler with relatives and other elites This volume pioneers comparative history combining a rich empirical orientation with a critical assessment of theoretical perspectives This title is available online in its entirety in Open Access Contributors T lay Artan Gojko Barjamovic Peter Fibiger Bang Jeroen Duindam Sabine Dabringhaus Nadia Maria El Cheikh Ebba Koch Metin Kunt Paul Magdalino Rosamond McKitterick Ruth Macrides Rolf Strootman Isenbike Togan Maria Antonietta Visceglia and Andrew Wallace Hadrill *Land and Law in Mughal India* Nandini Chatterjee,2020-04-16 In this innovative micro historical approach to law empire and society in India from the Mughal to the colonial period Nandini Chatterjee explores the dramatic multi generational story of a family of Indian landlords negotiating the laws of three empires Mughal Maratha and British This title is also available as Open Access *The Princes of the Mughal Empire, 1504-1719* Munis D. Faruqi,2012-08-27 For more than 200 years the Mughal emperors ruled supreme in northern India How was it possible that a Muslim ethnically Turkish Persian speaking dynasty established itself in the Indian subcontinent to become one of the largest and most dynamic empires on earth In this rigorous new interpretation of the period Munis D Faruqi explores Mughal state formation through the pivotal role of the Mughal princes In a challenge to previous scholarship the book suggests that far from undermining the foundations of empire the court intrigues and political backbiting that were features of Mughal political life and that frequently resulted in rebellions and wars of succession actually helped spread deepen and mobilise Mughal power through an empire wide network of friends and allies This engaging book which uses a vast archive of European and Persian sources takes the reader from the founding of the empire under Babur to its decline in the 1700s Religion and Culture Under Mughals Aijaz Ahmad,2024-01-01 This book Religion and Culture under Mughals is a humble effort to highlight the

religious and cultural synthesis developed by the Mughal emperors in the diverse society of the Indian subcontinent The Mughal Empire which flourished from the early sixteenth to the early eighteenth centuries in the Indian subcontinent played a significant role in shaping the religious and cultural landscape Akbar implemented policies of religious inclusivity seeking to integrate different religious communities into the imperial structure While Babur was fond of natural beauty learning and literature and warfare strategy the other Mughal emperors especially Akbar Jahangir and Shah Jahan were patrons of the arts and learning Aurangzeb was also an empire builder and encouraged harmony by appointing many Hindu Rajas to higher positions in the empire However his period remained disturbed due to the emergence of many local chiefs and some religious misunderstandings The Mughal rulers left behind a legacy of magnificent buildings including the Taj Mahal Agra Fort and Red Fort in Delhi They encouraged the translation of religious texts the creation of illustrated manuscripts and the development of a rich cultural heritage
