Muhammad Al Qadiris Nashr Al Mathani The Chronicles:

An Edition and Translation of the Chronicles from Muhammad Al-Qadiri's Nashr Al-Mathani L. Norman Cigar, 1976

Muhammad Al-Qadiris Nashr Al Mathani Muhammad al-Qadiri, Norman Cigar, 1981 **The Historical Chronicle of Abū 'Abdallāh Maḥammad Ibn Ibrāhīm al-Dukkālī** Norman Cigar, 2023-04-12 Ibn Ibrāhīm al-Dukkālī's Historical Chronicle edited and translated by Norman Cigar is a valuable contemporary manuscript source from Morocco's poorly documented and seldom studied mid eighteenth century a period marked by weak rulers and conflicts but also a golden age for local political actors and the autonomous power centers in the cities As a well placed observer and active participant in events in his native city of Fes al Dukkālī provides unique data that helps us address key questions about cities in the Muslim world raised in multiple disciplines such as whether cities could be considered communities or were simply an agglomeration of disparate elements and to what extent cities enjoyed autonomy in their relations with the central government and in what sense they were Islamic *Disorienting Encounters* Muhammed As-Saffar, 1992-02-14 In December of 1845 Muhammad as Saffar was sent by the reigning Moroccan sultan on a special diplomatic mission to Paris During the journey as Saffar took careful notes and upon his return he hurriedly wrote this travel account Why was the sultan descendent of the Prophet Muhammad and head of a dynasty that had ruled Morocco for more than two hundred years so eager to read this account Perhaps he thought it would illuminate some troubling matters how the French acquired their power and their mastery over nature how they led their daily lives educated their children treated their women and servants In short the sultan wanted to know the condition of French civilization and why it differed from his As Saffar provided the answers Moreover as we read the account Muhammad as Saffar comes alive for us We see him reflecting on the beauty of women contorting during his ritual ablutions and suffering from boredom at endless dinners His opinions and ideas infuse every page For him the journey was more than a catalog of curiosities it was a transforming experience Given our very limited knowledge of the time and the absence of other voices that speak with equal clarity this travel account enlarges our understanding of the relationship between nineteenth century Morocco and France In the Lands of the Christians Nabil Matar, 2013-01-11 In the Lands of the Christians presents original translations from Arabic of four Christian and Muslim writers who visited Western Europe and America in the seventeenth century These essays contain careful descriptions of the regions societies customs and religions these intrepid travelers encountered in their journeys Here you will find the complete travel narrative of the first Arab to visit South and Central America in 1688 the first English translation of the ambassadorial report by Mohammad bin Abd al Wahab al Ghassani who traveled through Spain in 1690 translations of letters by the Moroccan ambassador to France describing his relationship with his hosts and his impressions of the land and Morisco author Ahmad bin Qasim's account of his voyage from Holland to France in 1610 **Essays on Islamic Piety and Mysticism** Meier, 2021-11-15 Fritz Meier 1912-1998 is one of the most outstanding Orientalists of this century His publications combine masterful philological method and

precision profound and penetrating textual interpretation and a wide ranging familiarity with primary sources which may truly be characterized as phenomenal Among the numerous fields in which he has undertaken original research Persian poetry and Islamic mysticism Sufism in the widest sense stand out in particular His work on Sufism covers the whole of the Islamic world and Islamic history from its beginnings up to the 20th century The present provides for the first time a translation of 15 of Fritz Meier s seminal articles The selected articles deal with the history of Sufism Sufi morals and practices such as dhikr and sam the historical development of the master disciple relationship Ibn Taymiyya s attitude toward Sufism pious devotional practices such as making use of the tasliya essential sources for the history of Sufism in the Maghreb and the Almoravids Extensive indices facilitate the use of this epoch making work *Historical Dictionary of Morocco* Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of *Historical Dictionary of Morocco* contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco **Historical Dictionary of Morocco** Thomas K. Park, Aomar Boum, 2006-01-16 The Kingdom of Morocco achieved its independence in 1956 after over 40 years as a French protectorate Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the U S Morocco of the past and present are covered in this second edition of the *Historical Dictionary of Morocco* A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events Hundreds of cross referenced dictionary entries on former rulers current leaders ancient capitals significant locations influential institutions and crucial aspects of the economy society culture and religion form the core of the book A bibliography of sources is included to promote further more specialized study **Mediterranean Captivity through Arab Eyes, 1517-1798** Nabil Matar, 2020-11-04 The post Lepanto Mediterranean was the scene of small

wars to use Fernand Braudel's phrase which resulted in acts of piracy and captivity. Thousands upon thousands of Europeans, Arabs and Turks were seized into bagnios stretching from Cadiz to Valletta and from Sal to Tripoli. After returning to their homelands, dozens from England and France, Germany and Spain, Malta and Italy wrote about their captivities. Their accounts were printed, distributed, translated and plagiarized, making captivity a key subject in Europe's Mediterranean history. While Europeans wrote extensively about their ordeals, the Arabs wrote little because their religious culture militated against such writings which would be construed as expressing disaffection with the will of God. Nor were there detailed records and registers of captives, their names, places of origin and ransom prices similar to what was kept in the European archives. Contrary, however, to what some historians have claimed, there was a distinct Arabic narrative of captivity that survives in anecdotes, recollections, reports, miracles, letters, fatawa, exempla and short biographies in both verse and prose. Cumulatively, these sources constitute the Arabic *qi as al asr* or stories of the captives in the native language and idiom of the men and women of the early modern Mediterranean.

Dynasties of the World John Morby, 2014-09-18. This title has tables giving years of rule and family relationships in the male line unless otherwise indicated for the reigning families of the world from Horus Aha, first pharaoh of Egypt, to Abdallah, present king of Saudi Arabia. Included in the tables are data regarding regencies and co-regencies, abdications and depositions, interregna and dynastic unions, mandates and protectorates, canonizations and beatifications and the end of monarchic rule through conquest or overthrow. Notes provide information on chronological problems and uncertainties, non-Western dating systems and names and titles. Bibliographies document the research and guide the reader to additional information.

In the Shadow of the Sultan Rahma Bourqia, Susan Gilson Miller, 1999. In contrast, however, to the political scientist's top-down approach, each essay isolates a point of critical intersection between culture writ large and manifestations of political authority. Power as performed and symbolized during Morocco's long dynastic history has also excited the anthropologists, notably Clifford C. Geertz. In Geertz's scheme of things, the country's political life has been dominated by a combustible or extravagant charismatic authority articulated by the ideology of *baraka* and embodied by the figure of the saint or holy man. This type of authority, so the argument goes, renders the Morocco state intrinsically different from the Weberian model of the traditional but rational state. Not so, reply the volume's contributors.

Pure Gold from the Words of Sayyidī 'Abd al-'Azīz al-Dabbāgh John O'Kane, Bernd Radtke, 2007-11-30. Around 1720 in Fez, Ahmad b. al-Mubarak al-Lama, a religious scholar, wrote down the words and teachings of the Sufi master Abd al-Aziz al-Dabbagh. Al-Dabbagh shunned religious studies but, having reached illumination and met with the Prophet Muhammad, he was able to explain any obscurities in the Qur'an and the sayings of earlier Sufis. The resulting book, known as the *Ibriz*, describes how al-Dabbagh attained illumination and access to the Prophet as well as his teachings about the Council of the Godly that regulates the world, relations between master and disciple, the darkness in men's bodies, Adam's creation, Barzakh, Paradise and Hell, and much more besides. This encyclopaedia of Sufism, with its many teaching stories and illustrations, provides a window onto

social life and religious ideas in Fez a generation or so before powerful outside forces began to play a role in the radical transformation of Morocco *The Southern Shores of the Mediterranean and its Networks* Patricia Lorcín, 2017-10-02 The majority of scholarly conceptions of the Mediterranean focus on the sea's northern shores with its historical epicentres of Spain France or Italy This book seeks to demonstrate the importance of economic political and cultural networks emanating from the Mediterranean's lesser studied southern shores The various chapters emphasize the activities that made connections between the southern shores sub Saharan Africa the lands along its northern shores and beyond to the United States In doing so the book avoids a Eurocentric approach and details the importance of the players and regions of the southern hinterland in the analysis of the Mediterranean space The cultural aspects of the North African countries be they music literature film commerce or political activism continue to transform the public spheres of the countries along the northern shores of the Mediterranean and beyond to the whole of the European continent In its focus on the often overlooked North African shore the work is an innovative contribution to the historiography of the Mediterranean region This book was originally published as a special issue of the Journal of North African Studies *The 1755 Lisbon Earthquake: Revisited* Luiz Mendes-Victor, Carlos Sousa Oliveira, João Azevedo, A. Ribeiro, 2008-10-14 The 1755 earthquake and tsunami were influential not only in Portugal but in all European and North African countries where the devastating effects were felt The entire world was deeply impressed and the discussion of its causes generated a large amount of scientific and metaphysical speculation It inspired philosophers poets and writers The socio economic consequences of the event were great and affected the future organization and development of Portugal The possibility of a similar occurrence urges society and the scientific community to reflect on its lessons Audience This work is of interest to experts in seismology earthquake engineering civil protection urban planning and it is a reference book for doctoral students **Fritz Meier, Nachgelassene Schriften, Band 1.**

Bemerkungen zur Mohammedverehrung, Teil 1. Die Segenssprechung über Mohammed Gudrun

Schubert, 2021-10-25 The centre of Islamic piety is the Prophet Mohammed whose perfection was eternal from pre existence and who stands completely within God's grace For the believers he occupies the most important role of intermediary between themselves and God The Prophet's intercession is accepted and through his intercession the believers hope their prayers will be heard and their wishes fulfilled Invoking blessings on Mohammed is a means for attaining the effective help of the Prophet Along with expressing thanks for the benefits mankind has received from Mohammed it constitutes a preliminary to the intercession one hopes for from the Prophet Fritz Meier in part one of his *Bemerkungen zur Mohammedverehrung* Observations on the Veneration of the Prophet has written a monograph about the tasliya which surveys the use and meaning of invoking blessings on the Prophet in the life of a Muslim **English Colonial Texts on Tangier, 1661-1684** Karim Bejjit, 2016-03-09 Recent years have seen growing academic interest in England's colonial venture in Tangier in the late seventeenth century and the crucial role it played not only in influencing contemporary domestic politics in England but also

in shaping new imperial policies in the Mediterranean This critical edition presents a remarkable collection of 18 Restoration pamphlets dealing with the English occupation of Tangier In an extensive original introduction Karim Bejjit narrates the various stages of the colonial venture in Tangier and critically analyses both the British historiography and current scholarship on the subject He provides an alternative reading of the Tangier episode emphasising the Moroccan point of view and the significance of the local political agency At the same time as the author argues in the introduction so intertwined were the affairs of the colony and the home country in 1680 that the political crisis which was then unfolding in England cannot be fully explained without acknowledging the impact of dramatic developments in Tangier Despite their generic diversity as Bejjit shows the pamphlets in this collection share a common interest in the affairs of Tangier and reflect the changing circumstances and shifting politics at home and in the colony In bringing together these long forgotten narratives this edition revives critical interest in the colonial adventure in Tangier which had considerable influence on the political scene in England Read collectively the texts offer a genuine glimpse into the colonial scene and the interplay of forces which governed English presence in Tangier

Piracy, Slavery, and Redemption Daniel J. Vitkus, 2001 At last available in a modern annotated edition these tales describe combat at sea extraordinary escapes and religious conversion but they also illustrate the power prosperity and piety of Muslims in the early modern Mediterranean

Jihad and its Interpretation in Pre-Colonial Morocco Amira K. Bennison, 2003-09-02 This book investigates the importance of waging jihad for legitimacy in pre colonial Morocco It counters colonial interpretations of the pre colonial Moroccan sultanate as hopelessly divided into territories of obedience and dissidence by suggesting that state society warfare was one aspect of a constant process of political negotiation Detailed analysis of state and society interpretations of jihad during the critical period of the French conquest of Algeria clearly shows this process at play and its steady evolution in the context of increasing European pressure which culminated in the imposition of the French protectorate in 1912

Piracy and Diplomacy in Seventeenth-century North Africa Thomas Baker, 1989-07 Consul Baker s detailed journal published here for the first time describes the exploits and operation of the Barbary corsairs the diplomatic and naval activities of the English French and Dutch in the Mediterranean and the political economic and social life of Tripoli Comprehensive introduction and appendixes
