Hanks, 2000-11 America is currently in the midst of a major racial and ethnic demographic shift By the twenty first century the population of Hispanics and Asians will increase significantly while the black population is expected to remain relatively stable Non Hispanic Whites

will decrease to just over half of the nation's population. How will the changing ethnic and racial composition of American society affect the long struggle for black political power and inclusion? To what extent will these racial and ethnic shifts affect the already tenuous nature of racial politics in American society? Using the literature on black politics as an analytical springboard, *Black and Multiracial Politics in America* brings together a broad demography of scholars from various racial and ethnic groups to assess how urban political institutions, political coalitions, group identity, media portrayal of minorities, racial consciousness, support for affirmative action, policy, political behavior, partisanship, and other crucial issues are impacted by America's multiracial landscape. Black Brooklyn: The Politics of Ethnicity, Class, and Gender is a story about the oldest, largest, most diverse Black urban community in North America. With a million people in nine communities and nearly a half million voters, it has impacted county, state, and national elections and public policy. This work analyzes Black Brooklyn along the lines of its ethnic similarities and differences, socio-economic class, gender, and intergenerational dynamics, and other internal and external influences. Using historical analysis, elite interviews, and election and demographic analysis, this work shows how these factors influence the political behaviors of African Americans and Caribbean Americans: who they vote for, candidate choice, their levels of political participation, voter turnout, and why they vote the way they do. Soon, 80 percent of the world population will reside in cities largely of color. Better understanding urban democracies, their people, politics, and governance is a key to sustainable cities of the future. This Black Brooklyn study provides a solid path to the future. Multiethnic Moments Susan Clarke, 2006-09-15 When courts lifted their school desegregation orders in the 1990s declaring that black and white students were now integrated in America s public schools it seemed that a window of opportunity would open for Latinos Asians and people of other races and ethnicities to influence school reform efforts However in most large cities the multiethnic moment passed without leading to greater responsiveness to burgeoning new constituencies Multiethnic Moments examines school systems in four major U S cities Boston Denver Los Angeles and San Francisco to uncover the factors that worked for and against ethnically representative school change More than a case study this book is a concentrated effort to come to grips with the multiethnic city as a distinctive setting It utilizes the politics of education reform to provide theoretically grounded empirical scholarship about the broader contemporary politics of race and ethnicity emphasizing the intersection of interests ideas and institutions with the differing political legacies of each of the cities under consideration
