The Oxford Handbook of Kenyan Politics Nic Cheeseman, Karuti Kanyinga, Gabrielle Lynch, 2020-02-14 Kenya is one of the most politically dynamic and influential countries in sub Saharan Africa Today it is known in equal measure as a country that has experienced great highs and tragic lows In the 1960s and 1970s Kenya was seen as a success story of development in the periphery and also led the way in terms of democratic breakthroughs in 2010 when a new constitution devolved power and placed new constraints on the president However the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines such as during the Kenya crisis of 2007-08 when over 1 000 people lost their lives and almost 700 000 were displaced The Oxford Handbook of Kenyan Politics explains these developments and many more drawing together 50 specially commissioned chapters by leading researchers The chapters they have contributed address a range of essential topics including the legacy of colonial rule ethnicity land politics devolution the constitution elections democracy foreign aid the informal economy civil society human rights the International Criminal Court the growing influence of China economic policy electoral violence and the impact of mobile phone technology In addition to covering some of the most important debates about Kenyan politics the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country

Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion secession and local insurrection as the Cold War replaced colonialism The articles gathered here illustrate how significant widespread and dramatic this violence was In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990 Was this resort to violence a consequence of imperial rule the legacy of oppressive colonial domination under a coercive and non representative state system Did essential contingencies such as the Cold War provoke and promote the use of violence Or was it a choice made by Africans themselves and their leaders a product of their own agency This book focuses on these turbulent decades exploring the principal conflicts in six key countries Kenya Uganda Sudan Ethiopia Somalia and Tanzania This book was published as a special issue of the Journal of Eastern African Studies

African Womanhood in Colonial Kenya, 1900-50 Tabitha M. Kanogo, 2005 Within a broad analysis of colonial opportunities for physical social and educational mobility Kanogo shows how African and British male authorities tried with uncertain opinions and from different perspectives to control female initiatives and how to very varying degrees women managed to achieve increasing measures of control over their own lives North America Ohio U Press Kenya EAEP Kenya Shadrack W. Nasong'o, Godwin R. Murunga, 2013-07-18 The path towards democracy in Kenya has been long and often tortuous Though it has been trumpeted as a goal for decades democratic government has never been fully realised largely as a result of the authoritarian excesses of the Kenyatta Moi and Kibaki regimes This uniquely comprehensive study of Kenya's political trajectory shows how the struggle for democracy has been waged in civil society through opposition parties and amongst traditionally marginalised groups like women and the young It also considers the remaining impediments to democratisation in the form of a powerful police force and damaging structural adjustment policies Thus the authors argue democratisation in Kenya is a laborious and non linear process Kenyans recent electoral successes the book concludes have empowered them and reinvigorated the prospects for democracy heralding a more autonomous and peaceful twenty first century Muslim Minority-State Relations Robert Mason, 2016-04-08 This volume explores the dominant types of relationships between Muslim minorities and states in different parts of the world the challenges each side faces and the cases and reasons for exemplary integration religious tolerance and freedom of expression By bringing together diverse case studies from Europe Africa and Asia this book offers insight into the nature of state engagement with Muslim communities and Muslim community responses towards the state in turn This collection offers readers the opportunity to learn more about what drives government policy on Muslim minority communities Muslim community policies and responses in turn and where common ground lies in building religious tolerance greater community cohesion and enhancing Muslim community state relations Mediations of Violence in Africa, 2010-06-01 This book analyses the violence of recent African wars from the perspectives of African people who experienced and witnessed it Central to it are the words of male Somali poets Zulu singers impoverished Kenyan youth and white South African war veterans as well as men and women trying to refashion their lives and relationships in post war Mozambique and Rwanda Purposefully interdisciplinary this volume brings together scholarly approaches ranging from cultural and medical anthropology social cultural history and cultural and performance studies *Routledge Handbook of the Horn of Africa* Jean-Nicolas Bach, 2022-03-30 The Routledge Handbook of the Horn of Africa provides a comprehensive interdisciplinary survey of contemporary research related to the Horn of Africa Situated at the junction of the Sahel Saharan strip and the Arabian Peninsula the Horn of Africa is growing in global importance due to demographic growth and the strategic importance of the Suez Canal Divided into sections on authoritarianism and resistance religion and politics migration economic integration the military and regimes and liberation the contributors provide up to date authoritative knowledge on the region in light of contemporary strategic concerns The handbook investigates how

political economic and security innovations have been implemented sometimes with violence by use of force or by negotiation including ethnic federalism in Ethiopia independence in Eritrea and South Sudan integration of the traditional authorities in the neo patrimonial administrations Somalian Islamic Courts the Sudanese Islamist regime people s movements multilateral operations and the construction of an architecture for regional peace and security Accessibly written this handbook is an essential read for scholars students and policy professionals interested in the contemporary politics in the Horn of Africa

Politicized Ethnicity Anke Weber, Wesley Hiers, Anaïd Flesken, 2016-04-29 This book offers a rigorous comparative historical analysis of Kenya Tanzania Bolivia Peru and the United States to demonstrate how colonial administrative rule access to resources nation building and language policies as well as political entrepreneurs contribute to the politicization of ethnicity

Democratic Transitions in East Africa F. Wafula Okumu, 2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond

African Leaders S. N. Colamery, Tatiana Shohov, 1999 Unknown to much of the world many of the nations of Africa are undergoing revolutions as the 20th century mercifully ends These revolutions may have far reaching consequences not only for Africa but for the rest of the world This book gathers together citations including abstracts from the journal literature books government reports and edited collections

Historical Studies and Social Change in Western Kenya William Robert Ochieng', 2002

Gender, Ethnicity, and Violence in Kenya's Transitions to Democracy Lyn Ossome, 2018-04-02 Critiquing the valorization of democracy as a means of containing violence and stabilizing political contestation this book draws links between the democratization process and sexual gendered violence observed against women during electioneering periods in Kenya The book shows the contradictory relationship between democracy and gendered violence as being largely influenced in the first instance by the capitalist interests vested in the colonial state and its imperative to exploit laboring women secondly in the nature of the postcolonial state and politics largely captured by ethnic bourgeois class interests and third influenced by neoliberal political ideology that has remained largely disarticulated from women s structural positions in Kenyan society It argues that colonial capitalist interests established certain patterns of gender exploitation that extended into the postcolonial period such that the indigenous bourgeoisie took the form of an ethnicized elite Ethnicity shaped politics and neoliberal political ideology further blocked

women's integration into politics in substantive ways. It concludes that it is not so much the norms and values of liberal democracy that assist in understanding women's exclusion but rather the structural dynamics that have shaped women's experiences of democratic politics. In this way, gender violence in the context of democratization and electoral violence with its gendered manifestation can be fully understood as deeply embedded in the history of the structural dynamics of colonialism, capitalism and patriarchy in Kenya.

Dealing with Government in South Sudan Cherry Leonardi, 2013
 Explores various aspects of chiefly authority in South Sudan from its historical origins and evolution under colonial, postcolonial and military rule to its current roles and value in the newly independent country. South Sudan became Africa's newest nation in 2011 following decades of armed conflict. Chiefs or traditional authorities became a particular focus of attention during the international relief effort and post-war reconstruction and state building. But traditional authority in South Sudan has been much misunderstood. Institutions of chiefship were created during the colonial period but originated out of a much longer process of dealing with predatory external forces. This book addresses a significant paradox in African studies: more widely if chiefs were the product of colonial states why have they survived or revived in recent decades? By examining the long-term history of chiefship in the vicinity of three towns, the book also argues for a new approach to the history of towns in South Sudan. Towns have previously been analysed as the loci of alien state power yet the book demonstrates that these government centres formed an expanding urban frontier on which people actively sought knowledge and resources of the state. Chiefs mediated relations on and across this frontier and in the process chiefship became central to constituting both the state and local communities. Cherry Leonardi is Senior Lecturer in African History at Durham University, a former course director of the Rift Valley Institute's Sudan course and a member of the council of the British Institute in Eastern Africa. Published in association with the British Institute in Eastern Africa.

Post-Colonial Kenya Rok Ajulu, 2021-07-28
 This engaging reassessment of postcolonial Kenya argues that the country's political turmoil over the last fifteen years is a continuation of repeating patterns of political contestation and conflict across Kenya's history. When Kibaki stole the 2007 presidential election leading to a spiral of violence that left over 1,000 people dead in the space of a month, many analysts wondered how this could happen in a country that had previously been considered an oasis of peace in an otherwise conflict-prone region. Combining political economy with political sociology, in this book Rok Ajulu demonstrates that in fact authoritarianism and the predatory deployment of the state has been the predominant feature of Kenya's postcolonial period. Focusing on how power has been mediated in the country politically and the characters of the elites in charge, the analysis shows the dominance of extra-economic political coercion in economic activity. In a context in which economic activity remains predominantly political, continued control of state power is so crucial for the new ruling class that it must be retained at all costs. Rok Ajulu's masterful final book is a powerful and wide-ranging contribution to studies on postcolonial Kenya and will be an important resource for researchers from across political science, economics, history, sociology and

African Studies **Ethnicity and Empire in Kenya** Myles Osborne, 2014-08-29 This work analyses the ethnicity in Kenya over the past two hundred years focusing on the Kamba ethnic group that inhabits eastern Kenya Kenya's 2013 General Election Njogu, Kimani, Wekesa, Peter Wafula, 2017-08-09 When voters enthusiastically turn up to cast their vote during general elections they expect that their action would meaningfully change their lives But in most of Africa even when elections are held on a regular basis voters are quite often disappointed by the performance of their leaders who use the new positions as an opportunity to loot public resources and consolidate power It is almost as if elections are of minimal value to the populace Notwithstanding this trend when they are free and fair general elections can be transformative They can bring into the political arena men and women of integrity committed to service and accountability Inspired by the determination to have inclusive governance and the advancement of democracy Kenya's 2013 General Election Stakes Practices and Outcomes asks important questions related to political participation coalition building politics of identity the international criminal court electoral systems and institutions and the judiciary The papers are written by mainly Kenyan academics and civil society actors who examine the drivers of the 2013 general elections and the sources of the mandate to lead This book is part of publications by Twaweza Communications on democratic practice and accountable governance in Kenya *African Political Parties* M. A. Mohamed Salih, 2003-02-20 This book interrogates the political health of African political parties and evaluates the theory and practice of party functions ideology and structure Through fresh analysis using a variety of case studies the authors question the democratic credentials of African political parties and propose new methods for achieving inclusive broad based representation Themes include the evolution and institutionalisation of African political parties the unique historical political and social circumstances that shaped their structures and functions In the governance trajectory the authors question the relationship between African political parties and government political parties and representation political parties and electoral systems and political parties and parliament Case studies include Ethiopia Ghana Kenya Botswana Namibia South Africa Tanzania Zambia Zimbabwe and many others **The Shadow of Kenyan Democracy** Dominic Burbidge, 2016-03-09 Why has democracy failed to reduce corruption in Kenya Framing the challenge in game theoretical terms Dominic Burbidge examines how mutual expectations between citizens dictate the success or failure of political reforms Since 1992 Kenya has conducted multiparty elections with the hope of promoting accountability and transparency in government This is being undermined by ongoing corruption and an increasingly centralised state response to terrorism Providing a nuanced assessment of democracy's difficult road in Kenya Burbidge discusses the independent role being played by widespread social expectations of corruption Through tracking average views of the average person it is possible to identify a threshold beyond which society suffers mutually reinforcing negative social expectations This trend is the shadow of Kenyan democracy and must be treated as a policy challenge on its own terms before institutional reforms will be successful
