Civic Integration and Modern Citizenship Jeanine Klaver, A. W. M. Odé, 2009 In this study the experience in the Netherlands with civic integration policies will be explained in a detailed and systematic way As it stands the Netherlands presently has one of the most encompassing and coercive civic integration policies which is characterised by overseas civic integration testing a general obligation to pass a civic integration exam for all foreign nationals and the existence of an elaborate sanctioning regime Our main purpose is to understand the legitimacy of civic integration in this country particularly through analysing its main implications and effects from a broader perspective This perspective consists of an historical context a framework of modern citizenship rights and a cross border comparison of different national integration concepts The

principal issues to be addressed are the political and social arguments which lay behind the introduction of civic integration policies and the extent to which these policies fit within academic notions of modern citizenship In addition the Dutch model of civic integration will be set against alternative national integration strategies as prevailing in some other immigrant receiving countries particularly Belgium Canada and the United States Publisher's description [Transformations in Schooling](#) K. Multiculturalism and the Far Right examines a neglected aspect of the history of 20th century Canadian multiculturalism and the far right to illuminate the ideological foundations of the concept of third force. Focusing on the particular thought of ultra conservative Ukrainian Canadian Walter J Bossy during his time in Montreal 1931-1970s this book demonstrates that the idea that Canada was composed of three equally important groups emerged from a context defined by reactionary ideas on ethnic diversity and integration. Two broad questions shape this research: first, what the meaning originally attached to the idea of a third force was and what the intentions behind the conceptualization of a trichotomic Canada were; and second, whether Bossy's understanding of the third force precedes or is related in any way to postwar debates on liberal multiculturalism at the core of which was the existence of a third force. This book will be of interest to students and researchers of multiculturalism, radical right ideology and the far right and Canadian history and politics.
