Celebrations and Festivals Karen Hart,Kay Margetts,2014 **Big Book of Canadian Celebrations Gr. 4-6 ,**

Ideological, Social and Cultural Aspects of Events Omar Moufakkir,Tomas Pernecky,2014-12-10 There is an ever growing importance of events in modern society and until now existing literature on events has been dominated by the economic perspective Social and Cultural Aspects of Events addresses the social and cultural side of events and explores the role they have in fostering change and community development It examines the transformatory function of events in the context of development studies as phenomena that can promote and facilitate human development including social societal and individual change This book provides vital and timely exploration and encourages the study of more diverse themes within event management **Events and Sustainability** Andrew Smith,Judith Mair,2022-09-05 This book examines the links between events and sustainability with a particular focus on how festivals and events contribute to making places more inclusive resilient and sustainable Previous sustainability research in events often focused on reducing the negative environmental impacts with a corresponding lack of consideration of socio economic dimensions More recently research has begun to consider events in relation to a range of economic and social issues highlighting the growing importance of examining events through a critical lens This book adopts a critical and broader approach to event sustainability arguing that scholars should examine how events might contribute to sustainable development rather than merely exploring how individual events could be made more sustainable Accordingly the contributors to this edited book address how events might change attitudes and behaviours by promoting sustainable lifestyles communities and technologies Following a detailed introduction the book features 16 chapters written by scholars from across the world The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism *House of Difference* Eva Mackey,2005-06-20 Mapping the contradictions and ambiguities in the cultural politics of Canadian identity The House of Difference opens up new understandings of the operations of tolerance and Western liberalism in a supposedly post colonial era Combining an analysis of the construction of national identity in both past and present day public culture with interviews with white Canadians The House of Difference explores how ideas of racial and cultural difference are articulated in colonial and national projects and in the subjectivities of people who consider themselves mainstream or simply Canadian Canadians
