Multicultural Child Care:

Multicultural Child Care Paul Vedder, Ellen Bouwer, Trees Pels, 1996 What is the state of multicultural education in child care centres in Western European countries What should multicultural education in these centres look like These are the two key questions addressed in this book In this study the authors have analysed the state of multicultural education in child care centres in the Netherlands England Scotland Denmark Sweden Germany Belgium France and Spain The main situation considered here is the Netherlands where the recent and rapid growth of the number of child care centres together with the growing numbers of immigrant children visiting these centres have given a strong impetus to concerns about the quality of centre education from a multicultural perspective For centre staff sensitive responses towards children and parents as well as parental involvement have become essential for managing cultural diversity in a way beneficial for both migrant and indigenous families It is argued that defining and improving the quality of centre education from a multicultural perspective require discussions between staff and parents about educational goals and the means to achieve them The book gives recommendations for improving the relationship between staff and parents by way of consensus building about these aims BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Multicultural

Henry,2006-06 The training of children is a profession where we must know how to lose time in order to gain it By Jean Jacques Rousseau The purpose of this handbook is for the education of persons who have children work with children or provide services for infants through age five to understand the development of a child and enable child care providers to become more aware of conditions and behaviors that surround the child and to identify problems that require immediate attention It is the responsibility of the child s parents and care providers to address issues that create the barriers to the full and productive development of a child without abrogation of parental rights and responsibilities A child born in the United States today is born into a culturally pluralistic world It is a challenge when culturally different is often viewed as defective deprived or deviant Therefore it is incumbent upon all adults to provide the best possible environment for living learning and respecting each person regardless to individual differences Many children s games have transcended barriers of language culture and forbidding geography Their universality has been noted everywhere in the world where there is the will to help a child Education has been directed to the in school youth and adults over the years Once the child departed the mother s womb it became the sole responsibility of the mother The world has
