Multiculturalismo Cine Y Medios De Comunicacion Critica Del Pensamie:

Multiculturalismo, cine y medios de comunicación Ella Shohat, Robert Stam, 2002 En este libro el multiculturalismo y la critica del eurocentrismo son dos conceptos inseparables pues relaciona dos temas que a menudo se relegan a ambitos reservados a los especialistas por un lado los debates referentes a las politicas de identidad y raza por otro los debates sobre el discurso pos colonial y el nacionalismo en el Tercer Mundo Stam y Shohat sitúan la cultura popular en el centro mismo de estos debates posmodernos y senalan que los medios de comunicacion desempeñan un papel importantísimo a la hora de modelar las comunidades y determinar la pertenencia a un grupo Este es el primer estudio detallado de un nuevo campo de investigacion que los autores denominan estudios multiculturales de los medios de comunicacion lo cual hace que esta obra sea una lectura fundamental para los estudiosos de los medios El libro establece un modelo teorico para analizar tanto los productos de Hollywood y de los medios de comunicacion de masas los musicales los westerns las peliculas imperiales las noticias de television como productos culturales alternativos peliculas comerciales de cierto alcance critico el Tercer Cine los videos de rap los medios de comunicacion diasporicos e indigenas Los autores tambien mantienen que un replanteamiento de la ensenanza de la comunicacion puede contribuir a establecer y fortalecer paradigmas alternativos de la conciencia historica El libro abarca una gran variedad de disciplinas literatura cine antropologia cultura popular etc y situa los estudios culturales en un marco multicultural al explorar asuntos como los debates contemporaneos sobre Colon las aporias del analisis de estereotipos las contradicciones que se hallan en la hibridacion poscolonial o las actitudes del espectador Segun Stam y Shohat todas estas c

Los nuevos héroes del siglo XXI Peralta García, Lidia, 2016-01-01 *Otherness in Hispanic Culture* Teresa Fernandez Ulloa, 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some

way the reflection of sameness mismidad The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences **Debating Authenticity** Thomas Fillitz, A. Jamie Saris, 2012-12-01 The longing for authenticity on an individual or collective level connects the search for external expressions to internal orientations What is largely referred to as production of authenticity is a reformulation of cultural values and norms within the ongoing process of modernity impacted by globalization and contemporary transnational cultural flows This collection interrogates the notion of authenticity from an anthropological point of view and considers authenticity in terms of how meaning is produced in and through discourses about authenticity Incorporating case studies from four continents the topics reach from art and colonialism to exoticism primitivism film ritual and wilderness Some contributors emphasise the dichotomy between the academic use of the term and the one deployed in public spaces and political projects All however consider authenticity as something that can only be understood ethnographically and not as a simple characteristic or category used to distinguish some behaviors experiences or material things from other less authentic versions *Ideology, Politics and Demands in Spanish Language, Literature and Film* Teresa Fernandez Ulloa, 2012-03-15 This book comprises various chapters which explore a variety of topics related to the manner in which ideological and epistemological changes in the 19th 20th and 21st centuries shaped the Spanish language literature and film among other forms of expression in both Spain and Latin America and how these media served the purpose of spreading ideas and demands There are articles on ideological representations of linguistic differences and sameness linguistic changes associated with loan words and the ideas they bring in modifying our communicative landscape the role of the Catholic religion on the construction of our dictionary analysis of some political discourses ideologies and social imaginaries new visions of old literature a return to the parody in the Middle Ages to analyze its modernness and postmodern narrative discussions on contemporary Spanish poetry and Central American literature a new return to the liberation philosophy by analyzing Ellacur a s work and several studies about concepts such as capitalism patriarchy identity masculinity homosexuality globalization and the Resistance in several forms of expression *Peripheral Transmodernities* Ignacio López-Calvo, 2012-01-24 This volume is a collection of essays dealing with the critical dialogue between the cultural production of the Hispanic Latino world and that of the so called Orient or the Orient itself including the Asian and Arab worlds As we see in these essays the Europeans cultural others peripheral nations and former colonies have established an intercultural and intercontinental dialogue among themselves without feeling the need to resort to the center metropolis mediation These South to South dialogues tend not to be as asymmetric as the old dialogue between the former metropolis the hegemonic Eurocentric center and the colonies These essays about Hispanic and Latino cultural production most of them dealing with literature but some covering urban art music and film provide vivid examples of de colonizing impetus and

cultural resistance In some of them we can find peripheral subjectivities perception of other peripheral racialized and post colonial subjects and their cultures

Cultura audiovisual, periodismo y política: nuevos discursos y narrativas en la sociedad digital. Guillermo Paredes-Otero, Isaac López Redondo, 2022-07-06 El ser humano siempre ha sentido la necesidad de contar historias Ya fuera en la pared de una cueva a través de pinturas rupestres o con unas gafas de Realidad Virtual a través de un videojuego el proceso de narración siempre ha sido el mismo un emisor que narra un mensaje y un receptor que lo descodifica y lo recibe Lo único que ha cambiado es el canal por el que se difunde el mensaje Ni siquiera lo ha hecho la intencionalidad del emisor la cual es fundamental y no siempre queda evidente para el receptor o tiene unos intereses ocultos que no quedan claros a simple vista

Los derechos humanos en el cine Benjamín Rivaya, 2024-04-10 Desde su origen el cine ha sido un medio para transmitir importantes cuestiones de la humanidad desde los asuntos más cotidianos hasta los temas sociales más complejos La presente obra tiene la intención de demostrar cómo el tema de los derechos humanos ha estado presente en el mundo de la gran pantalla Sus objetivos son en primer lugar analizar la presencia de los derechos humanos en la narración cinematográfica haciendo inevitablemente una reflexión tanto sobre el cine como sobre los derechos humanos y la manera en la que ambos se relacionan El segundo objetivo es más bien pedagógico pues busca enseñar al lector a ver cine en el sentido de hacerlo consciente de los elementos ideológicos que se encuentran insertos en el discurso fílmico sobre los cuales muchas veces no somos conscientes El tercer objetivo vinculado con el

anterior es la reivindicación del uso del cine en la enseñanza siendo imprescindible que en un mundo audiovisual como el nuestro se eduque con y sobre el cine. Una obra que despertar una mirada distinta sobre el más próximo arte tanto en el lector curioso como en el lector jurista o cinéfilo. *Temas actuales en derecho y ciencia política* Vladimir Monsalve Caballero, 2011. La organización social, las identidades, las diásporas, de género, las políticas públicas y sus paradigmas desde la desobediencia civil, la justicia comunitaria y las diversas formas de interpretación y de resistencia pacífica que se legitiman en una sociedad son algunos de los temas que aborda este texto que reúne avances de investigaciones desarrolladas por el Grupo de Investigación en Derecho y Ciencia Política GIDECIP de la Universidad del Norte durante el periodo 2009-2010.

Documental del disenso Diana Kuéllar, 2024-03-04. Este libro propone la existencia de un cine documental que busca la emancipación mediante la desarticulación de la narración histórica predominante. El documental del disenso plantea un cambio de paradigma a través de un giro subjetivo y conceptual creando espacios de resistencia en las grietas que subyacen entre los relatos del poder y la oposición. Este cine se desenvuelve en los marcos del establecimiento y se inventa a sí mismo apoderándose de los acuerdos consensuados para luego transmutarlos en argumentos de disuasión. Este trabajo se enmarca en la intrincada espiral de violencia que ha caracterizado la historia de Colombia donde las principales voces que se han enfrenado en la construcción de los consensos de reflexión y memoria han sido siempre la de los medios de comunicación encargados de difundir y respaldar las versiones acordadas por el poder y la de las narrativas de la oposición entre las que encontramos documentales canónicos que visibilizan las historias de los más afectados por la violencia. En ese sentido a través del análisis de tres películas colombianas se revela un posible tercer camino: provocar el desorden como una forma de proponer un nuevo orden. De eso trata este libro. *El documental de arte en España* José Javier Aliaga Cárceles, Joaquín Cánovas Belchi, 2023-01-23. Durante las primeras décadas del siglo XX el arte, las ciudades y los monumentos más emblemáticos de la geografía española comenzaron a recibir una especial atención por parte de la cinematografía que contribuyó a su difusión, promoción y conocimiento entre la sociedad del momento. La evolución natural de este fenómeno culminó con la gestación de un género cinematográfico con personalidad: el documental de arte. Coincidiendo con la edad de oro del mismo a nivel internacional en los años del franquismo el cine español se sumó con sus aportaciones a proponer nuevas vías de tratamiento, análisis e interpretación del arte. Desde entonces y hasta la actualidad el documental de arte en nuestro país ha conocido nuevos escenarios mediatizados para su desarrollo más allá del ámbito cinematográfico en los que la televisión y los museos han sido determinantes incluso en la propia transformación de este género audiovisual. El propósito del que parte esta obra por tanto es el de proporcionar al lector una mirada polidráulica en torno al documental de arte español no sólo desde el punto de vista histórico sino también a través del estudio de obras concretas o de la filmografía de importantes documentalistas que han cultivado el género a partir de aproximaciones y metodologías muy diversas que abarcan desde los contextos de producción hasta sus modos de representación, sus fronteras discursivas con otros registros audiovisuales como el film ensayo o el
