Multilevel Networks in European Foreign Policy Elke Krahmann, 2017 This title was first published in 2003 Combining a critique of existing multilevel approaches with the development of a new theory and a broad range of case studies the author of this text aims to provide new insights into contemporary foreign policy decision making which should be of particular interest to students and scholars of European foreign and security policy and international relations theory Provided by publisher *The SAGE Handbook of European Foreign Policy* Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30

During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union's international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy The volumes are composed of original chapters written specifically to the following themes Research traditions and historical experience Theoretical perspectives EU actors State actors Societal actors The politics of European foreign policy Bilateral relations Relations with multilateral institutions Individual policies Transnational challenges The Handbook will be an essential reference for both advanced students and scholars **Contemporary European Foreign Policy** Walter

Carlsnaes, Helene Sjørnsen, Brian White, 2004-05-24 Bogen behandler europas udenrigspolitik i bred forstand og kommer ind på forsvarspolitik diplomati menneskerettigheder og sikkerhedspolitik *The European Union's Engagement with Transnational Policy Networks* Stephen Kingah, Vivien Ann Schmidt, Wang Yong, 2018-02-05 This book is the first of its kind to paint a comprehensive picture of the manner in which the European Union the EU interacts with transnational policy networks TPNs The TPNs covered are those in a variety of fields including conflict prone natural resources health energy security migration human trafficking combating of terrorism financing and climate change The chapters are developed around six main lines of inquiry The lines of inquiry articulated are modalities through which the EU influences TPNs around

the world TPNs influence of policy and decision making within the EU conditions under which engagement between the TPNs and the EU may be regarded as successful the identity and location of the TPNs and finally the added value or futility of a strategy developed in Brussels to weaken or fortify interactions with the networks studied The importance of TPNs should be approached from the angle of the heightened attention now placed on informal modes of decision making Increasingly there is a sense that many international decisions are adopted and internalized through networks that can be efficient yet wanting in transparency The book unveils complex debates on the inter phase between inter governmental supranational entities like the EU on the one hand and networks on the other The physiognomy of this inter phase matters not only for the EU but also for other such inter governmental supranational bodies as well as networks This book was previously published as a special issue of Contemporary Politics

The EU's Common Foreign and Security Policy Helene Sjursen, 2013-09-13 This book reorients the study of European foreign and security policy towards the question of democracy Blending insights from international relations and democratic theory it aims to enhance our understanding of the issues at stake The main structures the institutional setting and the procedures that govern decision making in this domain are examined In this way the book supplements studies with a more traditional focus on the substance of foreign policy What are the democratic challenges in this distinct field of policy making The Common Foreign and Security Policy CFSP of the European Union EU is usually assumed to be intergovernmental Contributors to this book examine the extent to which a move beyond intergovernmentalism has taken place how this manifests itself and what may be the democratic implications While the EU's international outlook testifies to a quest for democracy the institutions and procedures that govern decision making are found wanting This book was originally published as a special issue of Journal of European Public Policy

International Networks, Advocacy and EU Energy Policy-Making Alexandra-Maria Bocse, 2020-10-16 This book explores the role which policy networks and particularly advocacy coalitions play in EU energy policy and the factors that account for their policy success It captures the often neglected interaction between public and private actors in EU energy security policy and between opposing advocacy coalitions The volume's case studies examine coalitions working on two issues central to EU energy policy debates over the last decade fracking for shale gas and developing the Southern Gas Corridor a pipeline system linking Europe with the gas region of the Caspian Sea Although the coalitions studied are focused on impacting EU energy policy they stretch beyond the EU borders The book draws on original rich and intriguing data around 90 interviews with energy stakeholders and over six months of fieldwork and participant observation analysed through an innovative combination of frame analysis and social network analysis

The European External Action Service and National Foreign Ministries Rosa Balfour, Caterina Carta, Kristi Raik, 2016-02-11 Based on extensive empirical work by a cross European group of researchers this book assesses the impact of the creation of the European External Action Service EEAS on the national foreign policy making processes and institutions of the EU member states As such the contributions cover both the

involvement of the national diplomatic and foreign policy actors in shaping the outlook of the EEAS and its mission as well as the changes or not it has produced for those actors of the member states The analysis draws in theoretical frameworks from Europeanization and socialization but also from intergovernmental frameworks of policy making within the European Union An introduction by the editors outlines the issues and trends examined in the book and establishes the theoretical and methodological framework Split into 2 sections Part I EEAS and national diplomacies as part of global and European structures has contributions by Richard Whitman Rosa Balfour Christian Lequesne Caterina Carta and Simon Duke Part II National diplomacies shaping and being shaped by the EEAS is covered by Daniel Fiott Fabien Terpan Cornelius Adebahr Andrea Frontini Ignacio Molina and Alicia Sorroza Laura C Ferreira Pereira Alena Vysotskaya G Vieira and Louise van Schaik Grzegorz Gromadzki Mark Rhinard Jakob Lewander and Sara Norrevik Sabina Kajnc Lange Ruby Gropas and George Tzogopoulos Vit Bene and Kristi Raik This book is much needed especially in an era when the EU is trying to pull its weight in the international sphere e g Syria Iran the Arab Spring Chinese relations and emerging powers but also at a time when the EU is trying to recalibrate its institutional structure in light of the current financial predicaments and questions on the democratic legitimacy of the European project

European Foreign and Security Policy towards China Claude Zanzi, 2022-11-08 This book explores the foreign and security policies of Germany France and the UK vis vis China Despite the progress made by the Lisbon Treaty and notwithstanding the first EU Global Strategy the European Union does not have a strategy to address the rise of China Since this strategic deficit does not automatically reflect the level of EU member states this book argues that the vacuum at EU level provides member states with an opportunity to fill this gap By assuming that an increase in national policies on China would eventually lead to a comprehensive European strategy for China the author focuses on the three biggest European countries and looks at the rise of China to understand the development of the EU's Common Foreign and Security Policy vis vis the PRC While the CFSP depends on the contribution of EU member states their role in shaping the CFSP towards China has not been researched yet and this book fills the gap

The Foreign Policy of the European Union Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The

third edition includes new sections and boxes on strategic autonomy European arms exports the EU's external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website eufp.eu this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners *Explaining the EU's Common Security and Defence Policy* X. Kurowska, F. Breuer, 2011-11-22 An engaging assessment of the theoretical debates on the EU's Common Security and Defence Policy CSDP The contributions to this volume bring together sophisticated theoretical frameworks and extensive empirical research Pluralistic in its approach the volume emphasizes the role of conceptual diversity for better explaining the EU's CSDP
