Multinational Enterprises In Development The Mining Industry Of Sierra Leone:

Multinational Enterprises in Development Emmanuel A. Cleeve, 1997 This book is a contribution to the understanding of the political economy of developing countries with a particular emphasis on Sierra Leone The analysis takes the perspective of a developing country and examines the economic benefits or otherwise of the exploitation of its natural resources by multinational enterprises *Africa's Development in the Twenty-first Century* Kwadwo Konadu-Agyemang, Martin Kwamina Panford, 2006 Having been under colonial rule for the first half of the century by 1965 all but a handful of African countries had regained their independence and were poised to take off into an era of development However Africa now suffers from the most acute form of underdevelopment anywhere in the world Bringing together a broad selection of case studies covering a wide range of key issues this volume provides a multidisciplinary exploration of Africa's development opportunities and challenges into the twenty first century *The Post-Conflict Environment* Daniel Bertrand Monk, Jacob Mundy, 2018-03-22 A critique of the technocratic neoliberal paradigm of peacebuilding **The Economy of Ghana** Mozammel Huq, Michael Tribe, 2018-09-12 The book follows a first edition published in 1989 which focused on the severe economic crisis Ghana faced during the late 1970s and the early 1980s In this second edition the authors extend the review up to the mid 2010s covering the entire period since independence with a special focus on shifts in economic policy starting with the adoption of the Economic Recovery Programme in 1983 Huq and Tribe provide systematic coverage of Ghanaian economic development since its independence reviewing the two main modes of development that have been practiced and offer an updated rich data bank By analyzing the wider macroeconomy of Ghana its individual sectors money banking and trade infrastructure and environmental policies and Ghana's poverty welfare and income distribution the authors are able to draw vital lessons from the country's economic development *Natural Resource Extraction and Indigenous Livelihoods* Emma Gilberthorpe, Gavin Hilson, 2016-04-22 This book provides an extended analysis of how resource extraction projects stimulate social cultural and economic change in indigenous communities Through a range of case studies including open cast mining artisanal mining logging deforestation oil extraction and industrial fishing the contributors explore the challenges highlighted in global debates on sustainability Corporate Social Responsibility CSR and climate change The case studies are used to assess whether and how development processes might compete and conflict with the market objectives of multinational corporations and the organizational and moral principles of indigenous communities Emphasizing the perspectives of directly affected parties the authors identify common patterns in the way in which extraction projects are conceptualized implemented and perceived The book provides a deeper understanding of the dynamics of the human environments where resource extraction takes place and its consequent impacts on local livelihoods Its in depth case studies underscore the need for increased social accountability in the planning and development of natural resource extraction projects *New Perspectives on Welsh Industrial History* Louise Miskell, 2019-12-15 This volume tells a story of Welsh industrial history

different from the one traditionally dominated by the coal and iron communities of Victorian and Edwardian Wales Extending the chronological scope from the early eighteenth to the late twentieth century and encompassing a wider range of industries the contributors combine studies of the internal organisation of workplace and production with outward facing perspectives of Welsh industry in the context of the global economy The volume offers important new insights into the companies the employers the markets and the money behind some of the key sectors of the Welsh economy from coal to copper and from steel to manufacturing and challenges us to reconsider what we think of as constituting industry in Wales

The Political Economy of Corruption in Sierra Leone Kelfala Morana Kallon,2004 The main theme of this work is that Sierra Leone s problem of endemic corruption is due to the fact that the net benefit from corruption has been consistently positive and high through much of the post independence period and that economic analysis offers insights into the problem of corruption

Innovations in Tax Compliance Roel Dom,Anna Custers,Stephen Davenport,Wilson Prichard,2022-03-14 Recent decades have seen important progress in strengthening country tax systems Yet many areas of reform have remained stubbornly resistant to major improvements Overall revenue collection still falls short of that needed for effective governance and service delivery Tax collection is too often riddled with high rates of evasion among large corporations and the rich and by disproportionate though often hidden burdens on lower income groups As countries around the world deal with the large debt burdens induced by COVID 19 an in depth look at how to strengthen tax systems is especially timely

Innovations in Tax Compliance Building Trust Navigating Politics and Tailoring Reform takes a fresh look at tax reform The authors draw on recent research and experience for their new conceptual framework to guide more effective approaches to reform Building on the achievements of recent decades they argue for a greater emphasis on the overlapping goals of building trust navigating political resistance and tailoring reform to unique local contexts an emphasis achieved by identifying the most binding constraints on reform This focus not only can lead to greater compliance a fairer system and higher revenues but also can contribute to building state capacity sustained political support for further reforms and a stronger fiscal contract between citizens and governments

Mineral Mining in Africa Evaristus Oshionebo,2020-11-11 Africa is endowed with commercially viable quantities of several minerals and metals and more than ever before African countries wish to harness their mineral resources for their economic development The African mining sector has witnessed a revolution in terms of new

mining codes and amendments to extant mining codes which are designed to achieve a multitude of objectives including the assertion of greater control over exploitation of mineral resources optimization of resource royalties and taxes promotion of equity participation in mining projects enhancement of indigenization in the form of domestic participation in mineral production and local content requirements value addition and beneficiation in terms of domestic processing of raw mineral ores and metals in Africa and the promotion of sustainable practices in the mining sector This book analyzes the legal and fiscal frameworks for hard rock mining in several African countries including Botswana Democratic Republic of Congo Ethiopia Ghana Guinea Kenya Namibia Nigeria Liberia Tanzania Sierra Leone South Africa South Sudan Zambia and Zimbabwe with reference to other resource rich countries It engages in a comparative analysis of mining statutes in Africa with regard to topics such as the acquisition of mineral rights types of mineral rights the nature of mineral rights the rights and obligations of mineral right holders security of mineral tenure surface rights fiscal regimes including royalty and tax regimes resource nationalism in the mining sector management and utilization of mining revenues including benefit sharing arrangements between mining companies and host communities environmental stewardship and sustainable exploitation of mineral resources *Senegal Mineral, Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations* IBP USA,2013-08 *Senegal Mineral Mining Sector Investment and Business Guide Strategic and Practical Information* *Minerals Yearbook* Mines Bureau,Geological Survey,Interior Department,2018-04-19 This edition of the U S Geological Survey USGS Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance These annual reviews are designed to provide timely statistical data on mineral commodities in various countries This volume covers data from Asia and the Pacific Each report includes sections on government policies and programs environmental issues trade and production data industry structure and ownership commodity sector developments infrastructure and a summary outlook Audience Government employees and contractors as well as businesses and employees all working in mineral related trades especially with interests in statistics about mineral commodities overseas will find this resource invaluable *Minerals Yearbook* ,2010 **Sustainable development in a changing climate** Great Britain: Parliament: House of Commons: International Development Committee,2009-06-03 Sustainable development in a changing Climate Fifth report of session 2008 09 Vol 2 Oral and written Evidence **Rocks and Hard Places** Roger Moody,2007-04 The world of international mining is changing rapidly Mineral consumption is outstripping the capabilities of both communities and fragile ecosystems to cope with bigger and bigger mines This book identifies mining s key players and presents the costs for local communities and environment **China's Domestic Transformation in a Global Context** Ligang Song,Ross Garnaut,Cai Fang,Lauren Johnston,2015-07-08 The phrase New Normal captures the ongoing shift in the pattern and drivers of China s economic growth China s new growth rate is both slower and imposing difficult structural change These new economic conditions are

challenging yet offer opportunities for China and its economic partners Reforms must be deepened but also make growth more inclusive and environmentally sustainable over this decade and beyond This year s Update offers both global context and domestic insight into this challenging new phase of China s domestic economic transformation How are policymakers elevating migrant workers concurrent with increasing consumption Is China s government spending enough on education and R D to ensure it can achieve its aspirations to ascend the global manufacturing value chain and avoid the middle income trap Are energy market reforms reducing or increasing the price of gas and electricity in China What are the consequences of China s financial reforms and expanding Renminbi trading for foreign banks What does China s new growth model mean for the international resources economy and for Africa Do SOEs face market conditions and are they dominating China s fast rising outbound investment What is China s strategy for navigating fragmented international trade policy negotiations

Business America ,1983

Grid-locked African Economic Sovereignty Victor Warikandwa,Artwell

Nhemachena,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

Governance, Conflict, and Natural Resources in Africa Hany Gamil

Besada,2021-04-22 A country s abundant natural resources may serve as a curse or a blessing with the outcome often dependent on prevailing governance structures and experience managing these assets Despite natural resource advantages many African countries have failed to transform their enormous economic potential and wealth into tangible benefits such as sustainable socio economic development human security or peace Governance Conflict and Natural Resources in Africa reevaluates the role that foreign state owned and private sector actors play in resource rich states whether stable post conflict or fragile in sub Saharan Africa Through research and an analysis of in depth interviews with local stakeholders in Ghana Sierra Leone and Ethiopia Hany Besada explains how foreign state owned and private sector corporations have contributed to economic growth at both the national and local levels in different resource rich countries This book reveals the

unique challenges and opportunities created by these investors demonstrating that new policies in business practices and operations have the potential to generate sustainable development and positive economic transformation Governance Conflict and Natural Resources in Africa puts forward a novel framework for understanding the role of private economic actors in extractive industries in Africa and sheds new light on foreign private sector contributions to capacity building and economic development
