The German lacuna in Edward Said's Orientalism has produced varied studies of German cultural and academic Orientalisms.

So far the domains of German politics and scholarship have not been conflated to probe the central power knowledge nexus of Said's argument. Seeking to fill this gap, the diplomatic career and scholarly literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the Orient and charts the roles knowledge played in political decision making regarding extra-European regions. This is pursued through analyses of Germans in British imperialist contexts, cultures of lowly diplomatic encounters in Middle Eastern cities, Persian poetry in translation, prestigious Orientalist congresses in northern climes, leveraging knowledge in high stakes diplomatic encounters and the making of Germany's Islam policy up to the Great War. Politics drew on bodies of knowledge and could promote or hinder scholarship. Yet scholars never systemically followed empire in its tracks but sought their own paths to cognition. On their own terms or influenced by Oriental savants, they aligned with politics or challenged claims to conquest and rule.

Hollywood and Israel Tony Shaw, Giora Goodman, 2022-03-08 Winner 2023 Shapiro Best Book Award Association for Israel Studies. From Frank Sinatra's early pro-Zionist rallying to Steven Spielberg's present-day peacemaking, Hollywood has long enjoyed a special relationship with Israel. This book offers a groundbreaking account of this relationship both on and off the screen. Tony Shaw and Giora Goodman investigate the many ways in which Hollywood's moguls, directors, and actors have supported or challenged Israel for more than seven decades. They explore the complex story of Israel's relationship with American Jewry and illuminate how media and soft power have shaped the Arab-Israeli conflict. Shaw and Goodman draw on a vast range of archival sources to demonstrate how show business has played a pivotal role in crafting the U.S.-Israel alliance. They probe the influence of Israeli diplomacy on Hollywood's output and lobbying activities but also highlight the limits of ideological devotion in high-risk entertainment industries. The book details the political involvement with Israel and Palestine of household names such as Eddie Cantor, Kirk Douglas, Elizabeth Taylor, Barbra Streisand, Vanessa Redgrave, Arnold Schwarzenegger, Robert De Niro, and Natalie Portman. It also spotlights the role of key behind-the-scenes players like Dore Schary, Arthur Krim, Arnon Milchan, and Haim Saban. Bringing the story up to the moment, Shaw and Goodman contend that the Hollywood-Israel relationship might now be at a turning point. Shedding new light on the political power that images and celebrity can wield, *Hollywood and Israel* shows the world's entertainment capital to be an important player in international affairs.

A History of the Middle East Saul S. Friedman, 2014-01-10 As the birthplace of three principal religions, the Middle East is holy to 15 million Jews, 2 billion Christians, and 1 billion Muslims. As the cradle of western civilization, it is fundamental to world history, the place where humans transformed themselves from nomadic hunters to settled farmers capable of building great cities and societies. This detailed history covers the Middle East from its ancient beginnings to the present. The confluence of events that produced civilized society is fully discussed along with the establishment of Judaism, Christianity,

and Islam The emergence and decline of the Byzantine and Ottoman empires which laid much of the framework for the region to move into the modern era is covered in depth Analysis of the area in recent decades focuses on World War I and II and the regional conflicts that inflame the Middle East of the 21st century Instructors considering this book for use in a course may request an examination copy here **Reflections on Knowledge and Language in Middle Eastern**

Societies Yonatan Mendel, Bruno De Nicola, Husain Qutbuddin, 2010-08-11 This book presents a collection of articles that put forward original research and significant insight regarding several key issues related to knowledge and language in Middle Eastern societies The aspects studied include the role of knowledge and language in affirming and negating political agendas and self identities within areas of conflict and tension ideas regarding the usefulness and interaction of religious and secular knowledge and the attributes that render knowledge and language especially that which is believed to be of divine origin outstanding and worthy of admiration The selection of studies has been purposefully diverse to include a variety of languages including Arabic Turkish Hebrew and Persian within multiple traditions including Hellenism Judaism Christianity and Islam while focussing on a range of periods from the classical to the mediaeval to the modern and examining a range of issues such as methods of analysing and interpreting Persian Turkish and Arabic literature literary and other attributes of the Bible and the Qur'an diglossic languages the Turkish modernisation project Turkish Kurdish tensions Andalusian music Azerbaijani politics and the Israeli Palestinian conflict By underlining the substantial commonalities that exist between such seemingly different fields of research the book highlights the idea increasingly on the wane in departments of Middle Eastern Studies across many universities that a shared area of study viz the Middle East naturally and inherently entails a shared cultural historical and sociological milieu It suggests that academics who engage in different branches of research related to this area should rather than focussing singly on their own field avail substantially and meaningfully of one another's scholarship learn from each other's methodologies and collectively build upon a body of knowledge that should never be seen as dissociated
