Murder At Republic:

The Republic ,1875 **Republic** ,1874 The Deaths of the Republic Brian Walters,2020-02-20 That the Roman republic died is a commonplace often repeated In extant literature the notion is first given form in the works of the orator Cicero 106 43 BCE and his contemporaries though the scattered fragments of orators and historians from the earlier republic suggest that the idea was hardly new In speeches letters philosophical tracts poems and histories Cicero and his peers obsessed over the illnesses disfigurements and deaths that were imagined to have beset their body politic portraying rivals as horrific diseases or accusing opponents of butchering and even murdering the state Body political imagery had long enjoyed popularity among Greek authors but these earlier images appear muted in comparison and it is only in the republic that the body first becomes fully articulated as a means for imagining the political community In the works of republican authors is found a state endowed with nervi blood breath limbs and organs a body beaten wounded disfigured and infected one with scars hopes desires and fears that can die be killed or kill in turn Such images have often been discussed in isolation yet this is the first book to offer a sustained examination of republican imagery of the body politic with particular emphasis on the use of bodily political images as tools of persuasion and the impact they exerted on the politics of Rome in the first century BCE **The Munster Republic** Michael Harrington,2009 This book follows the action that took place in the Munster Republic during the Irish War of Independence **The Weimar Republic** Eberhard Kolb,2005 The Weimar Republic provides both a clear historical narrative of this critical period in German history and a detailed analysis of the scholarly research in the field **Ghana Gazette** Ghana,1976 The Early Republic and Antebellum America Christopher G. Bates,2015-04-08 First Published in 2015 Routledge is an imprint of Taylor Francis an Informa company **Revolution, Counterrevolution and Assassination Through World War II** Robert C. Cottrell,2024-12-06 Since the French Revolution the quest for revolutionary transformation and the fear of such change became deeply ingrained in the global landscape through World War II Modern revolutions inspired counterrevolutions that strove to turn back time to an allegedly purer finer more moral period than the upheaval and anarchy linked to a revolutionary epoch Revolutions often occurred through violence and entailed a disruption of existing social economic and political orders Counterrevolutions were equally guilty and frequently more so of horrific bloodletting in the name of restoring law and order often by shredding legal and ethical norms Drawing from a vast array of sources both primary and secondary this first of a two volume set presents a highly detailed narrative of an unholy trinity revolution counterrevolution and assassination Combining intellectual political social and cultural history this book highlights international protagonists movements and ideas supporting the radical or reactionary upheaval of society and the means that have been used to do so *Imagining the American Death Penalty* Birte Christ,2025-04-29 Imagining the American Death Penalty traces the US American cultural imaginary of capital punishment through popular visual representations from the 1890s to the twenty first century The book focuses on three generic and

historical clusters of representations early film from the 1890s through *Intolerance* 1916 crime film noir of the 1950s and 1960s and legal TV series from the 1990s through the early 2000s The book makes two central arguments First it demonstrates that an increased concern with the death penalty in popular media does not mean that these texts promote an abolitionist agenda their cultural work is ambiguous at best This ambiguity is always contingent upon both the affordances of the particular genre and medium in question and on political legal discursive context The book explores both in detail Early film is enchanted with its own representational possibilities due to the progress of technology and in analogy with the progress in execution technique specifically the electric chair In film noir genre conventions and the legal back and forth before and after Furman predicate ambiguity In legal TV series the genre's ensemble casts and its focus on conversational exchange invite open debate The second argument is that popular visual representations consistently whitewash the death penalty The book demonstrates that this is the case because the most common narrative around executions in film and TV is to cast the condemned man as a hero who defies the violence of the state gains dignity by accepting his fate and faults and in some ways triumphs over death The American imaginary until very recently did or could not imagine Black men to possess that measure of agency that it attributed to its white heroes

On the Alternative Punishment to the Death Penalty in China Gui Huang, 2024-04-17 This book presents a study of alternative penalties to the death penalty in China aiming to promote theoretical exploration of death penalty reform in China as well as long term penal reform Currently China is endeavouring to control the use of the death penalty and is gradually moving towards its abolition The factors influencing the choice of the punishment option to replace the death penalty are complex and varied and include the traditional punishment culture penalty concepts the political system the punishment system public opinion and human rights etc Given the differences between China and developed Western democratic states when we examine these influencing factors we cannot ignore the culture of the punishment and the special political and legislation system in China In this light this work examined and analysed the factors that influence the choice of punishment option to replace the death penalty in this special political system with its clearly Chinese characteristics Criminal policy and public opinion are two significant and typical factors involving obvious political considerations in China The former normally reflects and carries out the will of the Government as expressed to the national management the latter responds to the majority of citizens view on the current legal system and it is to a great extent the basis for national leadership's running of the country Even though life imprisonment without release hereinafter LWOR has been stipulated by the Ninth Amendment for the crime of corruption it should not be the preferable option as the alternative sanction to the death penalty because it is a kind of cruel torture and violates the constitutional principle of human rights protection On the contrary life imprisonment with possibility of release hereinafter LWPR would be an option but the termination mechanisms for inmates should be set out in accordance with the principle of proportional justice aggravated life imprisonment can be chosen to replace the death penalty in China In addition there needs to be

improvements made to the relevant criminal systems By examining China's death penalty reform and long term imprisonment reform this book not only explains the methodology of the reform theoretically but also pays attention to the issues of legislation and judicial practice This book is of interest to scholars and researchers in the fields of criminal justice penal reform issues and crime control in China Inter-American Yearbook on Human Rights / Anuario Interamericano de Derechos Humanos, Volume 18 (2002) Inter-American Commission on Human Rights, 2002-11-28 The print edition is available as a set of two volumes 9789004156173 *The Death Penalty* Council of Europe, 2004-01-01 Europe is today the only region in the world where the death penalty has been almost completely abolished In the Council of Europe's 45 member states including the European Union's 15 member states and its 13 candidate countries capital punishment is no longer applied The Council of Europe believes that the death penalty has no place in democratic societies under any circumstances This book reviews the long and sometimes tortuous path to abolition in Europe It also addresses the tangible problems which countries face once the death penalty has been abolished and related issues the situation of murder victims families and alternatives to capital punishment particularly the choice of a substitute sentence It also discusses abolition campaigns in Russia the United States and Japan *How Could This Happen* Dan McMillan, 2014-04-08 The Holocaust has long seemed incomprehensible a monumental crime that beggars our powers of description and explanation Historians have probed the many sources of this tragedy but no account has united the various causes into an overarching synthesis that answers the vital question How was such a nightmare possible in the heart of western civilization In *How Could This Happen* historian Dan McMillan distills the vast body of Holocaust research into a cogent explanation and comprehensive analysis of the genocide's many causes revealing how a once progressive society like Germany could have carried out this crime The Holocaust he explains was caused not by one but by a combination of factors from Germany's failure to become a democracy until 1918 to the widespread acceptance of anti-Semitism and scientific racism to the effects of World War I which intensified political divisions within the country and drastically lowered the value of human life in the minds of an entire generation Masterfully synthesizing the myriad causes that led Germany to disaster McMillan shows why thousands of Germans carried out the genocide while millions watched with cold indifference as it enveloped their homeland Persuasive and compelling *How Could This Happen* explains how a perfect storm of bleak circumstances malevolent ideas and damaged personalities unleashed history's most terrifying atrocity A Social and Cultural History of Republican Rome Eric M. Orlin, 2021-11-08 Provides students with a balanced understanding of the key aspects of the culture and society of the Roman Republic *A Social and Cultural History of Republican Rome* is the first undergraduate textbook of its kind to concentrate on the ways Roman societal structures family dynamics visual arts law religion and other cultural and intellectual developments contributed to Roman identity between 509 BCE and 14 CE Drawing from a diverse range of archaeological epigraphic and literary sources author Eric M Orlin provides insight into the socio cultural and intellectual issues that shaped both the

The Global Decline of the Mandatory Death Penalty

Andrew Novak, 2016-03-16 Historically at English common law the death penalty was mandatory for the crime of murder and other violent felonies Over the last three decades however many former British colonies have reformed their capital punishment regimes to permit judicial sentencing discretion including consideration of mitigating factors Applying a comparative analysis to the law of capital punishment Novak examines the constitutional jurisprudence and resulting legislative reform in the Caribbean Sub Saharan Africa and South and Southeast Asia focusing on the rapid retreat of the mandatory death penalty in the Commonwealth over the last thirty years The coordinated mandatory death penalty challenges which have had the consequence of greatly reducing the world s death row population represent a case study of how a small group of lawyers can sponsor human rights litigation that incorporates international human rights law into domestic constitutional jurisprudence ultimately harmonizing criminal justice regimes across borders This book is essential reading for anyone interested in the study and development of human rights and capital punishment as well as those exploring the contours of comparative criminal justice
