Murder In Oil:

Murder by Poison Nicola Sly, 2011-10-30 Murder by poison is often thought of as a crime mainly committed by women usually to despatch an unwanted spouse or children While there are indeed many infamous female poisoners such as Mary Ann Cotton who is believed to have claimed at least twenty victims between 1860 and 1872 and Mary Wilson who killed her husbands and lovers in the 1950s for the proceeds of their insurance policies there are also many men who chose poison as their preferred means to a deadly end Dr Thomas Neil Cream poisoned five people between 1881 and 1892 and was connected with several earlier suspicious deaths while Staffordshire doctor William Palmer murdered at least ten victims between 1842 and 1856 Readily obtainable and almost undetectable prior to advances in forensic science during the twentieth century poison was considered the ideal method of murder and many of its exponents failed to stop at just one victim Along with the most notorious cases of murder by poison in the country this book also features many of the cases that did not make national headlines examining not only the methods and motives but also the real stories of the perpetrators and their victims Murder in oil Joseph Avrach, 1948 **The Prophecy of Death (Last Templar Mysteries 25)** Michael Jecks, 2014-02-27 An ancient prophecy An urgent message A deadly plot In the twenty fifth instalment of Michael Jecks Knights Templar mysteries Sir Baldwin de Furnshill and Simon Puttock find themselves surrounded by more court intrigue and danger Perfect for fans of C J Sansom and Bernard Cornwell A page turning masterpiece that will keep the reader totally gripped until the very last page Historical Novels Review It s 1325 and in England turmoil is rife But could the Prophecy of St Thomas s Holy Oil be the key to saving the ill fated reign of King Edward II It is believed the one anointed with it will be a lion among men he will conquer France unite Christendom and throw the heathens from the Holy Land Meanwhile Sir Baldwin de Furnshill Keeper of the King s Peace and his friend Simon Puttock return from France with urgent messages for the King himself Soon they find themselves at the centre of a deadly court intrigue involving the most powerful and ruthless men in the country who will stop at nothing not least murder to achieve their ambitions What readers are saying about The Prophecy of Death Apart from the immense amount of history I have learned along the way one gets very affectionate about the main characters almost like family Michael Jecks is one of the best medieval writers of our times His two main characters come alive in the imagination when you re reading them Michael Jecks has done it again A wonderful book *The Non-designer's Design Book* Robin Williams, 2015 This guide provides a simple step by step process to better design Techniques promise immediate results that forever change a reader s design eye It contains dozens of examples **Murder Wears a Cowl (Hugh Corbett Mysteries, Book 6)** Paul Doherty, 2012-10-30 Hugh Corbett is on the trail of a deadly killer in the fetid streets of medieval London Paul Doherty writes an unputdownable mystery in Murder Wears a Cowl the sixth novel to feature medieval sleuth Hugh Corbett Perfect for fans of Susanna Gregory and Michael Jecks In early 1302 a violent serial killer lurks in the city of London slitting the throats of prostitutes And when Lady Somerville one of the Sisters of St

Martha is murdered in the same barbaric fashion her death is closely followed by that of Father Benedict in suspicious circumstances Edward of England turns to his trusted master clerk Hugh Corbett to reveal the identity of the bloodthirsty assassin Joining Corbett on his mission are his devious manservant Ranulf and his faithful horseman Maltote In the dark fetid streets of the city and in the desolate abbey grounds they encounter danger and deceit at every turn Only Ragwort the mad beggar has seen the killer strike and the one clue that Corbett has to help him is Lady Somerville s cryptic message *Calcullus non facit monachum* the cowl does not make the monk What readers are saying about *Murder Wears a Cowl* Doherty s books are an absolute delight The pages just seem to race by and the sights and sounds of medieval England leap out of the pages *Murder Wears a Cowl* makes medieval London appear vivid and alive while meanwhile enthralling you with a gripping mystery The twists and turns of the plot are well thought out and the identity of the killer comes as a complete surprise

Energy Resource Conflict Adrah N. Parafiniuk,Zachary A. Smith,2025-01-23 Delve into the history of energy resource conflicts their present status and the potential effects of today s energy production decisions on the future of humanity This book examines international and sometimes intranational conflicts over energy resources including ancient empires 20th century wars over oil and the explosive growth of renewable energy The volume begins with a series of chapters tracing the evolution and future implications of energy production and clashes over these vital resources Next readers will discover a collection of essays addressing fascinating yet sometimes contentious facets of the subject including the current limits of renewable energy sources and the role nuclear power should play A collection of 50 encyclopedic entries round out the book providing readers with concise explanations of key concepts and terms Energy resource conflicts have shaped the world we live in After humans settled across the planet growing empires began to compete for resources First they competed for wood then steel and coal The ability to mine these resources and turn them into trains ships and weapons decided which countries would dominate the world Oil became the most important international resource by the turn of the 20th century and has remained so until the present day But as the authors argue humans have the technology to transition from fossil fuels to renewable energy for the vast majority of their energy needs despite corporate fossil fuel interests Using advanced statistics on the use and growth of all major energy sources this book is an excellent source of information on the predicted growth of various forms of energy as well as the inevitable yet not necessarily peaceful transition toward renewable and carbon free energy sources
