Lane,2002 The United States is vitally dependent upon the use of the radio spectrum to carry out national policies and achieve national goals Use of the spectrum is vital to the security and welfare of the Nation and to the conduct of its foreign affairs This use exerts a powerful influence upon our everyday lives in countless ways annually contributing significantly to the Nation s growth and economy The radio spectrum is a limited natural resource which is accessible to all nations It is imperative that we develop and administer our use of this resource wisely so as to maintain a free democratic society and to stimulate the healthy growth of the Nation while ensuring its availability to serve future requirements in the best interest of the Nation Therefore consistent with our international treaty obligations and with due regard for the rights of other nations the national objectives for the use of the radio spectrum are to make effective efficient and prudent use of the spectrum in the best interest of the Nation with care to conserve it for uses where other means of communication are not available or feasible This revised NIA report details the policies and plans geared towards government oversight of the national radio spectrum an asset we cannot afford to overlook     **The mystery of the Cache Creek Murders** Roberta Sheldon,2001-09-15 In 1939 four brutal murders occurred at three separate locations on a single day in Cache Creek country a remote Alaska gold mining region near Talkeetna Two of the victims Dick Francis and Frank Jenkins had mined there for almost three decades but disputes over mining claims in the 1930s launched the two men into protracted court battles and an arena of antagonism By 1938 when Francis claims were auctioned to satisfy courtordered damages awarded to Jenkins everyone in the scattered but close knit mining community of Cache Creek country was aware of the bitter feud At the end of the 1939 mining season Jenkins and one of his young employees were bludgeoned to death in Wonder Gulch three miles away Helen Jenkins was murdered near the Jenkinses cabin along Little Willow Creek and in his Ruby Creek cabin Francis was found shot in the head with a revolver in his hand an apparent suicide He was thought to have first vengefully murdered the others But an autopsy revealed that Dick Francis had been shot twice in the head The shocked and outraged mining community began to suspect that the Jenkins Francis feud had been ruthlessly exploited for caches of gold long rumored to be hidden on the Jenkinses property The case assumed sensational proportions in Alaska and because law enforcement was minimal in this remote region angry Alaskans clamored for a full blown investigation by the FBI More than sixty years later the evidence never made public before whispers that justice may not have been served     Once Again Paul William Darby,2000-07-20 Serving aboard the U S S ELDORADO in San diego shortly before the Gulf War Petty Officer Cheevers becomes involved in a shipboard scandal that ruins his career He s been blamed

for enticing his shipmate Seaman John Trout into hanging himself in the ship's brig Only Cheevers knows the real story that Seaman Trout experienced a past life vision of himself dying in a battle nearly two hundred years previously Although Cheevers explains these details to the ship's captain in an investigation still resulting in a demotion and his dismissal from the ship in disgrace he withholds the key information that has shattered his perception of reality Seaman Trout predicted Cheevers will die too in a trap set by fate that is impossible to escape Cheevers learns that his life hangs in the balance of being able to circumvent destiny by proving his shipmate's prophesy wrong and surviving the conflict that erupts in the Persian Gulf initiated by Saddam Hussein
