Summer of 2020 Andre E. Johnson,Amanda Nell Edgar,2024-03-11 In the wake of George Floyd s murder in May 2020 protests broke out in Minneapolis and quickly spread across the United States National unrest led to the resurgence of the Black Lives Matter movement and added to calls for justice in other American cities including Los Angeles Atlanta Tulsa and Louisville Kentucky where only months earlier Breonna Taylor was killed by police By some estimates BLM protesters numbered between fifteen million and twenty six million in the US and abroad The Summer of 2020 George Floyd and the Resurgence of the Black Lives Matter Movement spotlights the perspectives of individual participants who contributed to the

movement's revived impact and global success throughout 2020 Authors Andre E Johnson and Amanda Nell Edgar interview the movement's activists from seasoned organizers to first time protesters to discover what Black Lives Matter meant to those who participated in one of America's largest social movements Johnson and Edgar's fieldwork reveals the complexity of taking a stand especially in the face of increasing threats from white supremacist groups continuing police aggression and a persisting global pandemic In a time with unprecedented levels of political polarization the wave of support for the Black Lives Matter movement powerfully disrupted that expectation Without a clear sense of what led to the surge in support for Black Lives Matter racial justice advocates are left ill equipped to maintain and harness the political momentum necessary to achieve lasting equity and justice In delving beyond a conventional focus on leaders and figureheads this volume bolsters social movement research by accounting for the increasing numbers of Black Lives Matter supporters and demonstrators and the lasting power of their message

Treason of the Heart David Pryce-Jones, 2011 Treason of the Heart is an account of British people who took up foreign causes Not mercenaries then but ideologues Almost all were what today we would call radicals or activists who thought they knew better than whichever

bunch of backward or oppressed people it was that they had come to save Usually they were applying to others what they saw as the benefits of their culture and so obviously meritorious was their culture that they were prepared to be violent in imposing it Some genuinely hated their own country however and saw themselves promoting abroad the values their own retrograde government was blocking The book deals with those like Thomas Paine who saw American independence as the surest means to hurt England the many who hoped to spread the French revolution and then have Napoleon conquer England historic characters like Lord Byron and Lawrence of Arabia who fought for the causes that brought them glory finally those who took up Communism or Nazism Treason of the Heart is nothing less than the tale of intellectuals deluded about the effect of what they are doing and therefore with immediate reference to today's world **A Hive of Homicides**
