The Mother in Psychoanalysis and Beyond Rosalind Mayo, Christina Moutsou, 2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society The Mother in Psychoanalysis and Beyond explores our relationship to the maternal through psychoanalysis philosophy art and political and gender studies Over two years a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal In the discussions that followed a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences here were met the great silences of love loss longing memories desire hatred and ambivalence This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother the fears and anxiety of merging with the mother and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied and silenced There are two main themes running throughout the book Matricide and Maternal Subjectivity On the theme of matricide several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the maternal is intimately connected with human subjectivity The Mother in Psychoanalysis and Beyond provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity

Criminal Abortion Laws Before the Fourteenth Amendment Daniel Gump,2021-09-24 This resource guide follows a 1300 year timeline on the evolution of criminality for inducing or procuring abortions beginning with predecessors to English common law and following to modern interpretations of constitutional law The primary focus lies between 1787 and 1868 spanning ratification of the US Constitution to ratification of its Fourteenth Amendment during which rapid advancements in embryology and medicine led to a paradigm shift on sentiment concerning the unborn among numerous nations of the world Because of this shift legislatures in many states and territories saw it necessary to replace deficiencies in outdated common law with new statutes that would clearly define parameters of the crimes and appropriate sentencing The book s historical timeline heavily relies upon primary sources citing state by state surveys of every criminal abortion statute plus numerous medical journals embryology textbooks court cases legislative journals committee reports memoirs and lectures by high profile individuals All quotations are hyperlinked to Internet archives and repositories to view the full context The majority of pages also include high resolution image scans of original documents inline with the text describing them

Southern Horrors Crystal N. Feimster,2009-11-23 Between 1880 and 1930 close to 200 women were murdered by lynch mobs in the American South Many more were tarred and feathered burned whipped or raped In this brutal world of white supremacist politics and patriarchy a world violently divided by race gender and class black and white women defended themselves and challenged the male power brokers Crystal Feimster breaks new ground in her story of the racial politics of the postbellum South by focusing on the volatile issue of sexual violence Pairing the lives of two Southern women Ida B Wells who fearlessly branded lynching a white tool of political terror against southern blacks and Rebecca Latimer Felton who urged white men to prove their manhood by lynching black men accused of raping white women Feimster makes

visible the ways in which black and white women sought protection and political power in the New South While Wells was black and Felton was white both were journalists temperance women suffragists and anti rape activists By placing their concerns at the center of southern politics Feimster illuminates a critical and novel aspect of southern racial and sexual dynamics Despite being on opposite sides of the lynching question both Wells and Felton sought protection from sexual violence and political empowerment for women Southern Horrors provides a startling view into the Jim Crow South where the precarious and subordinate position of women linked black and white anti rape activists together in fragile political alliances It is a story that reveals how the complex drama of political power race and sex played out in the lives of Southern women Mystery Women, Volume Two (Revised) Colleen Barnett,2011-12-31 Many bibliographers focus on women who write Lawyer Barnett looks at women who detect at women as sleuths and at the evolving roles of women in professions and in society Excellent for all women s studies programs as well as for the mystery hound Look at the popularity of such reading guides as Willetta Heising s Detecting Women 3rd ed 0 9644593 7 X or Amanda Cross fiction Honest Doubt 0 345 44011 0 11 00
