theology of fitness and in the process becoming an internationally known figure But the freedom he found in running was not enough and one day he left his family having decided that life was an experiment of one and it was time for him to start living it Angry and disillusioned after years of enduring his father's self absorption and hurt by his apparent indifference Andrew had long since begun the search for his own version of freedom looking first to drugs and later to alcohol By his twenties he was a confirmed alcoholic By his thirties his marriage had fallen apart and he was drinking more heavily than ever It was at that moment that his father threw him a lifeline Although he was struggling with the cancer that would eventually end his life Dr Sheehan was the first to notice his son's pain and to reach out to him In this stunningly candid book Andrew Sheehan describes the process through which these two men carefully and lovingly rebuilt their relationship And in the effort to understand and forgive the dark side of his father's psyche Andrew shows how he came to understand and to transcend his own A gracefully written paean to the healing power of forgiveness a memoir that will resonate with any fallible parent or child Chasing the Hawk traces the arduous steps that carry father and son down the hard road to resolution healing and love
