Parents Journal Guide To Raising Great Kids:

The Parent's Journal Guide to Raising Great Kids Bobbi Conner, 1997 The Parent's Journal Guide to Raising Great Kids is a comprehensive book of ingredients for raising children. It is based upon Bobbi Conner's experience as a mother and upon the ten years of research and broadcast interviews Bobbi has conducted in putting together The Parent's Journal, her award-winning public radio show that reaches 1.4 million parents a week. The Parents Journal Guide identifies the most important things every child needs in order to develop and thrive and presents easy everyday opportunities to meet these needs through the ordinary daily routine of parents and children. Through over 700 in-depth interviews on topics ranging from temper tantrums to kids in sports to baby's first words to homework hassles, Bobbi has sifted through a vast assortment of parenting information to find the best tried and true parenting wisdom. Each chapter of The Parents Journal Guide is formatted to include three distinctive accessible components: What Kids Need, Parent's Job Description, and Everyday Opportunities, and will include information targeting the different stages in your child's life. **Parents Who Think Too Much** Anne

Cassidy, 2010-10-06 With the baby boom generation came the genre of parenting books that told parents how to teach their kids everything from toilet training to developing self-esteem. Generally, the message has been: go easy on your child but hard on yourself. It is starting to become apparent, especially in the best of families, that giving your kids lots of choices, validating their feelings at great peril to your own, and providing enough individual attention for each child is creating a generation of kids over whom we have no control. Cassidy argues that this comes from overthinking our role as parents. We've pondered every step so much that the juice, the joy, and worst of all, our confidence is gone. The reasons are clear. We have fewer children later in life, so we've had more time to ponder. We've grown up just as research on infant and child development has come of age, so there's no shortage of material to think about. As a generation, we've prided ourselves on self-improvement and we bring the same zeal to child improvement. We're less likely to live close to our families and so are more likely to seek out expert solutions. To counter this thinking, Cassidy will suggest keeping the big picture in mind: what kind of people do you really want your kids to be? Honest, kind, cooperative, empathetic. It may mean losing sight of whether enough play dates are scheduled for the week, and if you've positively reinforced the latest creative endeavor, but it will bring back your instincts about what is important to your family as a whole and to your kids to become decent people. *Raising Great Kids* Henry

Cloud, John Townsend, 2009-09-01 What does it take to raise great kids? If you've read any books on parenting, conflicting opinions have probably left you feeling confused. Get tough.
