Sustainable Development: National Aspirations, Local Implementation Alan Terry, 2016-04-01 Using case studies from Africa South America Asia and the Caribbean this book examines the progress made in uniting national aspirations of sustainable development strategies with their local implementation Comparing the situation on the ground with formal national environmental action plans the book compares progress or the lack of progress between different sectors cultures regions and resources throughout the developing world It

examines whether local knowledge and actions are undermining national aspirations or whether they are being ignored at the national level with detrimental consequences to sustainable development The measurement of sustainable development the role of formal and informal education in sustainable development and the significance of diverse voices in the practice of sustainable development are considered The book draws lessons from those cases which appear to be experiencing positive moves towards sustainability and examines whether common frameworks exist which suggest that good practice may be transferable from one milieu to another *Study on impacts of farmer-led research supported by civil society organizations* Wettasinha, C., Waters-Bayer, A., van Veldhuizen, L., Quiroga, G., Swaans, K., 2015-01-15 Decades of scientific research related to agriculture and natural resource management have brought limited benefits to smallholder farmers including crop farmers fishers livestock keepers and other resource users Therefore donors policymakers and civil society organizations CSOs such as farmer organizations and nongovernmental organizations NGOs are urging the formal research sector to make its work more useful to smallholder farmers Many institutions of agricultural research and development are now seeking ways to engage more closely with smallholders in order to conduct research that is more relevant for and accessible to them and are seeking examples and good practices as sources of learning Some examples of research that is focused on smallholders and in which the process is co managed and driven by smallholders can be found in informal research initiatives specifically those which are facilitated by CSOs The purpose of this study was to identify such examples of informal agricultural research and development that could be documented and thus made accessible to formal researchers This report also describes farmer led research findings and their dissemination and analyzes available evidence on the impact of farmer led approaches to agricultural research and development on rural livelihoods local capacity to innovate and adapt and influence on governmental institutions of agricultural research and development Towards Impact and Resilience J. Oloka-Onyango, Aldo Stroebe, Frans Swanepoel, 2014-09-18 This book consisting of 17 chapters focuses on clarifying the challenges issues and priorities of Agricultural Education and Training AET in sub Saharan Africa and provides suggestions for practical solutions that can help guide organisations interested in furthering AET for agricultural development on the continent It discusses the African context within which a transformed AET system needs to be located analyses African and international experiences that are relevant to identified AET needs and challenges dissects AET models that may hold important lessons and addresses the main critical issues that will impact upon AET in sub Saharan Africa The concluding chapter synthesises the ideas experiences and evidence from the preceding chapters in order to highlight critical issues for success as well as possible solutions The book is uniquely positioned to add to a call to action on AET to pull together state of the art knowledge from within and outside sub Saharan Africa and to advance out of the box thinking about the principles values and character of AET for development with an emphasis on the models that can help to cultivate leaders and change makers at all levels of the agricultural sector Revolutions in Development Inquiry Robert Chambers, 2012-05-04 Robert

Chambers returns with a new book that reviews together for the first time some of the revolutionary changes in the methodologies and methods of development inquiry that have occurred in the past forty years and reflects on their transformative potential for the future. This book breaks new ground by describing and analysing the evolution of a sequence of approaches. Starting with the dinosaurs of large scale multi subject questionnaire surveys and the biased visits and perceptions of rural development tourism and urban based professionals there follows a look at the explosive proliferation of methodologies and methods of recent years. These include rapid rural appraisal RRA participatory rural appraisal PRA and dramatic developments in the still largely unrecognized fields of participatory numbers and statistics and of participatory mapping and GIS. Chambers shows how these can empower local people and provide rigorous and valid substitutes for some more traditional methods of inquiry. Also presented is a repertoire for offsetting the biases of the urban trap which has become so serious for officials and aid agency staff. Importantly Chambers points out that we are now in a different space methodologically from a few years ago. He makes the case that participatory methodologies evolved through creative and eclectic pluralism can be a transformative wave for the future as drivers of personal professional and institutional change. This book is for all who are concerned with development regardless of profession discipline or organization who seek to be abreast of the revolutionary breakthroughs in approaches and methods of inquiry of recent years and what Chambers calls their unlimited potentials. Veterinary Epidemiology Michael Thrusfield, 2018-02-19 A comprehensive introduction to the role of epidemiology in veterinary medicine. This fully revised and expanded edition of *Veterinary Epidemiology* introduces readers to the field of veterinary epidemiology. The new edition also adds new chapters on the design of observational studies, validity in epidemiological studies, systematic reviews and statistical modelling to deliver more advanced material. This updated edition begins by offering an historical perspective on the development of veterinary medicine. It then addresses the full scope of epidemiology with chapters covering causality, disease occurrence, determinants, disease patterns, disease ecology and much more. *Veterinary Epidemiology* Fourth Edition Features updates of all chapters to provide a current resource on the subject of veterinary epidemiology. Presents new chapters essential to the continued advancement of the field. Includes examples from companion animal, livestock and avian medicine as well as aquatic animal diseases. Focuses on the principles and concepts of epidemiology, surveillance and diagnostic test validation and performance. Includes access to a companion website providing multiple choice questions. *Veterinary Epidemiology* is an invaluable reference for veterinary general practitioners, government veterinarians, agricultural economists and members of other disciplines interested in animal disease. It is also essential reading for epidemiology students at both the undergraduate and postgraduate levels.
