Shast War:

Iran's Military Power Projection and the Empowerment of Ansar Allah Fatima Moussaoui, 2025-05-24 The Islamic Republic of Iran although it has become famous for its foreign policy choices and actions on the international scene it remains an enigma for the West This book provides an introspective analysis of the foundation of this unique Islamic state and reveal what makes it resilient and attempts to sustain it Taking a multidisciplinary approach using anthropological philosophical psychological and military grids the book revisits the power of the clergy and maps out its original meaning and its ability to be wielded to serve policies in line with Iran s contemporary political context This book will be of interest to students and scholars of military strategy international security and geostrategy as well as military officers and policy makers who will benefit from the fresh perspective it adds to the Western view of a country whose strategic and military thinking is still largely unknown or misunderstood

The Argonaut ,1918 *The A to Z of Fantasy Literature* Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
