Why Economists Disagree David L. Prychitko, 1998-01-01 Provides a convenient introduction to heterodox

alternatives to neoclassical economics **Cyber-Marx** Nick Dyer-Witheford,1999 In this highly readable and thought provoking work Nick Dyer Witheford assesses the relevance of Marxism in our time and demonstrates how the information age far from transcending the historic conflict between capital and its laboring subjects constitutes the latest battleground in their encounter Dyer Witheford maps the dynamics of modern capitalism showing how capital depends for its operations not just on exploitation in the immediate workplace but on the continuous integration of a whole series of social sites and activities from public health and maternity to natural resource allocation and the geographical reorganization of labor power He also shows how these sites and activities may become focal points of subversion and insurgency as new means of communication vital for the smooth flow of capital also permit otherwise isolated and dispersed points of resistance to connect and combine with one another Cutting through the smokescreen of high tech propaganda Dyer Witheford predicts the advent of a reinvented autonomist Marxism that will rediscover the possibility of a collective communist transformation of society Refuting the utopian promises of the information revolution he discloses the real potentialities for a new social order in the form of a twenty first century communism based on the common sharing of wealth Russia's Path from Gorbachev to Putin David Kotz,Fred Weir,2007-05-07 Over the past few years many of the former Communist rule countries of Central and Eastern Europe have taken a steady path toward becoming more or less normal capitalist countries with Poland and Hungary cases in point Russia on the other hand has experienced extreme difficulties in its attempted transition to capitalism and democracy The pursuit of Western endorsed policies of privatization liberalization and fiscal austerity have brought Russia growing crime and corruption a distorted economy and a trend toward authoritarian government In their 1996 book *Revolution from Above* David Kotz and Fred Weir shed light on the underlying reasons for the 1991 demise of the Soviet Union and the severe economic and political problems of the immediate post Soviet period in Russia In this new book the authors bring the story up to date showing how continuing misguided policies have entrenched a group of super rich oligarchs in alliance with an all powerful presidency while further undermining Russia s economic potential New topics include the origins of the oligarchs the deep penetration of crime and corruption in Russian society the financial crisis that almost destroyed the regime the mixed blessing of an oil dependent economy the atrophy of democracy in the Yeltsin years and the recentralization of political power in the Kremlin under President Putin **Robin Hood Was Right** Chuck Collins,Pam Rogers,Joan P. Garner,2000 Last year Americans donated 150 billion to charity an amount larger than the U S defense budget Giving has never been more popular possible or for many more confusing There are oceans of need mountains of requests and often little time to examine our preconceptions about money earned inherited bequeathed saved spent and make the best decisions on how to give effectively After the Fall George Katsiaficas,2001-05-10 Did the U S really win the Cold War Is the fall of Communism only a temporary setback for Marxism or has the freemarket prevailed once and for all In this work the last ten years are examined by the most important Marxist scholars and journalists
