Six Air Forces Over the Atlantic Col. Joseph T. Molyson, Jr. (RET), 2024-04-16 The Battle of the Atlantic was the longest campaign of World War II lasting the entirety of the war in Europe from September 1939 to May 1945 It was also one of the war s most complex campaigns involving strategy operations tactics logistics politics diplomacy and alliances During the war s first two years the United States was drawn deeper into partnership with Great Britain and closer toward conflict with Germany in the waters of the North Atlantic Franklin Roosevelt realized this theater s importance I believe the outcome of this struggle is going to be decided in the Atlantic And so American British and Canadian forces battled Germans at sea and in the air to protect the flow of first materiel and then men from the United States to the United Kingdom The sea part has been well covered how German U boats and other warships hunted Allied convoys and how the Allies ultimately turned the tide Not so much the air war In Six Air Forces over the Atlantic Joseph Molyson tells the story of the Battle of the Atlantic from the perspective of the air forces and airmen who waged it from the skies above the icy waters of the North Atlantic He blends big picture attention to strategy and tactics with dramatic episodes of air to air and air to sea combat including the engagement in which a British light bomber captured a German U boat near Iceland He details the close eye Franklin Roosevelt kept on the campaign the

effect B 24 Liberator bombers had and the rise of the Royal Air Force Coastal Command as a true U boat busting force The result was victory in the Atlantic as well as a significant contribution to victory in World War II *Shadow over the Atlantic* Robert Forsyth, 2017-07-27 German U boats were the scourge of Allied merchant and military shipping in the Atlantic during World War II threatening to isolate and then starve the UK out of the War As Germany's war against the Allied convoys intensified in late 1943 German Admiral Karl Dönitz called upon the Luftwaffe to provide a long range spotting and shadowing unit to act as eyes for his U boats Equipped with big four engined Junkers Ju 290s fitted out with advanced search radar and other maritime ELINT electronic intelligence devices Fernaufklärungsgruppe FAGr 5 Atlantik undertook a distant isolated campaign far out into the Atlantic and thousands of miles away from its home base in western France The information generated and reported back to Dönitz's headquarters was vital to the efforts of the U boats and FAGr 5's shadowing missions were assigned priority in terms of skilled crews supplies and equipment This book tells for the first time the fascinating story of the formation and operations of FAGr 5 Atlantik drawing on never before published historical records of the unit that accounted for the reporting and destruction of thousands of tons of Allied shipping **Hunting Tito** Lovro Peršun, 2025-06-06 For the first time the history of one of the most significant and longest lasting Luftwaffe combat units is presented Operating against Tito and his partisans in Yugoslavia Nachtschlachtgruppe 7 and its predecessor units Störkampfstaffel Kroatien and Seestör fought an extraordinary war one that was different from any other Nachtschlachtgruppe in existence on either the eastern or western fronts The history of Nachtschlachtgruppe 7 is unbreakably cross linked with its sister unit Nahaufklärungsstaffel Kroatien who eventually became its 2. Staffel in Autumn 1943 Despite their obsolete equipment flying the Hs 126 Do 17 and He 46 they fought courageously against Tito's forces until the end of the war Air Power History, 1997 **In the Skies of Europe** Hans Werner Neulen, 2000 During WWII the air forces and pilots of the countries allied to Germany played a greater role than historians concede In this volume the author has gathered an enormous amount of information on the air forces of eight countries and the various foreign airmen including Russian who fought with the Luftwaffe Their operations mostly carried out in conditions of numerical inferiority their successes and failures as well as the motivation of these aircrew and their often tragic fate are fully incorporated into this comprehensive account *Air Force Magazine*, 1996-07 German Aircraft Industry and Production, 1933-1945 Ferenc A.
