Luminous Passage The Practice And Study Of Buddhism In America:

Luminous Passage Charles S. Prebish, 1999-06-07 Since the 1960s Buddhism in America has been viewed through the lens of idealism generally associated with the spiritual quest of baby boomers This portrayal has been accurate only to a degree Charles Prebish's *Luminous Passage* is the first account in a new generation of commentary to demonstrate the complexity and variety of this tradition as it establishes roots in this country This book will surely stand as one of the most comprehensive assessments of Buddhism in the United States at the turn of the millennium Richard Seager Hamilton College

Race and Religion in American Buddhism Joseph Cheah, 2011-10-28 While academic and popular studies of Buddhism have often neglected race as a factor of analysis the issues concerning race and racialization have remained not far below the surface of the wider discussion among ethnic Buddhists converts and sympathizers regarding representations of American Buddhism and adaptations of Buddhist practices to the American context In *Race and Religion in American Buddhism* Joseph Cheah provides a much needed contribution to the field of religious studies by addressing the under theorization of race in the study of American Buddhism Through the lens of racial formation Cheah demonstrates how adaptations of Buddhist practices by immigrants converts and sympathizers have taken place within an environment already permeated with the logic and ideology of whiteness and white supremacy In other words race and religion Buddhism are so intimately bounded together in the United States that the ideology of white supremacy informs the differing ways in which convert Buddhists and sympathizers and Burmese ethnic Buddhists have adapted Buddhist religious practices to an American context Cheah offers a complex view of how the Burmese American community must negotiate not only the religious and racial terrains of the United States but also the transnational reach of the Burmese junta *Race and Religion in American Buddhism* marks an important contribution to the study of American Buddhism as well as to the larger fields of U S religions and Asian American studies

investigated and a voice is provided to people on the ground who have been fundamental in making this process possible For the first time academic analysis and practitioners experience are juxtaposed to show the adaptations and challenges of Buddhism in Australia from above and below This book is a unique and valuable contribution to the study of Buddhism in the West globalization of religion and studies in Asian Religion *Buddhist Thought and Applied Psychological Research* D.K. were more urban than the rest of the state and thus provided people with opportunities seldom found in other parts of North Carolina. This area drew residents from many ethnic backgrounds and the men and women who settled there became an integral part of the region's culture. Set against the backdrop of national and southern religious experience, *A Coat of Many Colors* examines issues of religious diversity and regional identity in the Cape Fear area. Author Walter H. Conser Jr. draws on a broad range of sources including congregational records, sermon texts, liturgy, newspaper accounts, family memoirs, and technological developments to explore the evolution of religious life in this area. Beginning with the story of prehistoric Native Americans and continuing through an examination of life at the end of the twentieth century, Conser tracks the development of the various religions, denominations, and ethnic groups that call the Cape Fear region home. From early Native American traditions to the establishment of the first churches, cathedrals, synagogues, mosques, and temples, *A Coat of Many Colors* offers a comprehensive view of the religious and ethnic diversity that have characterized Cape Fear throughout its history. Through the lens of regional history, Conser explores how this area's rich religious and racial diversity can be seen as a microcosm for the South, and he examines the ways in which religion can affect such diverse aspects of life as architecture and race relations.
