Mystery Women, Volume Three (Revised) Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective

Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008

Jimmy James McAdoo,2007-08 Jimmy McAdoo was the swimming coach at Swarthmore College for more than thirty years He was not a natural fit for that outstanding academic institution He did not have a college degree although he had the opportunity He was a coach who marched to his own beat and did things his way He brought a sense of humor to his job he had the ability to teach from his life experiences and I think that made him different from most of the faculty I have learned from many of his former swimmers that what made Jimmy different was his unique ability to understand the needs of student athletes under intense academic pressure and to provide the motivational environment for swimmers to exceed their own expectations Jimmy s life was the world of swimming yet he had a difficult time earning a living at the sport he loved That reality created another life for Jimmy that few people knew about even his family I knew the other side of Jimmy and I have chosen to share that side of his life *A Nasty Bit of Murder* C.
