

A guide to connecting to the powerful energy of the moon

The frequency emanated by the moon affects the frequency of our subconscious mind that has control over our feelings, emotions, and desires. It has the power to make the thought frequencies in our subconscious mind surface to the conscious mind. Use this manifestation guide to set your intentions starting at the beginning of the lunar cycle. May this guide help you manifest what you are seeking for and what you wish to appear in your life. "The moon does not fight. It attacks no one. It does not worry. It does not try to crush others. It keeps to its course, but by its very nature, it gently influences. What other body could pull an entire ocean from the shore to shore? The moon is faithful to its nature and its power is never diminished."

MANIFESTATION USING THE LUNAR PHASES

NEW MOON

New beginnings, fresh start, blank page
"I AM OPEN. WHAT I DESIRE,
I WILL MANIFEST."

This is where the process of manifesting for the month begins. Write a manifest list, chant it aloud and light a candle. Meditate and visualize what you desire. Plan. Focus on your ambitions.

CRESCENT MOON

Adjust, refine, edit
"NOTHING IS SET IN STONE. I AM
FLUID AND FREE."

This phase is all about building up power and strength in your desire and making adjustments to your wish. Focus your energy and know your intentions for the lunar cycle. As the moon's energy builds, so will yours.

LAST QUARTER MOON

Release, let go, forgive
"LET GO. I AM FREE. I AM EMPTYING
MYSELF AND ALLOWING THE
UNIVERSE TO TAKE OVER. I AM SOFT, I
AM FLOWING."

This is a time to let go of your desires and allow the opportunity to present itself to you. You've done all you can—allow universe finish your job. This is also a good time to break bad habits or end unfulfilling relationships.

FIRST QUARTER MOON

Challenges, decisions, action
"I AM FILLED WITH LIGHT.
I CAN ACHIEVE ANYTHING I PUT MY
ENERGY TO."

The first quarter is all about building up your manifestation energy. Begin with meditation and focus on your positive energy. Once you've locked in your positive energy, make an action plan on how to achieve your goals.

DISSEMINATING MOON

Gratitude, sharing, enthusiasm
"I AM GRATEFUL FOR EVERYTHING I
HAVE EXPERIENCED. I AM
EXPERIENCING AND WILL EXPERIENCE
IN THIS LIFETIME."

This is an opportunity for true reflection as our energy slows down. You might feel a sense of urgency, but take your time with long-term projects.

FULL MOON

Signed, sealed, stamped
"I AM COMPLETE. WHAT I AM SEEKING
IS ON ITS WAY TO ME."

Emotions and intuition tend to be at a high during this period. This is a time of increased creativity. Enjoy the full moon energy and deepen your connection to the Universe.

GIBBOUS MOON

Intention, hopes, wishes
"WHAT I INTEND TO DO, SO BE IT. I AM
A CREATOR OF MY OWN LIFE."

As the energy rises towards its peak (the full moon), take the time to meditate and consider what manifesting will look and feel like. Review your list of goals and daydream about each of them happening.

and does it again with this fabulous book exposing the Goddess as a presence Not a new age ideal or a force For far too long the true essence of the Goddess has been suppressed not allowed made to feel wrong covered up and even banished Even today there are those who feel quite threatened by women in their true power especially when they are unable to be controlled or made submissive to other s needs Bringing equality into our society for women has certainly had its struggles Unfortunately even though it has improved over the centuries and especially the last 50 years it is still by no means equal Forsaken dignity and ignored divinity has now developed into insecurity and alienation within many women Loss of the divine Goddess has created a barren wasteland full of impoverished feminine spirit S Royas passion shines a light in the darkness empowering the Sacred Feminine to rise up again *The ARTEMIS Mission* Christopher Russell,Vassilis

Well-Mannered Medicine Dagmar Wujastyk, 2012-07-03 Well Mannered Medicine explores the moral discourses on the practice of medicine in the foundational texts of Ayurveda The classical ayurvedic treatises were composed in Sanskrit between the first and the seventh centuries CE and later works dating into the sixteenth century CE are still considered strongly authoritative As Wujastyk shows these works testify to an elaborate system of medical ethics and etiquette Physicians looked to the ayurvedic treatises for a guide to professional conduct Ayurvedic discourses on good medical practice depict the physician as highly educated skilled moral and well mannered The rules of conduct positioned physicians within mainstream society and characterized medical practice as a trustworthy and socially acceptable profession At the same time professional success was largely based on a particular physician's ability to cure his patients This resulted in tension as some treatments and medications were considered socially or religiously unacceptable Doctors needed to treat their patients successfully while ostensibly following the rules of acceptable behavior Wujastyk offers insight into the many unorthodox methods of avoiding conflict while ensuring patient compliance shown in the ayurvedic treatises giving a disarmingly candid perspective on the realities of medical practice and its crucial role in a profoundly well mannered society

Moon Viorel Badescu, 2012-03-22 The Earth has limited material and energy resources Further development of the humanity will require going beyond our planet for mining and use of extraterrestrial mineral resources and search of power sources The exploitation of the natural resources of the Moon is a first natural step on this direction Lunar materials may contribute to the betterment of conditions of people on Earth but they also may be used to establish permanent settlements on the Moon This will allow developing new technologies systems and flight operation techniques to continue space exploration In fact a new branch of human civilization could be established permanently on Moon in the next century But meantime an inventory and proper social assessment of Moon's prospective energy and material resources is required This book investigates the possibilities and limitations of various systems supplying manned bases on Moon with energy and other
