Cosmopolitan Love Sijia Yao, 2023-11-09 Love and the different

manifestations of it is a common theme in literature around the world In *Cosmopolitan Love* Sijia Yao examines the writings of D H Lawrence a British writer whose literature focused primarily on interpersonal relationships in domestic settings and Eileen Chang a Chinese writer who migrated to the United States and explored Chinese heterosexual love in her writing While comparing the writings of a Chinese writer and an English one Yao avoids a direct comparison between East and West that could further enforce binaries Instead she uses the comparison to develop an idea of cosmopolitanism that shows how the writers are in conversation with their own culture and with each other Both D H Lawrence and Eileen Chang wrote stories that are influenced by but sometimes stand in opposition to their own cultures They offer alternative understandings of societies dealing with modernism and cultural globalization Their stories deal with emotional pain caused by the restrictions of local politics and economics and address common themes of incestuous love sexual love adulterous love and utopian love By analyzing their writing Yao demonstrates that the concept of love as a social and political force can cross cultural boundaries and traditions to become a basis for human meaning the key to a cosmopolitan vision **Book Review**

Digest ,1916 **Bulletin of the Library Company of Philadelphia** ,1893 **A Bull of a Man** John Powers,2009-06-19 The androgynous asexual Buddha of contemporary popular imagination stands in stark contrast to the muscular virile and sensual figure presented in Indian Buddhist texts In early Buddhist literature and art the Buddha s perfect physique and sexual prowess are important components of his legend as the world s ultimate man He is both the scholarly religiously inclined brahman and the warrior ruler who excels in martial arts athletic pursuits and sexual exploits The Buddha effortlessly performs these dual roles combining his society s norms for ideal manhood and creating a powerful image taken up by later followers in promoting their tradition in a hotly contested religious marketplace In this groundbreaking study of previously unexplored aspects of the early Buddhist tradition John Powers skillfully adapts methodological approaches from European and North American historiography to the study of early Buddhist literature art and iconography highlighting aspects of the tradition that have been surprisingly invisible in earlier scholarship The book focuses on the figure of the Buddha and his monastic followers to show how they were constructed as paragons of masculinity whose powerful bodies and compelling sexuality attracted women elicited admiration from men and convinced skeptics of their spiritual attainments
